CITY DIRECTORY

Fraternal and Benevolent Orders

A. F. & A. M.—Regular meeting of A. F. & A. M. at Masonic Lodge No. 88, F. & A. M. at Masonic Hall, every Saturday night in each month on or before the full moon. C. W. EXBRODT, W. M. H. H. MAST, Secretary.

O. E. S.—Regular meeting of Beulah Chapter No. 6, second and fourth Friday evenings of each month, in Masonic Hall. EVA BARROW, W. M. JOSEPHINE G. PEOPLES, Sec.

I. O. O. F.—Coquille Lodge No. 53, I. O. O. F., meets every Saturday night in Odd Fellows Hall. C. H. CLEAVE, N. G. J. S. LAWRENCE, Sec.

MAMIE REBEKAH LODGE, No. 20, I. O. O. F., meets every second and fourth Wednesday nights in Odd Fellows Hall. EMILY HENRY, N. G. ANNIE LAWRENCE, Sec.

COQUILLE ENCAMPMENT, No. 25, I. O. O. F., meets the first and third Thursday nights in Odd Fellows Hall. J. S. BARTON, C. P. J. S. LAWRENCE, Sec.

K. NIGHTS OF PYTHIAS—Lycurgus Lodge No. 72, meets Tuesday nights in W. O. W. Hall. R. R. WATSON, K. R. S. O. A. MINTON, C. C.

PYTHIAN SISTERS—Justus Temple No. 35, meets first and third Monday nights in W. O. W. Hall. MRS. GEORGE DAVIS, M. E. C. MRS. FRED LINDBAR, K. of R.

RED MEN—Coquille Tribe No. 46, I. O. O. M., meets every Friday night in W. O. W. Hall. J. S. BARTON, Sachem. A. P. MILLER, C. of R.

M. W. A.—Regular meetings of Beaver Camp No. 10,550 in M. W. A. Hall, front street, first and third Saturdays in each month. M. O. HAWKINS, Consul. R. B. ROGERS, V. C. NED C. KELLEY, Clerk.

R. N. A.—Regular meeting of Laurel Camp No. 2972 at M. W. A. Hall, front street, second and fourth Tuesday nights in each month. MARY KEES, Oracle. EDNA KELLEY, Rec.

W. O. W.—Myrtle Camp No. 197, meets every Wednesday at 7:30 p. m. at W. O. W. Hall. LEE CURRIE, C. C. JOHN LENEVE, Sec.

EVENING CIRCLE No. 214, meets second and fourth Monday nights in W. O. W. Hall. DICK A. MAURY, G. N. MARY A. FRISCH, Clerk.

FARMERS UNION—Regular meetings second and fourth Wednesdays in each month in W. O. W. Hall. FRANK BEECHER, Pres. O. A. MINTON, Sec.

F. PATERNAL AID No. 398, meets the second and fourth Thursdays each month at W. O. W. Hall. MRS. CHAS. EVLAND, Pres. MRS. LORA HARRINGTON, Sec.

Educational Organizations and Clubs
COQUILLE EDUCATIONAL LEAGUE—Meets monthly at the High School Building during the school year for the purpose of discussing educational topics. EDNA ANDERSON, Pres. EDNA MINARD, Sec.

KO KEEL CLUB—A business men's social organization. Hall in Laird's building, Second street. A. J. SHERWOOD, Pres. FRED SHAGLE, Sec.

COMMERCIAL CLUB J. E. NORVON President; J. C. SAFFAGE, Secretary

Transportation Facilities
TRAINS—Leave, south bound 9:00 a. m. and 3:00 p. m. North bound 10:40 a. m. and 4:40 p. m.

BOATS—Six boats plying on the Coquille river afford ample accommodation for carrying freight and passengers to Bandon and way points. Boats leave at 7:30, 8:30, 9:30 and 9:50 a. m. and at 1:00, 3:30 and 4:45 p. m.

STAGE—J. L. Laird, proprietor, departs 8:00 p. m. for Roseburg via Myrtle Point, carrying the United States mail and passengers.

POSTOFFICE—A. F. Linegar, postmaster. The mails close as follows: Myrtle Point 8:40 a. m. and 2:35 p. m. Marshfield 10:15 a. m. and 4:15 p. m. Bandon and way points, Norway and Arago 12:45 p. m. Eastern mail 4:45 a. m. Eastern mail arrives 10: a. m.

City and County Officers
Mayor—A. T. Morrison
Recorder—J. S. Lawrence
Treasurer—R. H. Mast
City Attorney—L. A. Liljeqvist
Engineer—P. M. Hall-Lewis
Marshal—C. A. Evernden
Night Marshal—John Hurley
Water Superintendent—S. V. Epperson
Fire Chief—Walter Ording
Councilmen—D. D. Pierce, C. T. Ekeels, W. C. Laird, G. O. Leach, W. H. Lyons, Leo J. Cary. Regular meetings first and third Mondays each month.

Justice of the Peace—J. J. Stanley
Constable—Ned C. Kelley
County Judge—John T. Hall
Commissioners—W. T. Dement, Geo. J. Armstrong
Clerk—James Watson
Sheriff—W. W. Gage
Treasurer—T. M. Dimmick
Assessor—T. J. Thrift
School Supt.—Raymond E. Baker
Surveyor—A. N. Gould
Coroner—F. E. Wilson
Health Officer—Dr. Walter Culin

SYNOPSIS OF MANY EVENTS

THE NEWS IN TABLOID FORM

Condensed for the Quick Assimilation of Busy Men and Women—General Round-Up of a Wide Scope

Governor Lister, of Washington, is a Good Roads booster.

The number of horses in use in Chicago decreased 389 last year.

Prof. John Robie Eastman the astronomer, is dead at the age of 77. Aviator Moreau won the Bonnet prize by flying half an hour without touching the levers.

The Baldwin Locomotive Company recently completed their forty-thousandth locomotive.

The discovery that has been announced of a new series of rays, the F-rays has just been contradicted.

At the Schneider mines in France successful experiments are being made with a 70 horse-power gasoline locomotive.

Julian Hawthorne, who was sent to the U. S. penitentiary for violation of the postal laws, has ended his six month term.

Germany is experimenting with searchlight projectiles, which are thrown to a distance and then flare up and give an intense light.

Since the German airship accidentally landed in France, the two countries have entered into a convention to cover such incidents.

The New York Metropolitan Museum of Art will receive the great art collection of Benjamin Altman, the department store millionaire.

Governor Foss, of Massachusetts, three times elected as a Democrat, has filed nomination papers as an independent candidate for re-election.

Good Roads enthusiasts at Walla Walla are starting a campaign to bond the county for \$1,250,000 for the construction of 125 miles of hard surface roads.

After riding his motorcycle from Plant City, Fla., to San Francisco, C. W. Delong found that \$5 would cover the cost of all repairs necessary after the long ride.

Fares will have to be increased if street railway companies must meet the present day demands of the public and survive, says George H. Harries, of Louisville.

The steamer Wilhelmina, enroute from Honolulu to San Francisco, met a tidal wave twenty feet high that rose out of a smooth sea and broke over the vessel's deck.

The Department of Agriculture holds out no hope of a lowering of the cost of living, so far as meats and food stuffs are concerned, reporting a scarcity all along the line.

An average speed of over two miles a minute was made by the winner of the race for the Gordon Bennett cup this year, the fastest speed yet attained by a flying machine.

Southern Pacific stock dropped three points on the announcement from the Department of Justice that suit would be commenced to compel the relinquishment of the Central Pacific.

The immense biplane that recently flew for over an hour with seven passengers, at St. Petersburg, has a spread of 91 feet, a length of 65 feet, and is driven by four 100 horsepower motors.

Following the opening of the Panama Canal, the Boston Pacific Steamship Company, will establish a regular steamship line between Boston and ports on the Pacific coast, to carry lumber to the East.

G. M. Hyland, of Portland, who recently returned from the East, says that splendid headway is being made with the Lincoln highway and it will be completed to San Francisco by the opening of the exposition.

Former Herald Editor Writes of State Fair

Salem, Oregon, Oct. 11, 1913
Editor Coquille Herald:

One week ago the fifty-second annual Oregon State Fair terminated the greatest event in its history.

Weather conditions were ideal and vast crowds were in attendance daily. The recording gates numbered over 25,000 visitors on Salem Day (Wednesday) and a like number attended the day following. The official figures are not obtainable but doubtless 100,000 paid admissions were received during the week.

Just outside the fair grounds a beautiful tract covered with oak trees has been assigned to Oregonians for camping purposes. Nearly every county in Oregon was represented. It is known as the Tent City and is presided over by Albert Tozier as Mayor, a relative of a Coquille business man.

As you enter the fair grounds a bed of King Humbert cannaes eight feet high, with bronzed spikes and scarlet blossoms serve as a beautiful introduction. The effect was startling and paved the way for what followed which was one of the most magnificent and instructive displays of growing flowers ever seen on the coast. Among other plants were over 1,000 dahlias embracing four hundred varieties, and other choice flowers reposing in well constructed beds made a scene of rare splendor.

The new machinery hall presented a scene of activity as many of the devices to lessen the labor of man were propelled by electricity and demonstrated their uses to a remarkable degree.

The main exhibition building was filled with delicious fruits and large and perfect vegetables of nearly every kind for which the Beaver state is noted. Oregon manufacturers also exhibited their wares, some of whom had miniature workshops which were both interesting and instructive.

Women's textile building was replete with every variety of needle work. Live stock and poultry exhibits were the best ever and the Lone Oak race track was in excellent condition for the many races that were held daily.

Free amusements, unique and pleasing were held at frequent intervals during the day and gorgeous fire-works of beautiful design provided a pleasing spectacle by night. Words of mine are inadequate to describe the magnitude and beauties of the fifty-second Annual Oregon State Fair. Although a daily visitor, it was impossible to see everything.

Sheriff Gage and W. C. Laird were in attendance from Coquille, and doubtless Coos County contributed other visitors. Let us hope the new railroad to your section will be completed in time for Coos county to exhibit her products at the next State fair, and win many first prizes therefor.

Frank Meredith, secretary of the State fair board, whose visage is usually pleasing, is now wearing a countenance as radiant as a boy with his first red top boots, in consequence of the successful fair, and is already fostering ideas with a view of making this great Oregon event, if possible, better in future years.

W. G. ACKERMAN.

Three Things Prophesied

George M. Hyland, of Portland, after a five-weeks trip through the East and other parts of the country, announces that he is confident that three things are going to take place in the United States within the next ten years. He says:

"First, there will be woman's suffrage in every state;
"Second, there will be National prohibition, and,
"Third, there will be universal municipal ownership of public utilities."

"It is coming as sure as you are born. Woman's suffrage will come first and right soon, too, I'm thinking."

RESOURCES UNDER INVESTIGATION

United States Geological Survey in Cooperation With the State Officials Examining Mineral and Water and Water Resources of Oregon

So many of the resources are directly related to the development of the State's mineral resources or water resources that the work of the United States Geological Survey is always of special importance in this state. Oregon, in common with other public land States, is now receiving a much larger share of attention from the Federal Survey than the older States of the East, largely because of the need of information for the classification of public lands.

In accordance with arrangements with the state Bureau of Geology and Mines, work was begun in June by a party in charge of A. J. Collier in the reconnaissance ex-

ploration of the John Day Valley, in the northern part of the State, where from time to time the residents have reported hopeful indications of the occurrence of coal and oil. The study of the detailed stratigraphy and economic geology of the Sumpter quadrangle, west of Baker City, nearly half of which had previously been mapped by J. T. Pardee of the Federal Survey, will be completed under cooperative auspices by F. J. Katz for folio description and publication.

The lands in the Klamath Indian Reservation are being classified by H. G. Ferguson of the Office of Indian Affairs, and the geologic mapping and classification of the coal-bearing area including Eden Ridge in the western part of the State will be accomplished for the Land Office by C. E. Leshar.

SIX NEW TOPOGRAPHIC MAPS IN PROGRESS
In cooperation with the State engineer of Oregon, the topographic branch of the Survey is this season engaged in making maps of the areas known as the Salem, Albany, Aumsville, and Corvallis quadrangles, in the Willamette Valley. These are 15-minute quadrangles,

each containing approximately 212 square miles. Mapping the Condon 30-minute quadrangle, in Gilliam and Sherman counties, with an approximate area of 842 square miles, is also in progress. A large amount of triangulation work, to establish the control of the other areas to be surveyed, is also in progress. This surveying is being done by Topographers C. A. Birdseye, W. O. Tufts, J. H. Wheat, O. G. Taylor, S. G. Lunde, W. S. S. Johnson, and F. W. Crisp. Plan and profile surveys of the Middle and McKenzie forks of Willamette River and of Santiam, Clackamas and Sandy rivers are also in progress by Topographers L. F. Biggs and D. S.

with the State of Oregon, and the rest in cooperation with other Federal bureaus, municipalities, and private persons. At these gaging stations the height or stage of the rivers is determined each day by local observers and at some stations by automatic gages, and measurements of the discharge of the streams are made by engineers of the Survey. From these data the quantity of water flowing past the stations is determined. Stream-flow records are of particular value in Oregon in the design, construction, and maintenance of water-power plants and irrigation projects, in investigations for the classification of the public lands, and in Carey Act examinations. The records also find wide use in the State in all problems where the quantity of water is involved, such as those relating to water storage, seepage, river regulation, land drainage, stream pollution, and municipal water supplies. Such records are also of great value for general statistical and comparative purposes.

The investigations of surface water by the United Geological Survey in central and western Oregon are carried on by F. F. Henshaw, district engineer, E. S. Fuller, and John E. Stewart, with offices at 416 Couch Building, Portland, Ore; and those in eastern Oregon by G. C. Baldwin, district engineer, A. B. Purton, and R. C. Pierce, with offices at 615-617 Idaho Building, Boise Idaho. The cooperating State official is John H. Lewis, State engineer, Salem, Oregon.

Examinations, investigations, and reports needed by the land-classification board of the Geological Survey in passing on right of way applications, water-power withdrawals, and Carey Act segregations, together with examinations of land for designation under the enlarged homestead act involving the use of water in Oregon, are being made by E. G. LaRue, hydraulic engineer, Federal Building, Salt Lake City, Utah, and E. C. Murphy, hydraulic engineer, Napa, Cal.

Adams, it is said, has thrown all his influence and that of his friends toward Coke for the governorship, although the latter insisted that he was a candidate for the United States district attorneyship. Coke, he is said, has written, would prove acceptable to the responsible Democrats of Hawaii, for it seems that one of the objections to giving him the district attorneyship, according to Washington advices is that "he is too popular" to hold such a position.

Coke has a good friend in Secretary of State Bryan, whose nomination for the presidency he seconded in 1908 at Denver, and he also has the interest of Senator Chamberlain of Oregon, who is chairman of the powerful senate committee on military affairs.

Johnathan Bourne, Jr. addressed a large gathering at Eugene last week, explaining his good roads plan. An earthquake shook the territory along the Snake river below Huntington last week, but did no damage.

Governor West says he intends to allow O. S. Hansel to hang, he having killed Judge F. J. Taylor at Astoria. D. M. Lowe, of Ashland, was appointed by Gov. West as a state commissioner to the Chicago Land Products Show.

An edict has been issued from the president's office at the state university forbidding the bathtubting of freshmen. The corner stone has been laid and the Carnegie building of the Hood River County Library will soon be completed. Following the first day of open season on Chinese pheasants in Linn county, hundreds of dead birds were left in the fields. Fire of unknown origin destroyed the store of the Sutherland Mercantile Co., at Sutherlin, Ore., last week, with a loss of \$20,000. At a meeting of the Umpqua Port Commission at Gardiner it was decided to levy a one-half mill tax for the current expenses. The trial of LaFrance failed to clear up the mystery of where he obtained the dead body which he "planted" on the Clackamas. Two S. P. freight trains collided head on at Albany last Wednesday and three horses were killed, but none of the crew were injured. Corporation Commissioner Watson will start suit against several foreign corporations that have not paid their annual license fees. Geo. E. Hymer, a Marshfield man who disappeared mysteriously after leaving for Portland, has been located in a hospital in that city. Members of the state Railroad Commission predict that the time is not far distant when all grade crossings will be eliminated in this state. The text book publishers have nearly all complied with the request that they reduce the selling price of their school books in this state to conform to the lowest prices charged elsewhere. Plans are being made for the shortening of the highway between Roseburg and Medford 25 to 40 miles, by taking a new route, cutting out the worst of the road and giving only one divide to be crossed. Have you paid the printer.

James L. Coke May Get Hawaiian Governorship

A. J. Sherwood has received from Honolulu a copy of the Pacific Commercial Advertiser which contains matter that will be of interest to many people in Coos county who are acquainted with James L. Coke, brother of Judge John S. Coke. It seems that James L., who has been a resident of the Islands for some years and has attained a position of prominence there, is now in line for the governorship of Hawaii. In a column news writeup of the situation, the Advertiser says in part:

Another Richmond is in the field for the governorship of Hawaii in the person of Senator James L. Coke, and what is more, Coke is said to have the backing that might yet place him in the chair as a compromise, should Congressman Kent's Republican portage, L. E. Pinkham, fail of confirmation by a Democratic senate.

Coke, it is said, has not entered the field voluntarily; rather he has been projected into it by several Democratic politicians of national prominence. Chief among these is said to be former Governor Alva Adams of Colorado, who recently passed through Honolulu, en route to Australia and the Orient as a member of the Panama-Pacific Exposition commission.

Adams, it is said, has thrown all his influence and that of his friends toward Coke for the governorship, although the latter insisted that he was a candidate for the United States district attorneyship.

Coke, he is said, has written, would prove acceptable to the responsible Democrats of Hawaii, for it seems that one of the objections to giving him the district attorneyship, according to Washington advices is that "he is too popular" to hold such a position.

Coke has a good friend in Secretary of State Bryan, whose nomination for the presidency he seconded in 1908 at Denver, and he also has the interest of Senator Chamberlain of Oregon, who is chairman of the powerful senate committee on military affairs.

Johnathan Bourne, Jr. addressed a large gathering at Eugene last week, explaining his good roads plan. An earthquake shook the territory along the Snake river below Huntington last week, but did no damage.

Governor West says he intends to allow O. S. Hansel to hang, he having killed Judge F. J. Taylor at Astoria. D. M. Lowe, of Ashland, was appointed by Gov. West as a state commissioner to the Chicago Land Products Show.

An edict has been issued from the president's office at the state university forbidding the bathtubting of freshmen. The corner stone has been laid and the Carnegie building of the Hood River County Library will soon be completed. Following the first day of open season on Chinese pheasants in Linn county, hundreds of dead birds were left in the fields. Fire of unknown origin destroyed the store of the Sutherland Mercantile Co., at Sutherlin, Ore., last week, with a loss of \$20,000. At a meeting of the Umpqua Port Commission at Gardiner it was decided to levy a one-half mill tax for the current expenses. The trial of LaFrance failed to clear up the mystery of where he obtained the dead body which he "planted" on the Clackamas. Two S. P. freight trains collided head on at Albany last Wednesday and three horses were killed, but none of the crew were injured. Corporation Commissioner Watson will start suit against several foreign corporations that have not paid their annual license fees. Geo. E. Hymer, a Marshfield man who disappeared mysteriously after leaving for Portland, has been located in a hospital in that city. Members of the state Railroad Commission predict that the time is not far distant when all grade crossings will be eliminated in this state. OREGON NEWS BRIEFLY TOLD

EVENTS OF THE PAST WEEK

Transpiring in Oregon Boiled Down to Least Number of Lines and Yet Make the Subject Understood

Salem has a recall fight on, in the cases of some of the councilmen.

Miss Agnes Pitchford is the newly elected treasurer of the city of Roseburg.

The Moose lodge at Dallas has purchased two lots and will build itself a home.

John Minto, of Salem, a pioneer of 1844, celebrated his 91st birthday at Newport recently.

Harrisburg has been holding a potato carnival, poultry show and children's school fair.

George W. Pickett, an old settler at Canyonville, died last week from the kick of a horse.

Joel L. Koonts, a councilman of The Dalles, died suddenly of Bright's disease last week.

Jane Kazler, of Portland, was given the first honors as a perfect baby, at the Salem State Fair.

The assessed valuation of Polk county is \$12,532,370, including city and town lots valued at \$613,050.

Johnathan Bourne, Jr. addressed a large gathering at Eugene last week, explaining his good roads plan.

An earthquake shook the territory along the Snake river below Huntington last week, but did no damage.

Governor West says he intends to allow O. S. Hansel to hang, he having killed Judge F. J. Taylor at Astoria. D. M. Lowe, of Ashland, was appointed by Gov. West as a state commissioner to the Chicago Land Products Show.

An edict has been issued from the president's office at the state university forbidding the bathtubting of freshmen. The corner stone has been laid and the Carnegie building of the Hood River County Library will soon be completed. Following the first day of open season on Chinese pheasants in Linn county, hundreds of dead birds were left in the fields. Fire of unknown origin destroyed the store of the Sutherland Mercantile Co., at Sutherlin, Ore., last week, with a loss of \$20,000. Have you paid the printer.

William Sulzer, as He Looked On Eve of Impeachment Trial

Photos copyright, 1913, by American Press Association.

WILLIAM SULZER, whose pictures here were taken shortly before his trial began, was the eighth governor in the United States to be impeached. He faced the court of impeachment on Sept. 18 at Albany, N. Y., the state capital, determined to fight his political life. A verdict of guilty meant a big victory for Charles F. Murphy and Tammany Hall and political and personal disgrace for Sulzer. A verdict of not guilty meant his restoration to his duties as governor and a great personal conquest over his enemies. It meant that he would probably be accepted as the Democratic leader of the state, to which position he aspired when he was inaugurated governor. He was charged with misusing campaign funds.

Corporation of the John Day Valley, in the northern part of the State, where from time to time the residents have reported hopeful indications of the occurrence of coal and oil. The study of the detailed stratigraphy and economic geology of the Sumpter quadrangle, west of Baker City, nearly half of which had previously been mapped by J. T. Pardee of the Federal Survey, will be completed under cooperative auspices by F. J. Katz for folio description and publication.

The lands in the Klamath Indian Reservation are being classified by H. G. Ferguson of the Office of Indian Affairs, and the geologic mapping and classification of the coal-bearing area including Eden Ridge in the western part of the State will be accomplished for the Land Office by C. E. Leshar.

SIX NEW TOPOGRAPHIC MAPS IN PROGRESS
