### NOTES OF THE BIG EXPOSITION

Further Details of Plans for the A. Y. P. Fair.

Seattle, May 23.—Probably the most notable characteristic of the Pay Streak of the Alaska-Yukon-Pacific Exposition is the unusual number of "shows" having high educational value.

As a usual thing the amusement way of an exposition is all straight fun, some of it, at times of questionable character but at Seattle it is a different proposition. Absolute cleanliness has been insisted upon and the directors have accepted attractions of only the highest class.

At the St. Louis Exposition the "Battle of the Monitor and the Merrimack," took the gold medal for excellence over all other amusement features exhibited on the Pike. It was more intensely interesting, of a higher educational value and more ingenious from a mechanical standpoint than any other show.

It is reproduced with the same care on the Pay Streak and Emmet McConnell, probably the best showman in America, the owner of the attraction is personally supervising its installation which will cost \$240,000.

The battle is a faithful reproduction of the famous civil war action which saved the Union at one of the most critical junctures. Not only are the two war-boats seen in action, but every move and every cannon shot is historically correct.

The Battle of Gettysburg, another of McConnell's big cyclorama is shown in a separate building and ranks next to the Monitor and Merrimack in excitement and interest.

Captain Daber's tribe of Siberian Eskimo, in their village at the head of the Pay Streak will also prove a big attraction to those inclined to look for the serious and instructive side of the exposition, as well as those seeking only fun.

The Igorotte Village is another educational feature, as well as one crammed full of amusement. The Igorottes are Government wards but Uncle Sam permits them to be shown the world over for the purpose of educating the public to a proper conception of the little brown brother of the Philippines and his wonderful capacity for civilization and advancement.

The Igorottes have builded every detail of their very large village and they are seen living on the fair grounds just as once they lived in Bontook.

Dixie Land, a true southern spectacle, is a reproducer of plantation life before the war. It shows the old time minstrels and every feature of the happy life the darkey lived before the troubles came that set them free.

The Turkish Village and Streets of Cairo, are spread upon a more elaborate and finished scale than at any other world's fair. There are 187 people employed in delineating the life of the Orient and there are herds of camels and elephants for the youngsters to ride upon.

With a half dozen other attractions of as much class, the exposition management believes that, from the purely educational standpoint, it has gathered the most valuable amusement way ever exhibited at any exposition.

#### Chamberlain's Liniment.

This is a new preparation and a good one. It is especially valuable as a cure for chronic and muscular rheumatism, and for the relief from pain which it affords in acute inflammatory rheumatism. Those who have used it have invariably spoken of it in the highest terms of praise. Lame back, lame shoulders and stiff neck are due to rheumatism of the muscles, usually brought on by exposure to cold or damp, and are quickly cured by applying this liniment freely and massaging the affected parts. Soreness of the muscles, whether induced by violent exercise or injury, is allayed by this liniment. For sale by R. S. Knowlton.

### Spray For Apple Scab.

The Northwestern Horticulturist discusses apple scab control as follows:

The coast apple growers have to contend with the apple scab and spraying with Bordeaux mixture has been the remedy generally used until two years ago when Professor A. B. Cordlay of the experiment station at Corvallis tried and found the lime sulphur effective. The trials were continued last year, when nearly equal results were obtained as in the previous year. For standardizing the spray the "stock solution" method was adopted of preparing the spray with a specific gravity of 1.27. For field work the hygrometer is a cheap, simple and effective instrument. One gallon lime sulphur of specific gravity 1.27 diluted with 15 gallons water can safely be used on foliage with the exception of the peach. Fruitgrowers in a few cases last season used the commercial lime sulphur solution without test and ruined foliage and part of the crop. Some of these preparations should be diluted with 18 gallons of water. Use either the test or spray a few branches of a tree and thus ascertain the strength safe to apply.

Apple scab can be controlled by proper spraying with either Bordeaux mixture or lime-sulphur solution. In humid regions probably at least three applications are necessary. The first just as the blossoms are beginning to show color, the second just after the petals fall, the third some two or three weeks later.

Professor Cordlay has found it perfectly practicable to combine any good brand of arsenate of lead with pure lime sulphur solution made as above directed. But the arsenate of lead is not necessary in absence of codling moth.

The result of two seasons' work indicate that properly prepared lime sulphur solutions may be advantageously substituted for Bordeaux mixture when spraying for apple scab. It has produced each season a larger percentage of fruit free from scab and has not produced any "russeting" of the fruit.

#### A Card.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. C. J. Fuhrman.

#### WILL BOOST STATE

Newspaper Man Becomes Head of Publicity Work.

Oregon's resources are to be made known to the world in a series of articles for the Eastern dailies by Clark Williams, a young newspaper man of this city, who has taken charge of the publicity work in pursuance of the raising of the new fund on behalf of "500,000 in 1912." Mr. Williams has taken a desk in the rooms of the Commercial Club and will begin writing for the press next week.

It is well known that Eastern dailies are all eager for reports of conditions on the Pacific Coast, as the majority of their readers have an idea of coming West some day. These readers eagerly peruse all readable articles pertaining to the Northwest particularly, and as the "readers" will be furnished free to the publications, the advertising thus obtained is expected to go a long way in helping increase the population. Mr. Williams purposes to treat of crop prospects, the location and condition of public lands in Oregon still available for settlement; areas where cheap lands are to be had and the adaptability of such lands for specific purposes and the cost of getting to the various localities, with the route most convenient. The information is to be furnished in a general way, without any attempt to boost any particular business or locality, and will thus have a double value in being reliable and impartial.—Telegram

#### Do It Now.

Now is the time to get rid of your rheumatism. You can do so by applying Chamberlain's Liniment. Nine cases out of ten are simply muscular rheumatism due to cold or damp, or chronic rheumatism, and yield to the vigorous application of this liniment. Try it. You are certain to be delighted with the quick relief it affords. Sold by R. S. Knowlton.

### Successful Operation.

Uncle Shad Hudson was operated upon Tuesday morning by Drs. Stemmler and Johnson, his right arm being amputated just above the elbow. Uncle Shad has been suffering from a diseased bone for a number of years, but not until recently would he consent to having an operation performed. Recently the pain had become so intense that he sought relief through operation. The disease would have resulted in his death in a short time, with an operation as his only chance. In spite of his advanced age, he being a veteran of the Indian war, Mr. Hudson has been getting along nicely since the operation and his friends hope he will soon be out again.—Myrtle Point Enterprise.

#### Whoop a Cough.

This is a more dangerous disease than is generally presumed. It will be a surprise to many to learn that more deaths result from it than from scarlet fever. Pneumonia often results from it. Chamberlain's Cough Remedy has been used in use in many epidemics of whooping cough, and always with the best results. Delbert McKeig of Harlan, Iowa, says of it: "My boy took whooping cough when nine months old. He had in the winter. I got a bottle of Chamberlain's Cough Remedy which proved good. I cannot recommend it too highly." For sale by R. S. Knowlton.

## LOW Rates TO Oregon DAILY

During March and April From all Parts of the East via

UNION PACIFIC  
OREGON SHORT LINE  
THE OREGON  
RAILROAD & NAVIGATION CO.  
SOUTHERN PACIFIC
