**A Bake Shop Test**

Is made of every milling that Olympic Flour is made of. One of the best bake shops anywhere is run in connection with the mill that makes Olympic Flour. Every bunch of flour that goes through the mill is tested. It has to be up to the highest standard—has to make the best bread possible, else it doesn't go into the Olympic sacks.

That is the reason your bakings of bread, biscuit and pastry are always uniformly good when you use Olympic. Your bakings can't be expected to be the same always unless the flour is. Therein lies the beauty of using Olympic.

**THE PORTLAND FLOUR MILLS CO.**

**Three Vital Reasons**

"I want to give every person not using electric light three vital reasons why the General Electric Mazda Lamp should make them have their house, store, office or factory wired.

First—

The G-E Mazda Lamp gives nearly **three times** the **light of the** ordinary carbon incandescent.

Second—

It costs **no more** to burn.

Third—

The **quality** of light is vastly superior—a clear white light like sun rays."

"The General Electric Mazda Lamp represents the high-mark in the evolution of incandescent electric lighting. It blends inventive triumph and manufacturing skill—and **you** reap the benefit in the form of dollars and cents, and freedom from eye strain when using artificial light."

"I want the chance to **prove** to **your** entire satisfaction that this wonderful lamp is even **better** than represented. Come in today and see for **yourself**. Your call places you under no obligation, and is apt to be decidedly to **your** profit."

Be careful to see that every electric lamp you buy bears the G. E. monogram.

## Port Orford Tribune.

Mr. Wernick, Supt. of the North Bend Sash and Door factory, made a trip down to gold Beach last week, and was in Port Orford Saturday on his return, having as he said, a most enjoyable trip which he would repeat before long.

Isam Walker spent Monday night in Port Orford, having come up from Humboldt to collect a lot of cattle in this county, and Coos, which had been purchased for him by several buyers. His son Frank who was in poor health, and left here four years ago for Arizona, is now in splendid health, and is Superintendent of an immense flock of sheep and gets a large salary. Frank was trained from boyhood in the stock business—a graduated Buckaroo and Bronco-Buster.

L. M. Noble will shortly leave on a tour of the southern coast. He will travel in his own conveyance, making the journey as far south as Crescent City at easy stages. A month or so will be spent on the trip, which covers a territory that Mr. Noble was well acquainted with in the days of his youth.

E. L. White and Miss Lily Hurst were married last Sunday, April 30th, at the home of William Hurst, the bride's father, on Elk river, M T. Wright, J P. officiating. Only the relatives of the pair witnessed the ceremony, kissed the bride, cracked jokes with the stalwart groom, and ate the sumptuous wedding dinner. That their married life will be a long, prosperous and happy one, the Tribune does not doubt, and wishes them a long and sunny voyage on unruffled waters

We know now why Mr. White has rushed his new house in Port Orford.

## Whitney Under Arrest.

Sheriff W. W. Gage returned yesterday from Marshfield with Lewis Whitney in charge, accused with the selling of a horse which did not belong to him. He had hired the horse from the Pointer livery barn in Coquille some time ago for two days. He rode the animal to Curry county where it seems he sold it and made use of the money.

This is the young man whom it will be remembered accidentally shot a young man near this city about a year ago, the wound causing his death. He had a prelinary hearing this morning before Justice Holden and was bound over to appear before the grand jury in the sum of $500 bail, in default of which he is now in jail.

## Notice.

I respectfully request that no one hereafter ask me to officiate at weddings or funerals. I appreciate friendship and love, but please remember that henceforth I will have to refuse all such requests, as I think such work should be done by Pastor. He is entitled to it, and I am in business. I do not wish to appear as infringing on pastor's rights. Go to them they will serve you. So, I repeat do not ask me to officiate, and it will save embarassment. Thanking you for past kindness, I am,

Respectfully,

(signed) C. H. Cleaves.

West Stayton, Ore., 5-6-11.

Construction work on the irrigation system of the Willamette Valley Irrigated Land Co. at West Stayton is progressing rapidly, the weather having been unusally favorable for outdoor work. From 75 to 80 men and 30 to 35 teams have been at work daily and it is expected that water will be turned into the Canal this month.

We wish to thank all those who so kindly assisted us during the sickness, death and burial of one who was so dear.

Mr. and Mrs. Geo. Halter.

## Services at Fishtrap.

Wednesday night a crowd of 60 people chartered the Wolverine and went up to the Eishtrap Methodist church where Evangelists Law and Curry are conducting revival services. The church was packed and even standing room was at a premium. Law preached a powerful sermon as good as any man can preach, and the music was superb.

The service was spiritual, and there were four people converted. It was a happy crwod, singing all the way, sailed down the beautiful Coquille, made more beautiful by the moonlight, arriving home about 10:45. Services continue at Fishtrap this week, and there will be an all service Sunday.

## Mail Carrier Missing.

Tom Postley, who carries the U. S. mail between North Bend and Gardiner has been missing since Monday morning last and it is feared that he was drowned in the bay.

Postley came into North Bend, Saturday evening, with the mail from the north. The day following he drew his pay from Tom Rennie, who has the mail contract over this route.

Monday morning the mail sack was discovered in the gasoline launch made fast to the slip at North Bend, but no trace of Postley has since been discovered. The prevailing opinion is that he fell into the bay and was drowned.—Sun.

## Additional Local.

On Thursday of last week while riding on a sled with T. B. Robinson, Chester, the six-year-old son of Mr. and Mrs. George Henninger, of Fishtrap, fell and sustained a broken or dislocated shoulder, the physician being unable to determine at first. The little fellow was getting along nicely at last accounts.

The gasoline schooner President, which is now engaged to carry the Coquille frieght from Portland brought to Coos Bay by the Alliance, arrived here Saturday on her first trip. She brought around a full cargo of merchandise for the business men of the river.

Rev. H. M. Branham, now residing on the Frank Snow place near town, has a fine pen of McFarlane White Leghorn hens recently shipped from California which are proving themselves great layers. During the two months, March and April, eleven of these hens layed 542 eggs. Who has hens that can beat this record?

At the last term of the county an order was made providing for the operating of the free ferry at this place to continue till midnight each night after the 15th of the month. This will be a great convenience for farmers who wish to come to town during the long summer evenings after work hours are over, and also those who arrive home late after a day's trip on the other side of the river.

John Moore, a Coos county pioneer who has resided at Prosper and other points on the lower river for many years, and who has lived in the county since '71, was in town yesterday. He informs us that he expects to go on an extended trip, not stating just where he does expect to visit before returning. His many friends will wish him a pleasant time.

Ray Haines, formerly of Myrtle Point, who has been on the road for the past few months for the Pacific Coast Biscuit Co., but who, in Company with E. H. Divilbiss is now established in the grocery business at Bandon, was a Coquille visitor on Monday, and shook hands with many friends. He informs us that his father, J. E. Haines, is now located on a fruit farm at Watsonville, where he is doing well.

The government blasters will soon be ready to blow out all the rocks which are menace to navigation near the mouth of the Coquille. They are about done with the drilling and when this is finished all will be charged and fired by electricity, taking them all at once. They are drilled to a depth of eleven or twelve feet at extreme low tide and will not bother steamers until much deeper draft than we now have are in use.

Geo. Crabtree and a Mr. Cross passed through town from Portland last Tuesday on their way to southern Coos where Mr. Cross is engaged to do some timber cruising while Mr. Colebrook will run lines and keep tab on the numbers of the land. Mr. Colebrook made his mother who lives in this city, a short visit as they passed through.

For soreness of the muscles whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by all dealers.

**WHAT NUMBER DID YOU GET?**

No. 9—1 pair men's shoes.
No. 1224—1 pair ladies shoes.
No. 60—1 pair boys shoes.
No. 1042—1 pair girls shoes.
Bring in the number.

ROBINSON.

State of Oregon } ss.
County of Coos }

I, James Watson, County Clerk for Coos County, State of Oregon, ex-officio Clerk of the County Court for said County and State, custodian of the records, archives and files of said County, do hereby certify that the foregoing is a true and correct Statement of the amount of bills of expense, in whose favor drawn or allowed, continued or not allowed, on the various funds of the County as audited by the County Court of said County and State at the Adjourned March 1911 Term thereof, as appear in the Journals of said Court now in my office and custody.

Witness my hand and the seal of the County Court affixed this 10th day of May, A. D. 1611.

James Watson,
County Clerk.

For Sale—Four fine heifers coming fresh soon. Good Dairy stock on Sweet place, Lampa.

NOTICE

Of improvement of a portion of Spurgeon street and the extension of Spurgeon street in the city of Coquille.

Notice is hereby given that the Common Council of the City of Coquille has deemed it necessary and expedient and by resoluiion has duly declared its intention to improve that portion of Spurgeon Street in said city from a point 95 feet westerly from the east end of said Street thence westerly and continuously as a whole to the west end of the Extension of Spurgeon Street in said city in the manner specified in said resolution and to assess the cost thereof upon the property benefitted thereby; said Resolution was filed in the office of the city Recorder on the 10th day of May, 1911 and is kept on record therein and reference is made to such Resolutions as to part of this notice.

That the probable cost of such improvement is the sum of $2268.78.

Any and all objections and remonstrances to said improvements must be filed with the said Recorder on or before June 12, 1911.

Notices of said proposed improvement were posted on the 11th day of May, A. D. 1911

A. W. KELLEY
City Recorder.

Ladies' two-piece khaki suits—just the thing for the auto—some leather trimmed. Get them at Robinson's. Also ladies' ready-to-wear dresses in messaline, foulards and poplin.

Eggs—We will be able to supply your wants for Easter. Lyons & Jones.

## HOW TO CARE FOR SILVER.

**Too Much Scouring Will Wear Out Plate and Means Needless Work.**

While all homemakers take genuine pride in the handsome appearance of their table silver, many find the care of it a burden and give themselves an unnecessary amount of labor over it. The weekly cleaning, which is a bugbear to many housewives, is not only needless, but a real harm, since constant scouring will soon wear off silver plate and has an appreciable effect even upon solid silver. To avoid this it is hoped that the following hints may prove helpful to some housekeepers:

Silver in daily use should be washed as soon as possible after leaving the table, following immediately after the glasses in the process of dishwashing. After a preliminary rinsing to remove loose food lay aside any stained pieces for future care and immerse the rest in a pan of clean, hot, soapy water. Wash such pieces as need it with a soft cloth and place them all in another pan of hot water to which a tablespoonful of ammonia and a dash of soap have been added. Wipe the pieces directly from this water without draining them. Plenty of dry, soft towels are required. Follow this by a rub with chamois skin or soft flannel, rubbing briskly, but not heavily enough to bend the handles.

Take the stained pieces next. Egg stains are removed with wet salt, others with whiting moistened with alcohol or ammonia. After all stains have been removed wash and polish pieces as above. Two coarse, wide mouthed pitchers will be found a convenience in washing silver. Soap should never be rubbed directly on the silver, but a strong suds should be made with the soap shaker. This program may seem somewhat elaborate at first, but if persisted in it easily becomes a habit, and the result is much more than worth the trouble.

For the grand cleaning choose a clear, dry day. Provide yourself with a convenient table covered with oilcloth or papers. Have whiting, sifted three times, in a dish before you, a small bottle of alcohol, one of ammonia, a soft brush, flannel and cotton rags, chamois skin and plenty of tissue paper.

Begin with the small pieces and separate the sets. For the most part a rub with a cloth dipped first in alcohol, then in whiting, will be all that is needed to clean, but if the articles are much stained make a paste of the whiting and alcohol and apply thickly, allowing it to dry on. After this cleaning rub all the articles first with old flannel, then with chamois, using the brush to remove the whiting from the ornamental work. In case there are obstinate stains which do not yield to this treatment a competent authority advises touching them with oxalic acid, washing it off immediately and then rubbing again with the whiting and alcohol. Oxalic acid is a poison, and all due precautions must be observed in its use. If the spot looks dull after the acid has been used rub it hard with a flannel rag moistened with sweet oil and dry whiting.

After everything is shining and clean all that which is not in daily use should be put away in canton flannel bags, each containing a small bit of camphor gum. It is an added protection also if each piece is previously well wrapped in white tissue paper. Paraffin paper is excellent for wrapping, as it helps to exclude gas, which is the greatest household agent, either coal or illuminating gas, in tarnishing silver.

This thorough cleaning should not have to be done oftener than once or twice a year if the pieces to be put away are properly protected and the daily care outlined above is bestowed upon all the articles in daily use.

**How to Clean Bagdad Rugs.**

It is very difficult to wash a Bagdad couch cover or rug successfully. The colors are almost sure to run when treated in the ordinary way. Before beginning operations separate the strips. Then wash each one in a separate water. Use white soap and lukewarm water to which a little salt has been added after a suds has been raised by brisk stirring. Do not rub the strips on a washboard, but merely dip them into the water and stir them briskly, then quickly rinse them and hang them over a clotheshorse in the kitchen away from the sunlight. Be careful when drying that the strips do not overlap. When almost dry press out the wrinkles with a hot iron. If the middle strips have become slightly worn exchange them with those on the outside when sewing the cover together again.

**How to Cook Pumpkin.**

The best way to cook a pumpkin is to set it in a tin and then place it directly in the oven without any other preliminary treatment than a light washing with a wet vegetable brush. Bake it for an hour or more, according to the size of the pumpkin. When it is done open the steam end and remove the seeds. The rind will peel off as though it were so much paper. As a time and trouble saver there is no better way to cook a pumpkin.

**The "Sting" of Death.**

The sting of death physically is nothing; a man who has lost consciousness in the water, a man who has been under an anaesthetic, a man stunned in an accident—these have been in effect dead, and yet they know nothing of death. In speaking of it the most glaring contradictions pass quite naturally for axioms. It is the "gentle hand," but it is also the "grisly terror." It is "beautiful" and "wonderful," but it is also "terrible."—London Spectator.
