Coos Co. Bar Association Makes Recommendations

The Coos County Bar association met in this city Monday evening with a good attendance. Judges Coke and Hall and County Clerk Watson were appointed a committee to draft a bill changing the dates of terms of circuit court to dates more convenient to ranchers, business men and others.

The association also made the following recommendations:

That in addition to the sheriff any citizen over 21 years old, except those directly interested in the case, be empowered to serve summons, thus reducing the cost on the bay from about \$3.60 to 20c.

That 90 days be the time for taking appeals from circuit to supreme court.

That district attorney be permitted to make minor indictments by motion to the circuit judge.

That time for examining jurors be limited, but circuit judge empowered to extend when necessary.

That the justice of the peace be a licensed practicing lawyer in precincts of over 3,000 population.

Circuit Court Convenes

The adjourned term of court was convened by Judge Coke, Monday, the 27th in this city, with nearly all the Coos bay lawyers in attendance.

Clinton Akers pleaded guilty to the charge of burglary and a sentence will be pronounced Friday, January 31.

A. Johnstone, indicted for obtaining money under false pretenses, acknowledged the charge as just and will meekly receive his sentence tomorrow (Friday).

John W. Wright is accused of not being right in obtaining money under false pretenses and the hearing of his case is now in progress.

Criminal cases are being investigated by the grand jury but few true bills have thus far been reported. The docket is comparatively free from acts of a lawless nature and actions of a civil character will soon be on the tapis—and there are many.

300 Tons of Sugar to Sweeten Coquille a Year

The Herald made a brief visit to the wholesale house of Nosler & Norton of this city one day this week and was surprised at the magnitude of the stock handled by this enterprising firm.

During the past year three hundred tons of sugar passed through the warehouse and found its way to the homes in this immediate vicinity. This is certainly a sweet community.

This being a famous dairy country, where the lactical fluid flows from the udders of thousands of thoroughbred cows, another surprise was ours when we were informed that one hundred cases of Libby's condensed milk were ordered at a time and no less than that sum at frequent intervals.

Every incoming Breakwater has twenty tons or more flour and feed to meet the needs of man and beast in and near Coquille. Four tons of hams and bacon are sold by Nosler & Norton each month—one ton a week.

Tons of lard and canned goods of every kind are handled, all being products from the best manufacturers in our land.

Nosler & Norton have, by diligently adhering to business and fair treatment, won the confidence of all with whom they deal. A wholesale house of this character is not only a convenience but is an institution that reflects credit upon Coquille and it deserves—as it receives—the loyal support of our business men.

Property Transfers in Coos County Past Year

Assessor Thrift has been kept busy for some time past making a record of transfers of property occurring in Coos county for the past year. Two thousand three hundred transfers of property were made in the county which cover 1920 pages of the assessor's record books. This record is made necessary each year in order that the property may be properly assessed for taxes to the rightful owner. The work is conducted with such accuracy that complaints are unknown, demonstrating that the people chose wisely in retaining in office so capable an official.

An Ounce of Prevention Is Worth a Pound of Cure

A very true assertion if applied to Seed, Grain, Potatoes, etc.

The Government Experiment Stations have proven that Formaldehyde is the best remedy to prevent Smut and other diseases peculiar to Wheat, Oats, Barley, etc.; also Smut and Blight on Potatoes.

Folsom, Marshfield; Fred Johnson, Webb Mast, Homer Holverstott and Mr. Mathews, Fairview; C. H. Roberts, Geo. Hermann, Albert Barklow, Ed. Rackliff, Cal. Grant, J. L. Lewellyn and Mrs. Phelan, Myrtle Point.

Ready For Business

Mrs. A. P. Miller has established herself in the Rose building where she will conduct a first-class millinery and dressmaking business. She is carrying a nice line of ribbons, laces, braids, notions, gingham, etc., and will be pleased to serve her patrons and receive any orders they may place. As soon as the millinery season opens Mrs. Miller will display a select assortment of hats, and will endeavor to meet the requirements of each individual in this department of the business. Your patronage is solicited.

Liberty Comes High

Major L. D. Kinney of North Bend, who has extensive holdings of some of the best real estate on the bay, was in the city Monday. His business was before the circuit court where parties of whom he purchased the old stern-wheeler Liberty, several years ago, were endeavoring to get judgment for some \$19,000 on the deal. The Liberty saw her best days on the Coquille and, it is safe to say, that there are many steamboat men on the river who will be amused to think of the old boat in connection with that amount of money.

Superb Scenic Scenes

Crowded houses have been the order nightly at the Scenic Theatre this week, the drawing card being Lee & Chandler, the famous vaudeville actors. They close their engagement tonight when the barefoot Texas Tommy dance will captivate. But few of the larger cities have ever been favored with the unusual privilege of having exhibited in theatres the barefoot dance and Coquilles may consider themselves fortunate in having an opportunity to witness this rare spectacle.

A three-reel feature, the big Olympic Games at Stockholm, will be presented in conjunction with Lee & Chandler's dancing act tonight. Admission 10c. and 20c.

North Carolinians Make Coos County Their Home

Lark Mast returned Friday last from a four months' visit to his old home in North Carolina, which he had not seen for forty years. Mr. Mast reports a pleasant trip. He was amazed at the railroad engineering work performed in the rocky mountains and stated that bridges over high gulches were simply "hung up in the air." A nephew, Clynard Woodring, wife and child, returned with Mr. Mast and will make Coos county their future home.

Trespass notices printed on cloth and worded in keeping with law, for sale at the Herald office.

Captain Andrews of Allegany was a Coquille caller Monday. He visited the office of County School Superintendent Baker and in consultation with that enthusiastic and hard working official expressed himself as heartily in favor of consolidating the school districts of his section. That a move in that direction will be made soon is apparent. It should be done.

The social committee of the C. E. society of the Christian Church gave a social Tuesday evening at the home of Mr. and Mrs. Aaron Wilson. There was a splendid attendance and every indication that those present enjoyed themselves. A luncheon was served and the crowd went home happy.

Those onion sets at Knowlton's are raised by an expert onion set grower who has soil peculiarly adapted to them. Consequently they are the very best. 12 1/2c. a lb.

M. C. and H. V. Tozier have purchased the residence of Alva Warren on Elliott street near Third. These young men have adopted the proper method in placing their money in real estate, and we hope this will serve as an incentive to others starting out on life's business pathway to follow the laudable example.

The city dads congregated by special invitation Monday evening last to authorize the payment of \$2,000 to Contractors Longston & Bayliss for work on the city hall. Three thousand five hundred dollars will be due the contractors upon the completion and acceptance of the building. The total sum paid thus far is \$8,500.

Dewitt Clinton of Gravel Ford, a resident of Coos county for forty years, called at the Herald Tuesday and gave us an interesting epitome of the events in days gone by. Mr. Clinton does not favor unwarranted boosting and says the plain truth regarding this favored section is all that is required to people it with an enterprising class. So be it.

School Notes

The basket ball team goes to Bandon to play their first game of the season tomorrow evening. It is likely that a boat will be chartered so that a crowd from Coquille can take in the game.

Myrtle Point's championship basket ball team of last year is organized as an alumni team and challenged the local school to a game. It is possible that a contest with this organization may be arranged for an early date.

Miss Gamble of the eighth grade has recently received a call to take charge of the same grade in Baker City at a considerably better salary than she receives here. She decided to remain here, however, rather than break her contract with this district.

The semester examinations are being held this week. There are no legal holidays during the second semester and, beginning Monday, Feb. 3, school will continue without a break to the close of the year.

Plans are being made to bring Prof. Schafer into Coos county during the Easter vacation of the University and have him lecture in each of the towns. Prof. Schafer is head of the department of history and has the reputation of being an excellent speaker.

Good Eats Suggestions

As this is the season of the year when it is somewhat difficult to obtain something palatable to eat, we would suggest that you try the canned vegetables at Drane's—asparagus, asparagus tips, spinach, beets, succotash, corn, peas, beans, sauer kraut, tomatoes and the old-fashioned lye hominy, such as your mother used to make. At this up-to-date grocery you will also find a full assortment of the far-famed Delmonte canned fruits, also delicious canned pumpkin ready for the fluffy pies which Coquille housewives excel in making and which at this time of the year should be found upon each menu.
