Burns-Steele

Married—At the home of the bride's parents, Tuesday evening, Dec. 3, Cora, daughter of Mr. and Mrs. B. H. Burns, and Rev. S. R. Steele of Bandon.

The house was beautifully decorated in green and white for the occasion, the bridal arch being especially fine, formed of ivy with chrysanthemum shower.

There were about fifty guests assembled and promptly at 8:30 the bridal party entered the parlor to the music of Mendelssohn's wedding march played by Raymond E. Burns, the musical young brother of the bride.

First came the "Matron of Honor," Mrs. E. A. Tyrrell, gowned in pale yellow crepe de chine over taffeta—then the officiating clergyman, Rev. C. H. Cleaves, followed by the little ring bearer, Mary Janet Tyrrell, who conducted the bridal couple to their places under the arch in the bay window.

Seldom has it been our privilege to see so sweet and pretty a bride.

The wedding gown was of creme messaline with over-drape of silk embroidered net. The bride's bouquet was of white chrysanthemums. The impressive ring ceremony of the Methodist Episcopal church was used in uniting the couple.

After congratulations were extended the bride threw her bouquet which was caught jointly by Iva and Hazel Howey, indicating a double wedding.

The guests were then conducted to the dining-room where a dainty wedding repast was served.

Evidence of the esteem in which the young couple is held was shown by the many pretty and useful presents they received consisting of cut glass, silver, china, etc., also a fine leather couch, the gift of the bride's parents.

The "newly-weds" will be "at home" to their friends after Dec. 10, in Bandon, at which place the groom has the pastorate of the M. E. Church South.

The bride has grown to womanhood in our town and is one of our very best young women. We are sure she will be very happy in the new home and life she has chosen, and the love and best wishes of a host of friends go with her.

Married—George E. Noah and Maggie Condie at Henryville, Wednesday, Dec. 4, by the Rev. C. H. Cleaves.

Married—Elsie Jeanne Noel of Coquille, and George N. Battey of Marshfield, at the home of the bride in this city, Wednesday night, Nov. 27, at 8 o'clock, Rev. C. H. Cleaves officiating.

Be Charitable

Coquille citizens have been in the dark since Saturday night by reason of a coil at the electric light plant being burned out. It has caused considerable inconvenience, but if all the chagrin and remorse of our citizens—in this respect—could be united into one common mass, it would not equal the regrets of Superintendent Morse who is ever striving to give us the best light service possible. Let charity shed its radiant glow about Frank Morse in his troubles and "more light" will pervade our souls—an illumination far more preferable than man's mechanical light from the electric globe. Try it.

A Magnificent Token Of Enduring Friendship

City Recorder, J. S. Lawrence, always smiling and pleasant, has appeared even more so during the past few days. Reason—George Hartley, a former bookkeeper and a stockholder in the Randolph mill, presented our worthy city official with a fine fountain pen near the end of which is a beautiful Masonic emblem.

The pen was given as a token of friendship long existing between the recipient and the giver.

Mr. Hartley goes with his family to Los Angeles, California, in a few days, near which place he intends to make his future home.

If you are troubled with chronic constipation, the mild and gentle effect of Chamberlain's Tablets makes them especially suited to your case. For sale by all druggists.

ROYAL BAKING POWDER

Absolutely Pure

[From a series of elaborate chemical tests.]

Comparative digestibility of food made with different baking powders.

An equal quantity of bread (biscuit) was made with each of two kinds of baking powder—cream of tartar and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The percentage of the food digested is shown as follows:

Bread made with Royal Cream of Tartar Powder:

99 Per Cent. Digested

Bread made with alum powder:

67 Per Cent. Digested

Royal Baking Powder raised food is shown to be of greatly superior digestibility and healthfulness.

Contractors are Busy

Longston & Bayliss, the contractors, have completed several jobs for local parties that have not in the least interfered with their work on the city hall.

The new vault for J. S. Barton of the Title Guarantee and Abstract company is a sample of their work in that line. They also put three windows in the side of the building to throw more light upon the work in hand by our newly elected representative.

Defects in the court house skylight were remedied by them and the moisture from above will no longer annoy our county officials from that source.

C. Johnson of Bandon had a fire-place put in his cozy residence in the city-by-the-sea by Longston & Bayliss.

Mr. Johnson is well pleased with the work and pronounces it the best and finest fireplace in the county.
