Soon winter spraying will begin. Before the trees sprayed the orchards should be thoroughly pruned if in need of pruning as this will lessen the cost of material for spraying and also the cost for labor. Here is a leak in the expense account that may be stopp'd by doing the right thing first—Oregon Agriculturist.

Why Colds are Dangerous

Because you have contracted ordinary colds and recovered from them without treatment of any kind do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that not otherwise have found lodgment. It is the same with all infectious diseases, Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by R. S. Knowlton.

Where Bullets Flew

David Parker, of Fayette, N. Y., a veteran of the civil war, who lost a foot at Gettysburg, says: "The good Electric Bitters have done me more good than five hundred dollars to me. I spent much money doctoring for a bad case of stomach trouble, to little purpose. I then tried Electric Bitters, and they cured me. I now take them as a tonic, and they keep me strong and well." soc. at R. S. Knowlton drug store.
