## SENATOR CHASE GIVES HIS POLITICAL ATTITUDE

Senator W. C. Chase has decided not to become a candidate for reelection, much to the regret of his many friends, and gives his reasons in the following letter:

"As you are aware, I have for a long time been besieged by many friends, on every hand, relative to my being returned to the legislature for another term. I have considered the matter seriously and carefully. I have also given considerable thought to the political situation in our state, and the welfare of the republican party. Other aspirants are seeking to know my wishes, and since the time has arrived when I feel that I should announce my position concerning the state senatorship, I have decided to state, that inasmuch as a division of the republican vote at this time might jeopardize the election of a republican to our state senate, considerations of party fealty have caused me to determine not to be a candidate for nomination.

"While I deeply and most sincerely appreciate the earnest solicitations and generous confidence of my friends, I wish to point out that it is vitally important that harmony should exist and that the unity of the republican party be maintained upon a safe and consistent platform, and that it is the duty of every republican to subscribe the interests of our people by strict adherence to the principles of his party, and loyalty to our State.

"Any announcement, at this time, as to my future political aspirations, in view of the foregoing, would, I take it, be improper."

## SHERIFF GAGE HAS DIAMOND EAR RINGS

Sheriff Gage is now the possessor of diamond ear and finger rings brought about by the arrest of Bert Belieu, who was made to answer to the strong arm of the law for the wrongful disposal of property of which he was bailee. Belieu was a resident of Marshfield at the time the offense was committed, but had left the state and was located in Vancouver, Washington. Sheriff Gage vested T. A. Walker of Portland with the proper authority to arrest the offender, which was accomplished on the 13th inst., and he was brought back without the formality of extradition papers. The prisoner was charged with taking diamonds from his wife valued at \$550 which he pawned to a jeweler of Marshfield for \$750. The deputy with his charge reached the justice dispensary of Judge Holden on Friday last who set the case for trial the following day at 10 a. m. Attorney Liljeqvist for the prosecution, Harry G. Hoy, a Marshfield attorney, for defendant. Four witnesses were subpoenaed for the state being the wife from whom the gems were taken, the pawnbroker who received them, a jeweler to testify as to their value and a domestic maid in the house where the Belieus resided at the time the diamonds were taken. The prisoner was bound over to the grand jury in the sum of \$750, and after serving a brief time in jail, the father and brother came to the rescue with the necessary bond and the prison doors were opened to freedom. Coos county pays over one hundred dollars in costs and fees in the transaction.

Following the conviction of Lloyd Allen on a felony charge, a deadly shooting affray occurred at Hillsville, Carroll county, Va., the presiding judge, sheriff and district attorney being killed at the beginning of the riot. Trouble was expected, but the sheriff was unprepared for the attack made by a troop of 20 mountaineers who began firing as soon as sentence was pronounced. In addition to the fatalities three spectators were wounded by stray bullets. Troops were rushed from Richmond to stop the fight.

Plans for a 16-inch gun that will hurl a 2,000-pound shell and penetrate armor at 14 miles, the most gigantic and powerful piece of ordnance yet contrived, are now complete in the office of Rear Admiral N. C. Twining, chief of the bureau of ordnance, Washington, D. C.

## SAD DEATH OF A FORMER COQUILLE GIRL

Pearl Wheeler, the 16-year-old daughter of A. O. Wheeler of Upper Lake, Lake county, California, was found March 14 last drowned in a creek near that place. The girl had been missing for a day and the supposition is she committed suicide.

Mr. Wheeler and family were former residents of Coquille, were honorable and upright citizens and the sympathy of the community is extended to them in their great bereavement.

A half dollar of the year 1843, which Bryce Halwood, a prisoner at the Ohio penitentiary, has carried as a pocket piece for many years, may net the man a fortune and turnish capital to start him in a respectable business when he is released from the institution. There are only four coins of the special mintage of that year in existence.

A Los Angeles collector refused \$25,000 for one of the mates of the coin owned by Halwood, and he succeeded in getting into correspondence with a New York banking house with a view to placing the coin upon the market. Halwood is serving fifteen years for robbery.

Many a girl thinks she has broken her heart when she has really only sprained her imagination.

## PLAN SERIES OF PRODUCTS SHOWS

Advertised with advance notices like a circus, playing five day stands in the largest auditoriums that can be leased in cities of from 10,000 to 50,000 inhabitants throughout the east and middle west, the Northwest Development League is planning to send out next fall a special train filled with exhibits showing the resources of the American Northwest.

This is probably the greatest advertising scheme ever promoted and it is said by men who have spent practically millions in development work, to be capable of securing better results than any campaign ever planned to aid the settlement and development of any section.

The shows will be known as "See America First" Expositions and will aim not only to attract tourists and induce them to travel through the seven northwest states, but by displays of products the expositions will also claim the attention of the homeseekers and show them the opportunities and inducements offered on western lands.

The trip will last four months and start from Minneapolis in early December, following the Northwestern Products Exposition to be held in that city November 12 and 13.

The states which will participate in these expositions will be the same as those represented in the exposition in Minneapolis, which are Minnesota, South Dakota, North Dakota, Montana, Idaho, Washington and Oregon.

Horseflesh is being eaten now in Paris by invalids who have been ordered it by their medical attendants. Many French doctors hold that horse meat is more nourishing, easier to digest, and of greater recuperative value for consumptives than other meats.

On March 15, 937 letters were sent from the office of Superintendent of Schools, L. R. Alderman, to ministers of every denomination in the state asking them to preach a Sunday sermon, March 31, on the children's industrial work now being promoted through the schools of the state.

The farmers in the Mohawk valley are suffering from the loss of lambs and kids which are being carried away by the eagles in that vicinity, one farmer losing no less than 12 young animals. Since the state passed a law protecting the eagles, they have greatly multiplied and are getting very bold. One young farmer in the Camp creek neighborhood shot one of these birds and was fined \$25 by the game warden.
