CONTRACT LET FOR CITY HALL

BUILDING TO COST \$11,292

Longston & Bayliss Awarded the Contract for Building City Hall at Figures Named—Work Now Under Way

The city council met Monday evening with a full attendance. A pleasing unanimity of opinion seemed to prevail among the councilmen and all action taken was by unanimous vote.

Bids for the city hall were opened as follows: Longston & Bayliss, \$11,292; A. E. and E. P. Ellingson, \$12,475; J. F. Telander, \$13,150. Longston & Bayliss' bid being the lowest was accepted.

Ordinance No. 68 was passed with the emergency clause. This ordinance provides for the levying of an assessment against the property benefited by the B street sewer, and for the collection thereof. The evening of the meeting was the time set for hearing objections to the apportionment of the assessment heretofore made, but no objections were in evidence.

Ordinance No. 69, which was also passed, provides for the issue of city improvement bonds to the amount of \$411,57, for assessments for the B street sewer which are unpaid, by parties who wish to pay in installments.

Ordinance No. 67 was passed providing for a sewer system in a portion of the city designated as District No. 1. This takes in the higher ground in the central part of the city, comprising something in the neighborhood of a dozen blocks, though the description occupies more than a large typewritten page. The city engineer was instructed to prepare plans and specifications, and an estimate of the probable cost of the proposed sewer system.

COQUILLE NEW CITY HALL MODERN THROUGHOUT

P. M. Hall-Lewis, architect, has drawn excellent plans covering every detail for the new city hall now in course of construction at the southwest corner of Second and Hall streets. The structure will be 43 x 93 feet in size, one story and basement, the first floor raised sufficiently to give light for rooms underneath. The basement will supply rooms for a jail and heating plant. Rooms on the first floor will consist of a spacious council chamber and fire hall, together with apartments for the city recorder, mayor and committees, and city engineer. Corridors, lobbies, toilets and other conveniences are provided for. Entrance will be at the corner of the streets, the vestibule floor a neat diamond pattern. All floors concrete. Plumbing and sanitary fixtures the best. The lighting fixtures will be all brass on first floor except in fire hall and engineer's office. There will be two lights at entrance vestibule, two for corridors, and two in the council chamber. The jail will also be illuminated by two electric globes, and the fire hall, city engineer's room and toilets by one each.

The plans for the exterior of the building portray a pleasing appearance with its neat ornamentations. The building will be a magnificent monument to the skill of its architect and one to which all citizens can point with pride.

CONFERENCE MEETS IN COQUILLE NEXT YEAR

Information has been received from Rev. C. H. Cleaves that the annual conference of the M. E. Church South will be held in Coquille in the fall of 1913. At the conference just terminated at Portland Rev. Cleaves was again assigned the pastorate of the church in this city and he will be with us at least until the next meeting of the conference. These are glad tidings hailed with joy by every member of the M. E. Church South in Coquille. All good citizens who have been honored with the acquaintance of the amiable and talented pastor are pleased to know of the return of Mr. Cleaves here, as well as his success in securing Coquille as the meeting place of that religious body at its next session.

Mr. Cleaves is now at Grants Pass, the former home of his wife who is now visiting her parents at that place. He will return to Coquille and resume his duties in about two weeks.

Doings of Circuit Court

The circuit court in session this week has disposed of several equity cases.

Keepers of houses of ill fame were arraigned and contributed \$100 each in fines and costs.

Vagrants—so called—were fined \$50 each in default of which it was decreed that confinement in jail be meted out allowing \$2 per day on the fine.

State of Oregon vs Frank Otto Elkins, charged with larceny was tried before a jury Tuesday and found guilty and sentenced to six months in the county jail.

Geo. M. Brown, prosecuting attorney, will arrive in Coquille from Roseburg this (Thursday) evening. Doubtless the criminal cases will receive attention after the arrival of Mr. Brown.

O. E. S. Will Give Entertainment

Mrs. Josephine Peoples, on behalf of Beulah chapter No. 6, O.E.S has extended an invitation to Prof. Beggs to bring his class of Marshfield dancers for a performance of their terpsichorean tactics here on Friday evening, September 20. A.J. Sherwood, L. A. Liljeqvist, Bert Folsom, E. E. Shine, D. D. Pierce, J. A. Lamb, Geo. E. Peoples and A. E. Tyrell are named among those who will extend hospitality to the visitors. There are sixteen children between the ages of three and fifteen years who "trip the light fantastic" most gracefully. Silva Ballinger, three years of age sings a solo that is captivating. The entertainment will be given under the auspices of the O. E. S.

A Brick Manufactory Promised

Rumor—quite well founded—is circulating that Coquille is soon to have a brick manufacturing plant added to her industries. Brick will be manufactured in large quantities for shipment to Portland and elsewhere. Excellent clay abounds in large quantities within two miles of the city. The population and business of Coquille would be greatly augmented by the enterprise as nearly fifty men would be given employment. The project is worthy of encouragement from our business men.

Assessor Works On Big Map

M. O. Hawkins has in preparation a map of township twenty-five south, range thirteen west, which comprises Marshfield and the tide lands contiguous. The map is 48 x 48 inches. It is an intricate work as it delineates to perfection the zig-zag meander lines and all platted lands on the tide flats belonging to individuals and the state. We were shown various plats of blocks and lots in a book kept for that purpose in the assessor's office, the work of the deputy assessor, Mr. Hawkins, which convinces us that as a draughtsman he wields a master pen. Mr. Hawkins is only fairly started upon the big map—a task none but an expert would undertake—but we are confident his abilities will surmount all obstacles and in due time the work will be completed not only to the just pride of Mr. Hawkins but to the credit of the office in which he is employed.

Rev. G. L. Hall occupied the pulpit in the Methodist Episcopal Church South on Sunday last. Mr. Hall reports his colportage boat—the "Life Line"—being built on the Bay, as progressing nicely.

Wm. Candlin got a "soaking" during his recent trip to Gold Beach both going and coming. It rained furiously. The open stage and bad roads added to his displeasure. Mr. Candlin says business is good in Curry county.
