## Something New In Kitchen Ware

The "1892" Pure Spun Aluminum Ware is rapidly coming into use for cooking purposes. It is taking the place of agate and enamel ware because while its first cost is a trifle more than ordinary ware, it is really much cheaper in the long run, as it is guaranteed for twenty-five years and will last practically a life time.

The genuine "1892" Ware, made only from pure SPUN (not cast) Aluminum, will not crack, scale, peel, break, scorch or burn.

It looks like silver but weighs only about one-quarter as much, is easily cleaned and handled, and will not rust, corrode or tarnish. Absolutely pure, non-poisonous and wholesome; saves money, time and doctor's bills.

Be sure you get the original and genuine ware stamped with the Maltese Cross. At your dealers.
