A Clean Scalp and Healthy Hair

Many of your friends have found that a luxuriant growth of hair—soft and glossy—and a scalp free from dandruff will result from the use of

Nyal's Hirsutone

This is the procedure—Wash the hair with warm water and a pure soap—rinse thoroughly—rub the scalp with a stiff brush—apply Hirsutone—rub it in well and dry the hair before combing.

While it thoroughly cleanses, it also prevents bacterial action—nourishes and stimulates the roots of the hair—removes all dandruff—prevents its return—and preserves the natural beauty and color of the hair

Nyal's Hirsutone should be on your dressing table. It sells at 50 cents and \$1.00 the bottle. Whatever a good drug store ought to have, you'll find here. Come to us first and you'll find what you want.

Fuhrman's Pharmacy

IN BUYING

A De Laval Separator you are taking no chances, as they have stood the test and are guaranteed to give perfect satisfaction. Then why buy some other make which some one tries to make

you believe is as good as a De Laval?

COOS FARMERS TO BE WARNED OF FROSTS

Dr. E. Mingus is arranging to give the ranchers, gardeners and fruit growers of this section the benefit of the government storm and frost warnings the coming season to enable them to protect their crops after March 1.

He has arranged with the United States Weather Department to have the frost warnings sent to him at Marshfield each afternoon and by cooperating with the telephone companies and through signals, the approach of cold weather will be heralded to the growers

During the last few years, frost warnings have saved the fruit growers and vegetable producers of California hundreds of thousands of dollars worth of crops. By utilizing the smudge system and a little study, the ordinary frosts can be offset and it is believed the Coos county growers can derive much benefit from it.—Times.

Plant Sold.

The steamer M. F. Plant, which was recently taken off the Coos Bay San Francisco run, has been sold and it is understood that the Alaska Packers association are the purchasers. The latter concern has been negotiating for her and while the advice did not state exactly who the purchasers were, the inference is that the packers bought her for the Puget Sound-Alaska trade. Supt. Hennessey of the O. C. & N. company stated today that the news of the sale was correct and that he presumed that the Alaska Packers association was the purchaser. The price was not learned although it is supposed to be in the neighborhood of \$60,000. The M. F. Plant was one of the first prizes taken by America in the Spanish-American war. While the Libby mine was being operated, the Goodall-Perkins company refused to separate the ship and the property in a sale but now the mine is closed down, they evidently thought it unnecessary on insisting on the joint sale. While various ones have been negotiating for the O. C. & N. Co.'s waterfrontage, coal property and 3,000 acres of land here, no definite deal has been made, as near as can be ascertained.—Times.

Ground was broken for the new cannery at Myrtle Point last Monday morning and the building will be constructed and machinery installed as rapidly as possible. The site chosen for the plant is on the railroad, county road and river, making it convenient for farmers both above and below Myrtle Point, as well as for shipping the canned goods. After canvassing the situation thoroughly, those interested in the cannery at Coquille have decided that inasmuch as Myrtle Point already has the cannery under way, it would be better to stand ready to assist in making it a success than to divide forces at present. It will require time for the farmers to acquire experience in planting, caring for and harvesting cannery

crops, and it is thought that at least until the experimental stage has been passed it is best for the farmers of the valley to support the one enterprise.

About 250 acres of cannery products have been contracted for, and it is said they will begin canning about the first of June. The next stockholders meeting will be held at Myrtle Point March 8.

Don't forget skating Saturday night for the last time this season.

New Railroad.

Salem, Or., Feb. 24.—Articles of incorporation of the Metolius & Prineville Railroad company were filed with the secretary of state this morning. The capital stock of the new railroad corporation is fixed at \$500,000, and the principal office is named as Portland. The incorporators are Harrison Allen, G. C. Frisbie and E. McCulloch. It is the object of the corporation as set forth in the articles, to build a railroad connecting Metolius with Prineville.

Prominent business men and citizens of the town of Prineville are also planning the construction of a railroad from their town to connect with the Oregon Trunk and Deschutes Railway lines somewhere in the vicinity of Bend. Their plans, it is understood, are to build an electric road, which it is figured would give better service than a steam road in view of the distance from Prineville to a connecting point, being only 25 miles. Another feature favoring the electric road is said to be the abundance of electric power available both on the Deschutes and Crooked rivers.

Skating Saturday night for the last time this season, after which Mr. Nosler will fix up his building for an automobile garage.

Come by threes! Respond by threes! Sit by threes! But you want have to go home by threes from the Christian Church Sunday at 6:30 P. M.
