IT'S ONLY A SHORT STEP from discomfort and loss to comfort and food safety. Just order us to leave you some of our ice regularly and the transformation will begin at once. Don't keep putting the matter off. Every day you do so you are apt to lose in spoiled butter, milk, etc., many times the cost of the ice you ought to have.

NEW SEWER TO COST OVER FIFTEEN THOUSAND

The city council met Monday evening with usual full attendance. Ordinance No. 70 was passed unanimously. This measure dedicates to the public for street purposes a tract of land heretofore conveyed to the city by J. A. Collier and wife. This is the street leading to the Southern Pacific depot and is named and designated as Front street. The street is in bad condition and requires immediate improvement, and the ordinance carries an emergency clause. The city engineer was instructed to prepare data and profile for the grading and improvement of the street.

A resolution was passed accepting the new city wharf and providing for turning it over to Nosler & Norton on the terms of an agreement heretofore entered into, by which they lease it of the city for a yearly rental.

The city engineer was instructed to prepare profile and data for re-establishment of the grade on part of First street in Elliott's addition and Nottley's addition.

The city engineer's plans and estimates for the construction of a sewer system in sewer District No. 1 were adopted, and the council declared its intention of constructing said sewer system. The estimated cost is given by the engineer as \$15,564.40, divided as follows:

Excavation, 9775 yds.	\$4889.50
Refrilling	2444.75
Concrete	120.00
20 Manholes	800.00
2 Flushtanks	80.00
32 Lampholes	128.00
Laying pipe	586.74
2099 ft. 10 in. pipe	1259.40
2335 ft. 8 in. pipe	817.25
6624 ft. 6 in. pipe	1656.00
8590 ft. 4 in. pipe	1700.00
30 10-6 Y's	54.00
33 8-6 Y's	49.50
177 6-4 Y's	230.10
Bulkheading	12.09
Engineering	741.16
Total	15,564.40

Approximate cost per 50 ft. lot, \$60. A discrepancy of \$4 which may be noted between the items and the total of the estimate.

The engineer's plans already ordered for the new grade on a part of First street in Elliott's addition were adopted.

A warrant was ordered drawn in favor of the Coos Bay Paving and Construction company for \$1,000 on account of their B street contract, the engineer reporting that the work has been completed. The meeting adjourned.

School Notes

The enrollment in all grades at enrollment time is 328, an increase of 32 over the enrollment for the same period last year. Last year about 50 pupils enrolled during the school year after the first week. If the same number come in during the present year, the final enrollment will be well up toward 400.

The high school boys have become quite enthusiastic over foot ball and are planning to work out a team to compete with the other high schools on the river. There is some good material among the boys and the prospects are that a team can be organized that will make a good showing for the school.

Mr. Robertson of the high school has organized a night school in commercial branches which meets at the school house three evenings a week. These classes have been arranged for in response to a considerable demand for work along these lines.

Two handsome pictures have been received by the school, the gift of the Southern Pacific railroad. One is a view of the Lick Observatory and will be hung in the science room. The other is an exceptionally fine view of Mt. Shasta. It has been hung in the lower hall of the main building where it can be seen by all.

The high school science room is being fitted up as a chemical laboratory. The senior and junior classes are to take chemistry and considerable equipment is being installed in order that so large a class may be properly handled.

An article that has real merit should in time become popular. That such is the case with Chamberlain's Cough Remedy has been attested by many dealers. Here is one of them. H. W. Hendrickson, Ohio Falls, Ind., writes: "Chamberlain's Cough Remedy is the best for coughs, colds and croup, and is my best seller." Sold by all druggists.

Geo. Steinbaum and Della Marlis, both of Marshfield.

Alonzo P. Miller and Elizabeth Inez Chase, both of Marshfield.

Hugh Long and Ora J. Woods, both of Marshfield.

Stanley Mansfield Wessels and Alura Smith, both of Marshfield.

Fred Nerme and Andrie Claire Ladd, both of Marshfield.

O. E. S. Entertainment

The ladies of the O. E. S. are to be congratulated on their success in inducing Prof. Egges to bring to our city such an entertainment as his little fancy dancers. They have secured them at a great expense and hope all lovers of the graceful art will avail themselves of the opportunity of witnessing something really fine. Coos Bay papers were very loud in praise of the entertainment given them which was repeated to a full house.

Sorrow Befalls Mrs. Barrow

Mrs. C. R. Barrow received a telegram Saturday morning last conveying the sad intelligence that her son, Harry E. Disman, had suddenly died at Kansas City, Mo. Mr. Disman was about twenty-eight years of age, a barber by occupation and a man held in high esteem in the community where he had long resided.

Mrs. Barrow left on the early morning stage for Roseburg, thence by rail to Kansas City to attend the funeral. The body will be taken to Cherryvale, Kansas, about 156 miles southwest of Kansas City, where it will be buried beside other members of the family in the old home cemetery.

An aged mother and two sisters of Mrs. Barrow are living at Cherryvale. She likewise has other relatives living at Independence, Mo., and neighboring places near by with whom she will visit for a month or more before returning to Coquille.

Attorney Barrow prevailed upon his wife to be in no hurry to return to Coquille saying to us: "I know the change of scenes and incidents arising from a visit with friends will tend to alleviate the deep sorrow a mother's heart only can feel." Where thoughts like the above find lodgement a sympathetic and happy wedded couple can always be found.

An Afternoon of Pleasure

Last Saturday afternoon the editorial force of the Herald were the recipients of genuine hospitality from the hearts and hands of M. P. Long and his estimable wife.

We were taken from Coquille in a gasoline launch named "Ruth" in honor of Mr. Long's wife—to their country home on the bank of the river, where they enjoy a spacious residence provided with all modern conveniences, save electric lights, but the many comforts the farm provides more than offsets the value of electric illumination.

Not satisfied to treating us to a well prepared sumptuous meal, we were converted into a "pack animal" to carry away a bountiful supply of farm produce consisting in part of corn, carrots, tomatoes, beans, potatoes and cucumbers.

At the conclusion of our visit, we were conveyed to the city by Mr. Long and wife by means of the launch.

Shortly after arriving here we met our competitor, J. C. Savage, who told us to call at his residence and receive a gift from his wife. We obeyed, and gladly so, as we received a large salmon trout caught a few hours before by Mrs. Savage. Thus we were provided with a supply of food to last until some subscriber, long delinquent, will pay up and give us the means to purchase.

For all of which accept our thanks.
