Touring Car \$900 **Hupmobile** Guaranteed For Life

You have heard of all the 1911 Cars—Let's Compare them with the \$900 Hupmobile Touring Car

In the ensuing test-matter we have admitted to comparison with the Hupmobile each and every car which makes the appeal of a low price. But we have done so only that you might learn to look, in other cars, for those features—life-long guarantee, wheel-base, transmission, magneto, shock-absorbers, upholstery, smartness of design—which make the price of the Hupmobile remarkable. With these Hupmobile features lacking, your lower price would avail nothing.

Let us call the roll of cars, therefore, which might seem to compare at an approximate price, and make comparison. You have a pardonable pride in the appearance of your car, so we'll take the question of LOOK'S first.

With the beautiful low-hung body of the Hupmobile clearly in mind, look about you, then, for equal symmetry in cars sold at a similar figure; or for \$300 more money, we cheerfully challenge you to find a car which will urge you on to the next comparison—the question of size.

Be sure to bear in mind—the wheelbase measurement—because wheelbase inches cost money, and there can be no comparison of value between the Hupmobile at \$900 and any other car, unless the latter equals it in length.

The Hupmobile wheelbase is 110 inches—the precise size of the finest four passenger French and Italian cars whose general lines it follows; and it is the only 110 inch car sold in America under \$1000.

The question of length being disposed of, make your comparison on the score of transmission and ignition.

Again, no comparison can be made between the Hupmobile at \$900 and any other car; unless the latter includes the sliding gear transmission and the Bosch magneto.

To eliminate these two vital features (which are not found in any car under \$1000 save the Hupmobile) would mean a saving of nearly \$200 to the manufacturer, and that amount you must deduct from the price of any car which lacks them.

So you have now in the Hupmobile at \$900 the life-long guarantee; the extra wheel base (at an added cost of \$10 for every inch over 100 inches); the sliding gear transmission; and the Bosch magneto.

The next thing to look for is the shock absorbers on the front springs, tremendously important in determining the riding qualities of the car.

Pass on, then, to the character of the leather, and be sure that this is up to the fine machine finished standard of the Hupmobile.

Wheelbase, transmission, magneto, shock-absorbers, upholstery—a possible difference here of \$400 in any car ten inches shorter than the Hupmobile—\$400 in excess of Hupmobile cost, which must be deducted from the selling price of that other car, before an equitable comparison can be made.

Now—sum up all these external advantages; emphasize them with the life long guarantee; and add to them the experience of thousands of Hupmobile owners, most of whom drive their cars at a cost of 25c to 25c a day.

Is there much room to doubt that the Hupmobile at \$900 is the car you want.

I. R. Nosler County Agency Coquille, Ore.

YOUR SHOE TROUBLES

What is more uncomfortable and aggravating than an ill fitted shoe?

Make up your mind that for once in your life you will have a shoe that satisfies you to the smallest detail, a shoe that does not slip at the heel nor pinch at the toe, a shoe that will not wrinkle or run over at the side.

Make up your mind that this time you will have a shoe that follows perfectly the line of your foot, that from the very day you first put it on, feels cool and comfortable, and that will retain its trim and stylish appearance under the test of wear.

Our Royal Chinoak shoe combines these three features, style, comfort and wearing quality.
