A LICKING BLOCK

That's What Your Cattle Want

Don't put out loose salt to be wasted, nor depend on guessing when your cattle need it. Set up a fine, solid, 50 lb. block of rock salt in the pasture where the cattle can go to it and lick it whenever they feel the need of salt. That is the best and most economical way.

\$6000 For a Farm

Here is a chance for a farmer: A 62-acre farm; 60 bottom land; 15 acres under plow and 15 acres more slashed ready to burn; good creek of running water on the place. Good house, insured for \$1000; fair barn, graneries and all necessary outbuildings. This place is 16 miles from Coquille, is on a plank road and milk route, one mile from post office and school. Money can be made on this place by any one who understands farming, or it is an excellent buy as a speculation. Land is going up and will never again be so cheap in Coos county as it is today. Terms will be given on part of the purchase price if desired. Investigate this if you want a farm.
