

Coquille Herald.

WEDNESDAY, DEC. 21, 1910.

While at Riverton the last of the week, the attention of a representative of the HERALD was called to a plum tree of William Rohn, of that place which seems to be doing an extraordinary stunt in the way of growing many crops this year. Beside the regular crop in the early summer, it had on its limbs on the above mentioned day, December 17, plums which were just ripening, others about half grown besides blooms fully open and to all appearances fully developed and ready to start the fourth distinct crop of plums for this season. There are a number of pear trees in Coquille which make quite an effort in the way of starting a second crop nearly every season, but this plum tree goes them a couple better. As a matter of course, these last efforts do not amount to anything, but they do go to prove that we have a good soil and that the conditions for the producing of fruit cannot be beaten as well as the mildness of the weather we have here compared with other sections in this latitude. On the night following the day above mentioned the hardest frost so far this winter fell, and another the next night, and while they appeared quite heavy, we still notice tomato plants still green, fresh potatoes growing right along and strawberry plants blooming. California poppies and nasturtiums in yards about town look like mid-summer. However, these two last frosts are making some impression on them, and if it keeps up, the tenderest will be killed.

Mistah Jack Johnsing, the bruiser who is a Democrat, appears to have celebrated the political victory with becoming modesty. He didn't rush out with his gasoline wagon and get arrested for speeding.

Should Woodrow Wilson be elected next president of the United States, and the political horoscope has somewhat of a cast in that direction, the "mother of presidents," Va., will have added one more to her list.

A Shakespeare-Bacon controversy is going it hot foot and hot headed in England. But it has no relation, nor comparison to the Bacon-Eggs controversy that's heating up things in this country.

It may occur to Gov. Harmon that it would have been a desirable and prudent arrangement if he could have saved over some of that enormous plurality for next time.

It seems that the Colonel became so enamored of slaying elephants while in "Darkest Africa" that he couldn't let up on the diversion when he got home.

It does seem a little suspicious that these successful aviators get so many offers of marriage. Can it be that women like a man who is warranted not to live long.

Passing of Miss Eva McNair.

Miss Eva McNair, of this city, passed over the dark river at the home of her step-father and mother in this city early Sunday morning. She had been ill for about two weeks, being a sufferer from inflammatory rheumatism. It was not thought at the time that she was seriously or dangerously ill, but at that time the disease seemed to go to her heart and the end came suddenly and with little warning.

The deceased was born in Colorado, and was 17 years, 9 months 17 days old at death. The family has lived in Coquille about a year and a half, and Eva had made many friends, she being a bright and lovable girl, who has held the position as head marker in the Coquille Steam Laundry for some time. She leaves a stepfather and mother, four brothers and two sisters to mourn her sad departure.

The funeral was to have taken place yesterday afternoon but owing to the non-arrival of three brothers from Union, Oregon, it was postponed till today. The services being conducted by Rev. C. H. Cleaves and the pallbearers were six of her young lady friends.

Football without the aid of an ambulance is one of the hopes on which modern society has set its heart.

When you have a cold get a bottle of Chamberlain's Cough Remedy. It will soon fix you up all right and will ward off any tendency toward pneumonia. This remedy contains no opium or other narcotic and may be given as confidently to a baby as to an adult. Sold by all dealers.

It takes more than good Flour

To make first class bread, biscuit and pastry all the time. The flour has to be the best, of course, but it has to be uniform in every sack too. That's why Snow Drift is so popular. You will find the flour in one sack identically the same in every sack. It is tested at the mill's bake shop to make sure. Every batch of wheat that goes through the mill is washed clean. It isn't touched by human hands from that time till it reaches you. Only the finest selected Northwest-grown, Blue Stem wheat goes into Snow Drift flour. Try just one sack and learn how good your bread, biscuit and pastry can be.
