When you want a pleasant physic give Chamberlain's Stomach and Liver Tablets a trial. They are mild and gentle in their action and always produce a pleasant cathartic effect. Call at R. S. Knowlton's drug store for a free sample.

SOMETHING TO THINK ABOUT.

\$30,000,000 Worth of Durum in Five Years.

A few years ago \$10,000 were invested in durum wheat which was sowed in a country where one steer required 20 acres for his support. Five years later 3,000,000 acres of land were sown to durum wheat and produced over 45,000,000 bushels. An investment of \$10,000 in the beginning brought forth a crop worth \$30,000,000 in approximately five years. Oregon has many thousands of acres of land, part of which is producing a crop every two years and part is supporting a few steers. Statistics prove that from nine to twenty per cent of the dairy cows are infected with tuberculosis. It has been proved beyond doubt that tuberculous cows are responsible in a great measure for the prevalence of tuberculosis in the human family.

The Department of Agriculture of the Federal Government, through the medium of the Experiment Stations and Agricultural Colleges is trying to solve many problems of which these are two examples. In order to do this work many hundred thousand dollars are expended annually in carrying on experiments. By virtue of the progress made in these matters many hundred million dollars are saved and earned, and human life is made more stable.

The State of Oregon with its wealth of undeveloped natural resources and its great areas of rich land needs more than most states the help of this great movement. The Oregon Agricultural College is an agent in this great work. It is preparing the young men and women of Oregon to cope with the problems of industrial and agricultural life. If its work stopped here it would be deserving of the State's most liberal bounty. But in this it has only its beginning. In its laboratories experts are studying soils and seeds, the life and diseases of plants and animals, the construction of roads and the irrigation of lands, methods and means best adapted to the needs of the people of the state. The information so derived is given freely to those who come for it and as freely sent to those who cannot come. In other words the college is working constantly, intelligently and effectively to advance the welfare of the people of this great commonwealth.

The people of the State are just beginning to appreciate the practical value of this great work. This year their legislature has appropriated over three and one-half hundred thousand dollars to make possible an extension and improvement in its scope and effectiveness. A hundred thousand dollars more were asked for and several hundred thousand dollars more were needed. It costs money to send a state to College—but it pays. In other words the institution, social, industrial or educational, which can be fed on a hundred thousand dollars and made to produce a hundred million dollars is worth feeding.

Ten Perish in Fire.

New York, March 3.—Cut off from escape by the burning of a stairway, ten persons perished early today in a five story tenement house at 372 Seventh avenue. The victims were all Italians, with one exception. They ranged from four to sixty years of age. Five persons including one fireman were injured.

Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy. Fuhrman's Pharmacy.

For Sale.

Two or three nice new bungalow in beautiful locations. Inquire at the Herald office.

Carl Schroeder.

Mr. John D. Carl, son of Mrs. Amanda Carl, of Portland, and Miss Edna May Schroeder, youngest daughter of Mr. and Mrs. A. H. Schroeder, of Norway, were united in marriage Wednesday, March 3d, at noon, by Rev. Thos. Barklow, of this city, in the presence of a large number of relatives and friends.

The wedding party was assembled in the up-stairs rooms, and the line of march led down the stairs and under a handsome arch of Oregon grape and flowers, where the ceremony took place. The bride was supported and given away by her father. The groomsmen were Chas. E. Schroeder and A. H. Bender; the bridesmaids were Mrs. F. Linegar and Mrs. A. H. Bender, sisters of the bride. The wedding march was played by Mrs. C. E. Schroeder. Following the ceremony and congratulations the guests were seated at sumptuously spread tables that extended through two rooms, and the repast was greatly enjoyed by all. Many useful and beautiful presents were displayed.

The young people are well and favorably known and enter upon their married life with most favorably prospects and hosts of friends to wish them success. Both are natives of Coos county, and children of the sturdy Coos county pioneer stock. They will make their home on the old Carl homestead at Norway.—Myrtle Point Enterprise.

Little Child Dies.

Naomi Armand Snyder, the thirteen-month-old daughter of Mr. and Mrs. Geo. Snyder, died at the Marshfield General hospital at 6 o'clock this morning after a several day's illness of meningitis. The little one's death was not unexpected, as the disease recurred such a hold on her that hope was given up a couple of days ago.

The little miss was the only grandchild of Mr. and Mrs. John Snyder, prominent pioneers of Marshfield, and her death casts a deep gloom over the entire family. Having just reached the age when her winsome ways had won for her a place in the hearts of all with whom she came in contact, her death will be greatly mourned by many.

The funeral will be held from the home of Mr. and Mrs. John Snyder at Washington and Broadway Saturday afternoon at 2 o'clock.—Coos Bay Times.

Prisoner Fools Officer.

A dispatch dated Bristol, Tenn., Feb. 24th, says: After having been brought from Oregon, D. H. Meads, wanted in Virginia for murder, escaped yesterday from two officers after robbing them of their money, guns and watches. Mead was captured in Oregon several weeks ago. The officers, with their prisoner, paired to a hotel to rest. The prisoner was handcuffed to one of the officers. While they were asleep Mead secured the handcuff keys, robbed the officers and escaped.

"Besides being an excellent remedy for colds and throat troubles, Chamberlain's Cough Remedy, is unequalled as a 'cure for croup,'" says Harry Wilson of Waynetown, Ind. When given as soon as the croupy cough appears, this remedy will prevent the attack. It is used successfully in many thousands of homes. For sale by R. S. Knowlton.

Regarding President's Salary.

Washington, March 3.—The salary of President Taft will be \$75,000 a year, according to an agreement reached today by the conferees on the legislative bill. In the sundry civil bill there is an amendment giving the President \$25,000 for traveling expenses and if this is agreed to, the annual compensation of the President will be \$100,000. The Senate conferees on the legislative bill receded from amendments increasing the salaries of the Vice-President, Speaker of the House and Federal Judges.

Foley's Honey and Tar cures cough quickly, strengthens the lungs and expels colds. Get the genuine in a yellow package. Fuhrman's Pharmacy.

IDAHO-COOS BAY RAILROAD.

The First State Built Road in the West. Beginning of Success Says Col. E. Hofer.

Portland, Oregon, March 4.—The first state built railroad in the west will be from Boise, Idaho, to Ontario, Oregon, according to delegates who have returned from the session of the Oregon-Idaho Development congress, which met in Boise. The congress was enthusiastically in favor of state built roads, and, as the first section of the badly needed line from Boise across Oregon to Coos Bay, it is believed the state of Idaho will build the Boise-Ontario line.

Colonel E. Hofer of Salem, who with Addison Bennett, was an Oregon representative at the congress, returned from Boise enthusiastic over the attitude of the Idaho delegates.

"The Oregon amendment to the constitution allowing the construction of state built roads was examined by three of the most able lawyers in Idaho," said Colonel Hofer, "and found to be practicable and constitutional. The plan is to build the railroads by districts, just as irrigation projects are constructed under the Idaho law. In that way the districts to be benefited by such roads are taxed for their construction and the people of the whole state do not have to share the burden. It is what is known as 'cooperative collectivism' and not Socialism."

Colonel Hofer said there was great enthusiasm expressed for Oregon's part in leading the fight to secure badly needed transportation privileges, and that it was hoped Oregon and Idaho would work together for such railroads as are most needed.

Gored by Bull.

Charles Esterbeck, a well-known Catching Inlet rancher, was attacked and seriously injured by a Jersey bull at his ranch last evening. He lives alone and was barely able to reach his house, where he laid in agony until early this morning when his condition was discovered by L. G. Masters, James Stock and Adolph Miller from the launch Curlew. He was very weak from the loss of blood and the three telephoned to Marshfield to secure Dr. Thayer to care for him. Mr. Miller remained with him until the physician could arrive.

But little is known of the accident. This morning when the Curlew stopped to get the usual consignment of milk, there was no can at the landing. Some of the boys ran up to the house, thinking that Mr. Esterbeck was a little late in getting around. As they neared the house, they noticed a trail of blood leading to the building and on entering the door found the floor crimson. Mr. Esterbeck was barely able to call to them and tell them that he had been attacked by a Jersey bull and been badly gored, two bad gashes being cut near the waist line.

Just how serious Mr. Esterbeck's injuries are will not be known until Dr. Thayer returns today.—Coos Bay Times.

Myrtle Point Enterprise.

Frank Sowash has returned from Eureka, California, where he has been on a visit to his father.

E. B. Land went to Marshfield the first of the week on a business trip, and to meet Mrs. Lane, who was coming in from San Francisco.

Henry Strong returned Monday with his son, Clarence, who recently underwent an operation at Marshfield. He reports that Clarence is getting along nicely and expects him to make a rapid recovery.

Henry G. Ploeger has so far recovered from his late attack of sickness that he is able to be up and about and attending to business to some extent.

For Sale.

Forty-acre ranch one-fourth of mile from school and river landing. Will sell all or part. A good bargain is offered. Inquire at this office.

Burned to Death.

One of the saddest incidents that has occurred in Bandon for a long time was the fatal burning of the little two year old daughter of Dr. and Mrs. S. L. Perkins last Sunday morning at 10:45, the little child living until 7:30 Monday evening.

On Sunday morning three of the children were playing in the center of the room in which was the fire place, and the mother had just stepped out to feed the chickens, and had hardly gotten outside when she heard the screams of the child, rushing in she found her clothes aflame, and immediately proceeded to smother the flames. The child's back was badly burned as was also its head and cheek.

Dr. Perkins was at the office at the time and was summoned at once, rushing home he immediately used appliances to stop the pain and apparently succeeded in that, but the child's fever ran very high, although on Monday she seemed better, until about 4:30 in the evening when she had a convulsion, after which she never regained consciousness and died at 7:30. She was a bright child and was the sunshine of the home. Her little presence will be greatly missed, and the sorrowing parents will have the sympathy of the entire community.

The funeral was held at the home Wednesday at 10:00 a. m. being in charge of Rev. C. H. McKee, Baptist Colporteur of southwestern Oregon. Interment was made in the Bandon cemetery.—Bandon Recorder.

Crooks Pardoned.

Frank G. Micelli returned from a business trip to Portland and Salem Friday morning. While at the Capital city Mr. Micelli succeeded in securing the pardon of the two Crooks sent to the penitentiary for participating in a riot at Glendale a little over three years ago, during which a woman was shot and instantly killed. Mr. Micelli presented a petition to the Governor, signed by the surviving members of the jury before whom the men were tried as well as other influential parties who were interested in the case at the time it were originated. After considerable argument the Governor conceded to issue the pardon and the men are now at large. They have served three years of the 10-year sentence.

Searching for Robbers.

Albany, Or., March 4.—The Albany police are searching for the robbers who broke into the Benton county courthouse at Corvallis last night and robbed the county treasurer of \$285 and a gold watch.

The men are believed to have left Corvallis in a gasoline launch for this city, leaving the boat on the opposite side of the river just above the steel bridge. Here they are supposed to have taken to the woods, and as yet have not been apprehended.

Eggs for Hatching.

from pure breed stock. Both our Coocrels to head our pens of Brown and White Leghorn took 1st prize at Oregon State Fair 1908, where more birds were on exhibition, than any show ever held on the coast. Have a pen of full blood White Plymouth Rocks headed by rooster from U R Fishel, the most celebrated breeder of W R in the world, also have Black Minorcas of the best strain, and the 1st pair of prize winners Indian Runner ducks at Oregon State Fair, 1908.

Register Jersey cattle and Berkshire hogs. Write for prices or call at farm of J. C. Watson, Coquille.
