 Word was received by her friends here that Mrs. L. G. Simmons, formerly of this city, had passed away at their home at Ashland, Oregon, where they have lived for the past few years. She had been a sufferer from tubercular troubles for a number of years and left here with the hopes that the change would help her, which it did for a time, but later she relapsed to even a more serious state than before, and finally succumbed to that dread disease. She leaves a husband and two children, a son and daughter, and was about 85 years of age at the time of her death.

This greatly enlarges Mr. Rose's space in which to display his well selected stock of spring and summer goods, a portion of which have arrived, and to which are being added large lots at the arrival of each steamer. The Stutzman real estate office is now located in the Martin building, on the second floor, alongside of the law office of J. J. Stanley.

 L. J. Cody, the Bandon sawmill man, was in Coquille Friday. He reports the work of reconstruction on the mill as progressing as well as possible under the circumstances. Considerable delay has been caused by the nonarrival of machinery, the building having been ready to receive it for some time. However, the Fifield recently arrived with the big band-saw and several other pieces of heavy machinery which are being installed. It will be two or three months before the mill will be ready to start. The frame of the new structure is stronger and much of the machinery is heavier than those of the old mill, and will be a considerable improvement over that institution.
