A Hardened Case.

"Husband, you have never given me any money since we have been married. Now, I positively must have \$50."

"Aw, here's a dollar. What are you going to do with it?"

"I think I'd better frame it as a souvenir."

"In that case hand it back and I'll give you a check instead."—Kansas City Journal.

Needed to Be Explained.

Mrs. Hennessey, who was a late arrival in the neighborhood, was entertaining a neighbor one afternoon when the latter inquired:

"And what does your old man do, Mrs. Hennessey?"

"Sure, he's a diamond cutter."

"Ye don't mean it?"

"Yes; he cuts th' grass off th' baseball grounds."—Lippincott's.

Leader Wants to Know Where Money Went to

The Curry County Leader is camping on the trail of the Port Orford Port Commission and wants to know what became of the money that was raised by taxation in the port district, amounting, it is said to \$1500. The Leader takes a shot at C. R. Peck, of Marshfield, who was brought out from Oklahoma by Colonel William Grimes to be attorney of the Coos Bay Port Commission when that port was organized and the "colonel" had charge of the destinies of Coos Bay. John D. Goss also gets a touching up. The Leader says:

Just what portion of the people's money has been spent and for what is unknown, but it has leaked out that about \$250 remains or thereabout of the \$1500 collected as taxes. If this be true what became of it? It is said Mr. Peck, an attorney at Marshfield, was paid \$250 for assisting Attorney Meredith, and that the latter was paid \$300 for being assisted by the former. Is this true? But the most startling report is one to the effect that J. D. Goss, another Marshfield attorney, and representing the Smith interest in their fight against the port received \$250, either as a fee or as a rebate on his clients taxes. How much of this is true? Let us have a report.

Saving Gold From Sand
(Coos Bay News)

The Surf claims that the new machine for extracting gold and platinum from black sand, which has been tested on the beach south of Bandon by L. R. Ferbrache, is a decided success. It is claimed that the machine saves every particle of gold and platinum, and that the sand which under the old process produced only a dollar a ton, now yields ten times that amount. Devices tried heretofore, which would save a great percentage of the gold from the sand, would only handle a limited amount of sand per day, and consequently were not a success. We saw several inventions tried on the Bandon and Randolph beaches in the '70's, and all were pronounced failures—the miners getting better results with rough lumber in the bottom of sluice boxes, copper plates and plush blankets charged with quicksilver. The machine in question, however, is said to handle about 40 tons of sand a day, and if it does, and if it saves nearly all the gold and platinum, then it is certainly the machine that black sand miners long have sought, and mourned because they found it not.

A Just Complaint

The North Bend Harbor prints the following communication:

Will you give me space to register a complaint against the Coos Bay, Roseburg & Eastern R. R. Co., about the way the public is treated at the depot in Marshfield. I on two occasions during the past week attempted to gain admission to the public waiting room, a few minutes prior to the time of the arrival of the Myrtle Point train. The door was locked and being very cold from the rain and wind, I asked permission of the agent in the office to go into the waiting room. After an explanation he reluctantly opened the waiting room door and allowed me and others to enter. I was told by an express agent that the doors was never opened until a very few minutes before the departure of the train and not at all for the arrival of trains. It is possible that the company has a right to keep the doors locked or open as they please but it is not serving the people who desire to patronize the trains right.

Mrs. W. E. Thorp, North Bend, Ore.

Cuts out Bandon

The Portland Telegram says: Arrangements have been perfected by the Elmore interests for placing the gasoline schooner *Servis*. Captain Tabell, in regular service between Portland and the Siuslaw, taking practically the same route at that on which the Anvil, now ashore at the mouth of Siuslaw, was operated. On the start she will not go as far as Bandon, where the Anvil made regular calls. With that exception she will follow the same route.

Have you paid the printer.

THE CURE

BY ELLA WHEELER WILCOX

You may talk of reformations, of the Economic Plan That shall stem the Social Evil in its course, But the Ancient Sin of nations must be got at in THE MAN. If you want to cleanse a river, seek the source.

Ever since his first beginning Man has had his way in lust, He has never learned the law of Self-Control; And the World condones his sinning and the doctors say he must, And the churches shut their eyes and take his toll.

And the lauded "Lovely Mothers" send the son out into life With no knowledge-welded armor for the fight; "He will make his way like others, through the Oat field, to the Wife;" "He will somehow be led onward to the light."

Yes, his leaders, they shall find him. On the highways at each turn (Since you did not choose to counsel or to warn). They shall tempt him, then shall bind him; they shall blight and they shall burn, Down to offspring and descendants yet unborn.

It can never end through preaching; it can never end through laws; This social sore no punishment can heal. It must be the mother's teaching of the purpose and the cause, And God's glory, lying under sex appeal.

She must feel no fear to name it to the children it has brought; She must speak of it as sacred and sublime; She must beautify, not shame it, by her speech and by her thought; Till they listen, and respect it for all time.

From the heart they rested under ere they saw the light of day, Must the daughters and the sons be taught this truth, Till they think of it with wonder, as a holy thing always, While love's wisdom guides them safely through their youth.

Oh, the world has made its devil, and the Mothers let it grow, And the Man has dragged their thoughts down to the earth. There will be no Social Evil when each waking mind shall know All the grandeur and the beauty hid in birth.

When each Mother sets the fashion to win confidence and trust, And to teach the mighty lesson, Self-Control, We can lift the great Sex passion from the darkness and the dust And enshrine it on the altar of the soul.

The Oregon law defines a bonafide subscriber as a "Paying subscriber not in arrears more than one year." Do you want us to swear to a lie on your account when we make our report to the government—or do you want the Herald to be shut out of the mails for lack of "bonafide" subscribers?

Mining in Curry
(Port Orford Tribune)

Curry County is to have quite a mining excitement this summer. K. R. Wooley and wife, and Harry Searancke, an engineer of San Francisco, Calif., just arrived in Wedderburn and outfitted with a thousand pounds of supplies for their new mining camp near the mouth of the Illinois River. The senior Wooley, who laid out Wooleyport, Cal., is already on the ground, and has arranged to ship in much machinery at once. They will have fifteen or twenty men at work there inside of thirty days, so Mr. Wooley stated, and they intend to thoroughly examine the copper prospects on the upper Rogue and Illinois rivers.

Mr. E. I. Kennedy has also shipped in a large amount of machinery from Grants Pass, and will demonstrate his new method of extracting gold from concentrates by means of certain salts, which method promises to revolutionize gold mining in the placer claims on Rogue river and save 90 per cent more gold from the sands than have heretofore been recovered by any known method. Mr. Kennedy says when his method has been demonstrated there will be a rush to Rogue river again as in the fifties, when there was a miner to every rod of ground. They got the coarse gold then, but Mr. Kennedy gets the fine gold now and gets it all.

Pot covers at Anderson's

Must You Be Bald?

What have you done to stop your hair from falling? Have you tried "93" Hair Tonic? If not, we want you to try it at our risk.

If you have dandruff, if your hair is falling out and your scalp is not clean and shiny, if you use Rexall "93" Hair Tonic according to directions for thirty days, and at the end of that time you are not thoroughly satisfied with the results and will tell us so, we will immediately hand back your money. We won't ask you to promise anything. We won't even question you. We will take your word and return your money.

Doesn't it stand to reason that Rexall "93" Hair Tonic must be a mighty good remedy and have given great satisfaction to our customers if we endorse it like this? We know of no similar remedy that is so good. It is because of what Rexall "93" Hair Tonic has done for others that we back it with our own money.

Why suffer scalp and hair trouble or be bald, when Rexall "93" Hair Tonic will remove dandruff, make your scalp comfortable and healthy, promote hair growth and tend to prevent baldness—when we will pay for the treatment should it fail to please you?

We don't obligate you to anything. You simply buy the treatment, use it, and if not pleased, come back to us empty-handed—and we will hand back what you paid us. Two sizes, 50c and \$1.00 a bottle. You can buy Rexall "93" Hair Tonic in this community only at our store.

FUHRMAN'S PHARMACY
Coquille, The Herald Store, Oregon

There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rexall Kennedy for nearly every ordinary human ailment especially designed for the particular ill for which it is recommended.

The Rexall Stores are America's Greatest Drug Stores

New School Laws

Among the more important educational bills passed by the last Legislature, are the following:

- Districts may be a majority vote at a regularly called meeting, authorize the school board to purchase books and furnish them free of charge to all pupils attending school in the district.
 - After September 1, 1915 all persons applying for teachers' certificates must have completed two years' work in an accredited high school and attend a teacher's training class at least six weeks. This act will not apply to teachers who have had six months experience prior to September, 1915.
 - Provision is made for substituting a three weeks, summer school for the annual institute. The county superintendent shall, on the petition of ten teachers, submit to the teachers of his county the question of whether or not such school shall be held. All teachers of the county must attend unless they have had at least twenty-seven months teaching experience, eight of which shall have been in Oregon, or are graduates of an accredited normal school, or the teachers' training class in an accredited high school. When the teachers have once voted for the summer school thereafter such school shall be held in lieu of the annual institute.
 - Provision is made whereby graduates of non-standard colleges can take an examination for high school certificate.
 - Provides penalty for persons refusing to give the name and age of all their children to the census taker.
 - Hereafter all schools shall have regular fire drills and suitable instruction relative to the danger from fires.
 - Hereafter all schools districts may provide for night schools.
- None of the law will go into effect before January 3rd, and any action taken by the district, or by the teachers of any county, will not be legal and any action before that time will have to be taken again.
- Yours very truly,
L. R. ALDERMAN,
Supt. of Public Instruction.
- The Berry He Was.**
- When Bishop Berry of the Methodist Episcopal church was a young preacher he once gave a lecture in a rural community. Wishing to be witty, he announced to his audience that he was a berry and called upon them to state what kind of berry. Nearly every berry known in the vicinity was guessed, and the speaker refused to share the qualities of any of those named. At last an old lady who was not sympathetic with the seeming levity of the lecturer arose and exclaimed in a squeaky voice: "I know what kind of a berry you are. You are a gooseberry, and a very green one at that. Go on with the lecture." And the lecturer did quickly.
