GOOD ROADS ARE WANTED

MAYOR MORRISON BOOSTER

Favors Trunk Line to Roseburg—Would be of Great Value to All the People of Coos County

Mayor Morrison is working diligently for the establishment of a trunk wagon road to Roseburg, one constructed upon modern methods which could be used for all vehicles at any season of the year. It is Mr. Morrison's desire to interest the commercial bodies of the various cities of Coos county and he is calling upon these organizations to that end. He was at North Bend the first of the week and met prominent parties in commercial affairs and received words of encouragement relative to his plan. Mr. Morrison also conferred with Mayor Straus, D. C. Green, president of the chamber of commerce and others of Marshfield, who were favorably impressed with the views of our mayor in securing good roads.

Mayor Morrison was in attendance at the meeting of the commercial club at Myrtle Point last evening and the enterprising citizens of that community were in hearty accord with the project.

Bandon will be visited soon and the project placed before the commercial body at that place.

Speaking of his plan Mayor Morrison said:

"My idea is to try and get all of the cities in the county together. All of these with whom I have talked are highly in favor of the plan and they all say that we should hold a meeting some time soon. There appears to be no reason why the matter should be put off. After going to Myrtle Point and Bandon some time this week we will decide upon a date. I think the only way the road matter can be handled is to form an organization and then if the new laws pass, as they doubtless will, we can make arrangements to bond the county for road building purposes. The organization can make it a business to educate the voters on the importance of a good road. All of those with whom I have talked agree that a bonding proposition is the only way we can do very much in the way of road building. We will be in position to take the matter up in a businesslike way when an organization is perfected."

Coos-Curry Fair

Officers of the Coos and Curry county fair have won praise for conducting the fair in as successful and creditable a manner. Last week's weather was ideal and the attendance was large each day, the closing day, Saturday, proving the record-breaking crowd. Myrtle Point did herself proud and her people appeared to vie with each other as to who could best work and best agree in promoting the welfare of visitors.

The exhibits were good and the races excellent.

Coquille obeyed the proclamation of the mayor making Friday afternoon a legal holiday for the purpose of showing appreciation to Myrtle Point in attending the fair, and automobiles and trains were taxed to the utmost to accommodate the throng.

The people have proven by their liberal patronage that the fair is appreciated and we may reasonably look for greater and more elaborate exhibits and features next year.

Knights of Pythias Meet

Lycurgus Lodge No. 72, of this city, was well represented at the county convention of the Knights of Pythias held at North Bend last Monday. A. T. Morrison, W. C. Chase, W. L. Kistner, James Watson and Nels Osmundson were in attendance. It was voted to use best evidence to secure the meeting of the grand lodge at Coos Bay the first year after the railroad is running. Members were treated to a sumptuous banquet and attended a theatrical performance especially arranged for them. Coquille Knights expect an enjoyable time. Marshfield will be the place of meeting next year.

School Notes

The pupils of the Coquille schools made an excellent showing at the Coos-Curry Fair. They succeeded in carrying off five first prizes, thirteen second prizes and two thirds. In addition to the Mildred Norton was awarded a prize consisting of a \$5 kodak for the best exhibit of sewing in class B, that is, children under thirteen. The Coquille exhibit was larger than that of any other school in the county outside of Myrtle Point.

Agnes Betoger enrolled in the freshman class in the high school Tuesday.

Last Friday was declared a holiday on account of Children's Day at the fair. Most of the pupils, and many of the pupils, spent the day inspecting the exhibits and witnessing the races.

Supt. W. H. Bunch is to speak at the meeting of the Educational League on Friday, October 11.

His Last Voyage

Captain Jensen, for fifteen years on the Coquille river, San Francisco, ran died in San Francisco Tuesday. The Captain was taken ill just prior to the field's departure and was confined in bed on the downward trip. His family were with him going to San Francisco to make that place their future home.

This was to be the last trip of Captain Jensen on the Piedmont—and so it proved to be—as he had been assigned to take charge of the new steamer Speedwell which is soon to go on the run.

Captain Jensen is highly spoken of by all who know him. Let us hope the Great Pilot of all has guided our sea-faring friend safely to the everlasting harbor of rest.

Northern Pacific Buys Ties

Linegar Labors Long

Postmaster Linegar informs us that the postal authorities has instructed him to weigh all mail both incoming and outgoing. Mail of all classes—four in number—must be segregated and weighed separately. This is to continue during the months of October and November.

Our worthy postmaster and his able and courteous assistant were congratulating themselves upon the change of schedule in the arrival and departure of mails as a means of causing less labor in their arduous duties. They have, during the summer, begun work in the post office at 4:30 every morning and often the day's work was not ended until ten o'clock at night. This new order will not only increase their labors but will delay distribution of the mail to the displeasure of many. But we content ourselves with the knowledge that Uncle Sam's orders must be obeyed.

English Vegetable Marrows

Mrs. Wm. Candlin exhibited a quantity of English Vegetable Marrows at the fair at Myrtle Point for which she received a special prize. This vegetable is of the squash family and is regarded highly by people in the old country. Mrs. Candlin has sold some of the vegetable marrows to local growers who will plant the seed next season, and doubtless this delicacy will be produced in sufficient quantity to find a place upon the tables of many of our people in the future. The original seed came from Worcester, England, a place noted for market gardening. The average size of the vegetable marrow is about ten pounds.
