PORTLAND, OREGON.

K. Holverson has opened a Tailor Shop one door west of the Sentinel office. He does all kinds of tailoring. All work guaranteed.

## Important Road Meeting.

A very enthusiastic road meeting was held at the court house in this city Friday afternoon for the purpose of voting a special tax in road district No. 16, creating a fund with which that portion of the Cunningham road lying in this district may be planked. For three consecutive years the residents of the Fairview section have voted a special tax for the improvement of the main roadway through the district and leading to this city, and at present have a well planked road from Fairview to the district line. The portion of the road belonging to district No. 16 has not been improved in that way, but our people are now determined to meet our Fairview friends with a good planked road.

Last season a change was made, making it possible to avoid the heavy grade up the Bullack mountain, and when planked will make a good road the year round to this city. A lively interest was taken in this meeting. A number of parties who are interested, were in from Fairview, among them being J. D. Benham, who gave a very instructive talk on the subject.

Upon summing up the result when the vote, tax or no tax, was taken, the figures stood fifteen to one in favor of the special tax and a good road.

The county court is expected to take a hand in this matter, and ere another year rolls round it is expected that this road will be planked from Coquille to Fairview.

A great portion of the Coos Bay wagon road is planked or graveled, and the people along that thoroughfare are bending every effort to get their road in a passable condition. It is to be hoped that they will receive aid from the county and continue this commendable work until their wishes are fully realized.

## Small Fire Tuesday Morning.

A small fire started in the rear of the El Dorado building Tuesday morning, which would have been a disastrous one if it had not been nipped in the bud.

Ernest Boak and Chris Rasmussen were in the rear of the El Dorado, where the former was soldering a gasoline tank.

The soldering forge caused the gasoline to become ignited, which started a flame in an instant. Mr. Boak was badly burned about the face and hands, his right hand being very severely burned, so that the skin and a part of the flesh and some of the finger nails came off. He was taken at once to the office of Rossiter, where he was given medical assistance and is getting along reasonably well at present. The many friends of Mr. Boak sincerely sympathize with him in his accident.

The fire alarm was turned in and the fire was soon extinguished by the quick action of the fire boys.—Recorder.

## Peary Gets High Honor.

Washington, Dec. 15.—The National Geographical Society last night publicly acclaimed Commander Robert E. Peary the discoverer of the North Pole and presented to him a gold medal.

No reference to claims of Dr. Frederick A. Cook was made, and only a slight one to the polar controversy.

Captain Robert A. Bartlett, master of the Roosevelt, also received a medal.

## NOTICE

Notice is hereby given that sections 15 to 22 inclusive and sections 28 to 33 inclusive, in T. 29 S., R. 9 W., W. M., have been surveyed and that the plat of survey will be filed in this office on Wednesday, February 9, 1910, at 9 o'clock a. m., and on and after such day we will be prepared to receive applications for the entry of the unreserved and unappropriated lands therein.

BENJAMIN L. ENDS, Register.  
J. M. LAWRENCE, Receiver.

We have both new and second hand in the following lines, dressers, commodes, iron and wood beds, bed springs, mattresses, floor matting, sewing machines, in fact almost everything needed for the house or camp. Come and look through, you will be surprised at the great variety of articles to be found in our store. C. M. Goodman & Co

## The O. A. C.

Corvallis, Or., November 22.—In order to keep pace with the rapid development in the science, art and practice of agriculture and home-making, and to give those who find it impossible to take a regular college course, the Oregon Agricultural College is offering a winter short course, which begins Tuesday, January 4th, and extends for six weeks, and also a one-week course, better known as Farmers' Week, which begins Monday, February 14th, and extends throughout the week.

Instruction is given in either of the above courses in General Agriculture, Dairying, Horticulture, Mechanic Arts, Domestic Science and Art, and Commerce.

There are also, no doubt, many nature farmers and housewives, well past the usual school age, who desire to acquaint themselves more fully with the most recent developments in their respective lines of labor. The work offered will be adapted to the practical needs of farmers, fruitgrowers, dairymen, mechanics, or of women in the home and also to teachers who desire to prepare themselves to teach elementary agriculture now required in our public schools.

The various courses are so planned as to provide the largest amount of practical information in the short time available. There will be no fees for attending the exercises of Farmers' week. Those who attend the other courses will be expected to pay a registration fee of \$1.00. In addition, students in the six-week course in Dairying will pay a laboratory fee of \$2.00 and a breakage deposit of \$3.00; those in Mechanic Arts will pay a fee of \$2.00 for the course in blacksmithing and \$2.00 for woodwork; those in Household Science and Art will pay a fee of \$1.50 to cover cost of materials used in the course in cookery, and each student will be expected to furnish her own materials for all other classes. Board and lodging may be had in Corvallis at \$3.50 to \$4.50 per week.

No entrance examination or other educational test will be required; but no one will be received who is less than sixteen years of age. Nearly two hundred men and women registered in these courses in 1909; their ages ranging from sixteen to over fifty.

A pleasing and profitable feature of these courses will be a series by some of the most prominent men of the state—men who are especially well qualified by successful experience to speak upon some particular phase of agriculture.

## Is Being Rebuilt.

The Coos Bay News says: A force of men is employed at the Bay City mill, which is practically being rebuilt by the O. A. Smith Lbr. Co. Only a small portion of the new machinery has arrived, and it will be some time yet before everything will be ready to install it. The mill will turn out a large quantity of cedar lumber daily. It is the intention now to have the mill ready to run in April.—The big mill is averaging 300,000 feet of lumber per day of ten hours, and the additional lumber cut by the new mill will increase the output of the Smith Company considerably. The tendency of the lumber market is upward, and it is not improbable that both mills will be run double time this summer, in which event the output will be close to 1,000,000 feet every 24 hours.

## Attention M. W. A.

All members of Beaver Camp, M. W. A., will please pay assessment No. 248 for December and the quarterly dues to Alvah Custer at Fuhrman's Pharmacy during my absence, and oblige,

NED C. KELLY,  
Clerk.

Paris, Dec. 24.—The Gil Blas prints a private communication from Madrid stating the condition of King Alfonso has created the gravest anxiety in court circles. Another operation is imperative.

The largest variety of ladies' hand bags ever shown in Coquille, ladies' purses and card cases, at Knowlton's Drug Store.

## Look to Home.

Encourage every home enterprise. Take an interest in every industry, invest liberally in the stock of faith and good will, and distribute it all over your city, in every factory, every work shop, every business house. It will pay you large dividends, and will cost very little. It can never depreciate in value. It will always be above par. Buy home made goods. Ask your merchants for them. Wear home made garments, eat home made articles of food, sleep on home made beds, read home made newspapers. In this way the money you spend is only loaned. It will come back to you again with interest. Praise up your city—don't run it down. Stand by your merchants and manufacturers—they are the bone and sinew of your municipal structure. Stand by your churches and your schools—they are the hopes of your future. Stand by your press—it is the tireless sentinel that guards your interest.

## At The Heazlet.

Tonight at the Heazlet, a violin and vocal recital, given by Mr. Lyons and Miss Millis, 8:30 o'clock.

Friday night, New Year's Eve, the grand masque ball. Suitable prizes will be awarded to the best sustained characters, both lady and gentleman. Don't miss this for there will be fun for all. A great many masks have been sold, you can get yours at The Racket on 2nd street.

## Uses For Salt.

Salt on the fingers when cleaning fowls, meat or fish will prevent slipping.

Salt thrown on a coal fire when broiling steak will prevent blazing from the dripping fat.

Salt in water is the best thing to clean willow ware and matting.

Salt put on ink when freshly spilled on a carpet will help in removing the spot.

Salt in the oven under baking tins will prevent their scorching on the bottom.

Salt and vinegar will remove stains from discolored teacups.

Salt thrown on soot which has fallen on the carpet will prevent stain.

Salt used in sweeping carpets will keep out moths.—Cooking Club.

## Larger Rooms.

New houses show a tendency toward larger rooms and fewer of them. The bathroom, which in many of the older houses is a small room with just enough space to turn round in, is now built larger, since it is to be used by all the members of the family, who often keep in it their toilet articles. Downstairs architects plan to have at least one large living room. The large central hall, which can be used as a reception and sitting room, is growing in favor. Large chintz pieces, which are not only decorative, but useful, are a favorite feature of these hospitable and cordial looking halls.

Shawnee, Okla., Dec. 24.—Seven bodies have been recovered from the ruins of the Rock Island railway shops here, which were wrecked by an explosion shortly before noon. The bodies of 50 employees are believed to lie beneath the ruins. The disaster was caused by the explosion of a stationary engine in the shops.

**For Eczema, Tetter and Salt Rheum.**

The intense itching characteristic of these ailments is almost instantly allayed by Chamberlain's Salve. Many severe cases have been cured by it. For sale by R. S. Knowlton.

Winnipeg, Manitoba, Dec. 24.—The Toronto express, on the Canadian Pacific railway, which left Winnipeg Wednesday, was wrecked yesterday east of Port William. Forty passengers are reported seriously injured. First reports had forty killed.

## For a Lame Back.

When you have pains or lameness in the back bathe the parts with Chamberlain's Liniment twice a day, massaging with the palm of the hand for five minutes at each application. Then dampen a piece of flannel slightly with this liniment and bind it on over the seat of pain, and you may be surprised to see how quickly the lameness disappears. For sale by R. S. Knowlton.

## CIRCUIT COURT

### PROCEEDINGS.

(Continued from last week.)

2682 R A Kent and James Fitzpatrick vs Esper S Larsen and Henry D Larsen, action at law, defendant allowed time
