each subscription to the Herald. Remember that.

B. H. Haskin brought to this office last week some specimens of fruit raised on his place in the suburbs, to which he declined to give a name. They look like a prune but are shaped like a plum and are about the size of a small peach, and he says they grow on a tree that looks like a weeping willow. Any way the meat is firm and of fine flavor and they are mighty good eating.

**Notice of School Opening**

The Coquille schools will open on Tuesday, Sept. 8. Beginners in the first grade cannot be admitted later than Sept. 14. Children under six years of age cannot be admitted. The Superintendent will be in his office from two to four p. m. on Wednesday, Thursday and Friday of the week preceding the opening of school to enroll pupils who have attended other schools and who are entering the Coquille schools for the first time. Such children cannot be enrolled on the opening day. Unless enrolled on one of the days mentioned, it will be necessary for them to wait until Wednesday, Sept. 9.

The high school principal will be at the school building at the same time to enroll high school students. All students are urged to enroll at that time in order that there may be ample opportunity for consultation as to studies.

An eighth grade examination will be held in the eighth grade room on Thursday and Friday, Sept. 3 and 4. Pupils expecting to take this examination are requested to notify the city superintendent by mail, stating the subjects to be taken. C. A. HOWARD, City Supt.

**CURRY COUNTY CULLINGS**

(From the Port Orford Tribune) Lorin Forty, who is stationed as a Forest Guard at Dry creek, spent a day in town the first of the week. He says that there has not been any bad fires in that section during the summer, and that following Gov. West's order closing the game season he warned eleven hunters to leave the woods.

Wm. Hurst Sr. was in town one day last week marketing the last of his gravenstein apple crop from his Elk river farm. Owing to its dryness the season's unusually early, and Mr. Hurst says that his Bartlett pears are ready to pick, which is something unusual for this section.

Generally speaking, there will not be more than half a crop of fruit in Curry county this season. Lack of rain is given as the cause. The potato crop in this vicinity is also a poor one, and the price of tubulars promises to keep pace with the advance in the price of other food stuffs.

**Surprised Their Friends**

A romance of several years' duration culminated last Saturday, when E. A. Folsom suddenly disappeared from Coquille and Miss Iva Garrett vanished from her home at Myrtle Point. They were married at high noon in Marshfield and took passage on the steamer Elder for Portland on their wedding trip. They will visit Mr. Folsom's people at Vancouver, and the date of their return has not been set. Mr. Folsom is one of Coquille's reliable and respected young business men and is proprietor of Folsom's Confectionery. The bride is an estimable and popular young lady of Myrtle Point, where she has lived for a number of years with her mother and brother. The newly married couple have the best wishes of all.

**Teachers' Institute**

The Teachers' Institute held at Myrtle Point last week was the largest ever held in the county and is pronounced an unqualified success. The corps of instructors included some of the foremost educators of the state, and the lectures were most instructive to the teachers in attendance. Certificates of Attendance to the number of 112 were issued, and this does not cover the full number who attended the institute, as some did not call for certificates. The Myrtle Point people entertained the gathering in a most hospitable manner, and everything passed off in the most satisfactory manner. The institute will be held at Coquille next year during the last week of August.

**\$100 Reward, \$100**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists. Take Hall's Family Pills for constipation.

**At the M. E. Church, South**

Rev. E. H. Mowre of Portland, Presiding Elder of the Willamette District, M. E. Church, South, is holding his fourth round of quarterly conferences in Coos county, and will preach at the South Methodist church in this city next Sunday night. Mr. Mowre is a speaker of no mean ability, and never fails to entertain and instruct his hearers. The people of Coquille are cordially invited to attend this service. Come and hear this preaching and the good music.

**"Ordered it Stopped"**

The Herald is in receipt of the following communication: Coquille, Oregon  
Dear Sirs,  
I got your bill for the \$3.00 (for 2 yrs.) When my time was up I told you to stop it and since you have sent it to you respectability and don't consider I own you any thing for the paper the last to years. don't send it any more.

This is the sort of thing that makes a newspaper man tired. If there are any others on the list who have ordered the paper stopped at some time in the past, and who don't consider that they own anything for the paper since, we beg of them to let us know at once. It is not the intention of the present management to send the paper to any one who doesn't want it, and when a subscriber orders his paper stopped we are as careful to stop it as we are to put a new subscriber on the list. We don't like to lose a paying subscriber; we don't demand cash in advance; we are perfectly willing to wait on any one who does not find it convenient to pay regularly and we do not cut a subscriber off the list simply because his time is up, unless he has given us instructions to do so; but we do like to be treated with common business honesty.

Any one who has read the Herald for the past "two" years knows that it changed hands and changed management on Feb. 1, 1913. What happened before that is a matter of guess-work—and the present editor has been away from Maine so long that he is a poor guesser. He has explained the situation through the paper and has sent out statements several times. Now he feels that it is time for his subscribers to begin to do their part. If there is any one on the list who once told Mr. Dean or Mr. Updyke or Mr. Connor or Mr. Ackerman to stop the paper, and who therefore feels that he is under no obligations for what he has had since, we would like to hear from him at his earliest convenience. White paper costs money, since the European war commenced, and we have no money to throw away.

To those subscribers who are in

arrears but who intend to pay when they can we wish to say that we are glad to keep them on the list until such time as it is convenient for them to settle, and they need feel no embarrassment at owing the paper a few dollars. That part of it is all right. It is these fellows who take the paper and read it for years, with the intention of pleading that old gag "ordered it stopped" to escape payment who get our goat.

**The Piano Contest**

The count of votes in the Drane-Anderson Piano Contest last Saturday night resulted in the awarding of the weekly prizes of two coffee percolators to Belva Pinston, at Drane's, and Mary Fusonne, at Anderson's, the two having turned in the greatest number of votes during the week.

The two candidates polling the most votes this week will each receive a beautiful set of orange spoons. Some of the candidates stood still but many made substantial gains, indicating that those in the lead will have to keep moving if they wish to retain their advantage. Miss Pinston, the winner at Drane's, polled 5665 votes during the week, while Mary Fusonne took the prize at Anderson's with a gain of 4080. The figures are comparatively small and should be encouraging to the other candidates who have not yet made much of a showing.

Any candidate who had got out and rustled a couple of new subscribers to the Herald last week could have walked away with the percolator at either place. Or any one who had collected a few dollars of

the back subscriptions which only need to be called for could have piled up enough votes in an hour to take a prize. The same condition prevails this week, and the Herald will lend all assistance possible to any candidate who shows a disposition to hustle.

With the extremely liberal clubbing offer advertised in this issue it should be easy for candidates to get new subscribers or renewals, and the votes count up fast when you get 1000 or 2000 on the dollar. We would like to have every candidate call and see what we can do for them.

Saturday night's count of votes left the standing of the candidates as follows:
