## Brief and Breezy.

It's the summer boarder that helps the world go 'round.

The census pie counter is hiving the politicians like molasses does flies.

Harry Thaw has an idea that Jerome and the doctors must be crazy.

Only 330 little one-bite census jobs to feed 336,000 hungry politicians.

Married men work for their own wives and single men are worked by them.

In return for free hides, is Massachusetts going to give us any cheaper shoes?

There is some talk of abolishing the \$2 note. Why not? The fives are much more useful.

Between blazing hot one day and mountain cool the next, the weather is trying to strike a fair average.

One thousand Texas saloons closed on July 10. Probably the greatest "dry" wave ever known.

The lecture platform will claim all of Senator LaFollette's time until December, then Congress meets again.

We rise to maintain that the Payne law will make the American consumer the champion bill footer of the universe.

Japan must remember that when an upish boy gets to butting in everywhere, it ends up in his getting a good spanking.

Secretary of the Treasury MacVeagh ought to reform the world's money-grabbers before he reforms the world's money.

President Taft is correct in his determination that all work done by the government shall be in strict accordance with the law.

Birmingham has kited the price of pig iron another 50 cents a ton. And the tariff was revised, downward too. How funny.

"From an external point of view the prohibition law is all right," says the Dalton Citizen. How about it from an internal point of view?

In London recently a murderer was tried, convicted, and sentenced in less than an hour. Technicalities must not cut much ice over there.

"Another model cashere has run away with the cash," notes the South Bend Tribune. Still, that is not an argument against being a model cashier.

The government has decided to remove the figureheads from all the war vessels. This unfortunately has no reference to any of the officers, however.

But if his good old friend Mr. Taft should attempt to force a big office on him, John Hays Hammond couldn't be expected to put up a very desperate fight against it.

Good for Uncle Jimmy Wilson, whose singlehearted devotion to the farmers' interests is only exceeded by his unquenchable optimism! He is a grand old secretary of agriculture.

An English astronomer says those white streaks on the moon are immense salt deposits. This should keep the man in the moon from getting too fresh with sweethearts now and then.

Canada's apple crop is twice as heavy as usual, this year. But that need not alarm the American apple crop. The blessed tariff amply protects it from the pauper apples of Canada.

We have been asked to give our serious opinion on the peach basket hat. Well we must confess that we do not like 'em, but if there is a real "peach" beneath 'em, we will not kick about the hat.

## Why?

From a small beginning the sale and use of Chamberlain's Cough Remedy has extended to all parts of the United States and to many foreign countries. Why? Because it has proved especially valuable for coughs and colds. For sale by R. S. Knowlton.

## Port Orford Tribune.

Miss Anna Dean, formerly a typist in this office, departed on Saturday's stage for Myrtle Point, where she has secured a position as stenographer in the law office of L. A. Roberts.

Hon. I. N. Muncy was taken seriously ill Friday morning at Knapp's hotel, with heart failure and congestion of blood to the brain, which brought on delirium so wild and visionary that a report became current that he had become insane. But the dangerous symptoms soon yielded to Dr. Glanville's scientific treatment, and the Colonel has rapidly recovered. His trouble was caused by valvular trouble of the heart, and consequent congestion of blood on the brain, and for a short time his condition was very critical.

Two experts, with a complete assaying outfit are said to be at the McKinley copper mines near Gold Beach, and will give those vast deposits a thorough investigation. If the property suits them it will mean much for Gold Beach. This ore can be easily transported to the mouth of Rogue river on a down grade for the entire distance, probably five miles.

George Wilson and Andrew Wickman of Empire were in Port Orford Thursday night on their return home, having had a splendid hunt, and a most delightful time at Moritz Fritzie's eyrie perched high in Rogue river mountains, where they feasted on fat bucks, and swapped yarns on all kinds of scientific subjects from snake bites to evolution. If there are any metal twisters that these two old veterans cannot straighten, Andrew says he would like to know them.

## Best Treatment For a Burn.

If for no other reason, Chamberlain's Salve should be kept in every household on account of its great value in the treatment of burns. It allays the pain almost instantly, and unless the injury is a severe one, heals the parts without leaving a scar. This salve is also unequalled for chapped hands, sore nipples and diseases of the skin. Price, 25 cents. For sale by R. S. Knowlton.

## Good Ranch for Sale.
