**DEYOE & SMITH,**  
 Bandon, Oregon,

J. E. Norton returned the last of the week from his late business trip to California.

The steamer Fifeid arrived in the river on Sunday bringing a large cargo of freight and a good list of passengers.

Mrs. J. S. Lyons went to Prosper Monday to see her sister, Mrs. C. C. Johnson.

J. F. Lee of Riverton, was up to town Monday. He informs us that he and Mrs. Lee expect to make an extended visit to California in the near future.

J. P. DeGessen who owns a large place a short distance down the coast from Bandon, and who some time ago found that there were endless quantities of the finest of clay for the manufacture of white brick on his place passed through this city Monday en route to Portland where he goes to look after the necessary machinery to operate a first-class brick factory. Mr. DeGessen has made and burned samples of his clay sufficient to prove beyond a doubt that it is the very best. The operation of a large and up-to-date brick factory will add to the already large volume of business done at Bandon.

In this town needs watching!  
 Is he your husband, your brother or your son?  
 We have noticed him gazing longingly at the good watches in our window as he thought of the poor time-piece in his pocket.  
 HIS BIRTHDAY would be made so happy if it brought him the good watch he deserves—and "love will find the way" for the cost will not break you. It should be a Hamilton. They are the railroad timekeepers of America. \$14.50 to \$,000.

**Three Vital Reasons**

"I want to give every person not using electric light three vital reasons why the General Electric Mazda Lamp should make them have their house, store, office or factory wired.

First—  
 The G-E Mazda Lamp gives nearly three times the light of the ordinary carbon incandescent.

Second—  
 It costs no more to burn.

Third—  
 The quality of light is vastly superior—a clear white light like sun rays."

"The General Electric Mazda Lamp represents the high-mark in the evolution of incandescent electric lighting. It blends inventive triumph and manufacturing skill—and you reap the benefit in the form of dollars and cents, and freedom from eye strain when using artificial light."

"I want the chance to prove to your entire satisfaction that this wonderful lamp is even better than represented. Come in today and see for yourself. Your call places you under no obligation, and is apt to be decidedly to your profit."  
 Be careful to see that every electric lamp you buy bears the G. E. monogram.
