A Bake Shop Test

Is made of every milling that Olympic Flour is made of. One of the best bake shops anywhere is run in connection with the mill that makes Olympic Flour. Every bunch of flour that goes through the mill is tested. It has to be up to the highest standard—has to make the best bread possible, else it doesn't go into the Olympic sacks.
That is the reason your bakings of bread, biscuit and pastry are always uniformly good when you use Olympic. Your bakings can't be expected to be the same always unless the flour is. Therein lies the beauty of using Olympic.
THE PORTLAND FLOUR MILLS CO.
