The Farmers' Phone.

The linemen of the Coquille Telephone system have the poles up and are stretching the wire for a trunk line between this city and Myrtle Point. This will take the place of the leased line of Frank Morse. Myrtle Point is well lined up and this work in Coquille is almost completed. There was a slight delay in the progress of the work caused by a shortage of poles, but as soon as the trunk line to Myrtle Point is completed, Coquille will be lined up in the proper manner, and then the Farmers' system will be in thorough working order.

The joining of all the rural lines makes this a very complete system for this section of the county, and it is the intention in the very near future to extend trunk lines to Bandon and Marshfield, when this will be a very complete and extensive system.

The promoters of this system are very much pleased with the success which they are meeting on all hands. Nearly every business man in the towns are taking phones, and in a very short time there will be but a few farmers in the country who will not have a line to his home and be in a position to communicate with almost anyone in the county at any time, day or night, a convenience greatly to be appreciated.

A Good Company.

The Gorman-Ford Co., a very clever aggregation, made their first appearance in Coquille last Thursday night, and was greeted by a very liberal patronage each evening of their engagement. They played three nights, giving an entirely different bill each performance.

Their plays were well laid and interestingly brought out by the players, while the specialties were excellent.

This Company will again appear in this city in two or three weeks and that it will be greeted by well filled houses is assured.
