PATRIOTISM—OUR MOTIVE

The season for salmon fishing opens next Monday, July 15.

Taft tactics in securing the nomination at Chicago should be investigated according to the opinion of Senator Cummins of Iowa. Leave it to the voters; they will give it the proper attention in November next.

Congressman Hawley has recommended the establishment of a postoffice at Reedsport, Douglas county, with Joseph Lyons as postmaster. Reedsport is a new townsite about three miles south of Gardner.

Reports from Myrtle Point are to the effect that the liquor question will be voted upon at that place. The railroad work in prospect has made the saloon man eager to give the laborer an opportunity to part with his hard earnings by the drunken route.

Woodrow Wilson will—he has already—cut the ground under the feet of Roosevelt's third party. His nomination will not only appeal to the Democratic voters, but to the tens of thousands of independent Republicans, who are up in arms against the powers which have Morganzized the party of Lincoln.

Twenty foreigners have made application for citizenship at the September term of the circuit court as appear on a notice posted in the office of the county clerk. Finland, Sweden and Denmark contribute the greater number desiring to come under the protection of our flag. This is an unusually large number of applications and is most likely due to political influences, for votes are required in November to secure plethoric political plums.

Announcement has been made of the approaching marriage of Mrs. Nellie Grant Sartoris, only daughter of President Grant, to Frank H. Jones, First Assistant Postmaster-General during President Cleveland's second administration. The first marriage of Mrs. Sartoris was one of the brilliant social events at the White House while her father was President. Captain Algernon Frederick Sartoris, of the British Army, was then regarded as a young man of brilliant prospects but the marriage proved unhappy and the couple were separated. There were three children.

Much Improved in Health
 Mrs. Jane Gilman, her son George and daughter Florence, have returned from Tulavista, California, having been absent for more than a year. They came back with their automobile as far as Olalla, the roads over the mountains being so bad they were compelled to take the stage from that place. Mrs. Gilman is much improved in health which will be gratifying news to her many friends in Coquille—her cherished home and birthplace. Mrs. Gilman is sister-in-law of Mrs. A. P. Miller whom she is visiting.

Twins Celebrate Natal Day

Ruth and Phillip, the six-year-old twins of Mr. and Mrs. Frank Morse, were at home Saturday afternoon, July 6, to thirteen of their young friends the occasion being the sixth anniversary of the day of their birth. Refreshments both dainty and generous were provided for the youthful guests and later in the evening the Morse auto was loaded with happy children enroute to the Scenic Theatre as a proper culmination to the day's enjoyment. After a pleasant hour spent in viewing the moving pictures the auto was again loaded and each child safely conveyed to his own home with the memory of a happy observance of the twinnies' sixth birthday and the kindness and forethought of their fond and justly proud parents.

Outing at Whiskey Run

An even dozen of sociable people on pleasure bent spent a week camping at Whiskey Run, said to be a most ideal spot for out-door recreation, pure water being supplied by mother earth from crystal springs and not the liquid tanglefoot the name of the place indicates. Abundant rock oysters and crabs filled a "long felt want" under the belt of those who relish the shell fish and bivalves of the sea. Beautiful moss agates and other precious stones were found to serve as valuable tokens for the festive occasion. The following constituted the party: Mr. and Mrs. Bud Mansell, Flossie Mansell, Wm. E. Foote, Kennett P. Lawrence, Earl Steele, Rolla Newton and Mrs. Baxter all of Coquille; Mr. and Mrs. John Miller, Randolph; Nettie Miller, Myrtle Point; Ethel Miller, Salem.

The sun put an aboriginal hue upon the faces of the campers and a vigorous, sturdy appearance was made manifest even by the brief period of a week's living "next to nature."

We acknowledge a jar—not a severe one—of rock oysters given by Mr. Foote which were much appreciated.

Curry County Pioneer Dead

During the celebration at Indian creek, William Nordberg, of Port Orford, was seized with heart failure and died before he could be removed from the grounds. The deceased is the oldest pioneer of Curry county, having settled at Port Orford when it was a mining town and a barracks for government soldiers. He came to Port Orford in 1860 and since then has resided in different parts of the county, though the greater part of that time was spent in Port Orford. He was 82 years of age at the time of his death. Mr. Nordberg fought with others in the Indian war.—Record.

A. M. Nason, farming near Canaan, Me., was badly crippled with a sciatic rheumatism due he says to uric acid in his blood. "Foley's Kidney Pills entirely cured me and also removed numerous black specks that were constantly before my eyes." Foley Kidney Pills are a uric acid solvent and are effective for the various forms of rheumatism. Sold by Fahrman's Pharmacy.

S. P. HOPES TO BUILD BRIDGE AT COOS BAY

The request of the Southern Pacific to bridge Coos bay has been before the department and congress since last week, and it is said on good authority, the matter will be put through before congress adjourns. The permit has been recommended by Major Morrow of the Portland office, and those in the east who are following the matter say there has been no remonstrance entered to this date and none is expected.

Engineer F. E. Lee, in charge of the dredge Oregon, does not expect anything to be sent here, unless it is the final action, since it is customary to have matters finished before reports are made.

However, it is taken from past circumstances that the permit will be granted, as there has been plenty of time for objections and hearings, had any of the Coos bay people been disposed to enter objections. The plans, profiles and instructions were sent here early in May, and all were exhibited at the Marshfield Chamber of Commerce and also in North Bend for three days; besides, the papers were held in Engineer Lee's office for an additional week. Major J. Morrow sent an invitation along with the plans for people to make any suggestions they thought best, and the letter making this invitation was printed in the Marshfield newspapers, and given thorough publicity. It may therefore be taken that the Portland office considers the time for suggestions is past, and final action will likely be taken at Washington before any further dealings are had with Coos bay. It is likely the permit will go through very shortly, and this is one of the matters that is holding things back in this territory, as there has always been an idea the Southern Pacific might possibly change its plans at the last moment and come into Marshfield from the other side of the bay, instead of crossing at North Bend. This uncertainty has delayed real estate activity in North Bend, at least, according to parties who were here from that city July 9.—Record.

General Manager C. C. Tinkler, of the railway contracting firm that is soon to start construction on the Southern Pacific, is expected to arrive on the Redondo. The G. W. Shelley home in North Bend has been rented and will be occupied by Mr. Tinkler and family.—Times.

Suggestion for the Hen House

Put the windows in the poultry house low down to the floor, so that the hens will get the benefit of the light and sunshine when scratching for their food. The trouble with windows set high up, is that they let the sunshine in on the perches when the hens are on the floor scratching, and when they are on the roost the sun doesn't shine; so there is no equilibrium in such places.—Farm Journal.

In these days of high cost of living a medicine that gets a man up out of bed and able to work in a few days is a valuable and welcome remedy. John Heath, Michigan Bar, Cal., had kidney and bladder trouble, was confined to his bed unable to turn without help. "I commenced using Foley Kidney Pills and can truly say I was relieved at once." His example is worth following. For sale by Fahrman's Pharmacy.

A woman's health depends so much upon her delicate organs, that the least trouble there affects her whole system. It is the little things that count, in a woman's life and health. Big Ben helps run the farm on time

Is it hard for you to get the farm hands out on time?
 Is it hard for you to get them up in the morning?
 If so, why not let Big Ben do it for you?
 Big Ben is a truth telling and reliable alarm clock.
 It's his business to get people up in the world.
 And he'll do it every day at any time you say.
 Next time you drive to town, walk over to the store and take a look at him.
 I keep him in the window where everyone can see him.
