The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, therefore destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Epworth League Convention
The annual sub-district ministerial convention of the M. E. Church was held at Myrtle Point last week, beginning Wednesday evening and ending Friday noon. District Superintendent Abbott and the pastors of all the local churches except North Bend, Gardiner and Elkton being in attendance. The exercises consisted of reports, papers, discussions, etc. Rev. Cannon and Rev. Vernon, of the Christian and Presbyterian churches respectively, of Myrtle Point, attended and sided greatly in the deliberations.
Following this convention the 10th annual sub-district convention of the M. E. Epworth League met. The delegates and others coming from the various leagues were welcomed at the train Friday afternoon with league yells and escorted to the homes where they were to be entertained. In the evening a reception was held at Lundys hall. Refreshments were served and a delightful social evening enjoyed.
Saturday morning at nine o'clock a devotional meeting was held, followed by an address of welcome by Cleve Summerlin, which is said to have been exceptionally fine. Rev. Knight, of Bandon, responded. Organization and election of officers followed.
The afternoon session was taken up with several papers and a debate on the question: Resolved that Home Missions are More Important than Foreign Missions to the Kingdom of Christ. Ed Bolt, Chas Raymond and Lee Byerley, of Marshfield had the affirmative and Harriett Sweet and Horace Rabkopf of Coquille, the negative. No judges were appointed so no decision could be given for either side; but the debaters are said to have acquitted themselves creditably. Saturday evening Miss Ora Harkness of Albany gave as a reading "The Melting Pot." Sunday morning Sunday School was followed by Communion service and a sermon by Rev. Knight. The Junior League Rally place Sunday afternoon. In the evening Miss Harkness again pleased the company with a reading from "The Other Wise Man." This was followed by a sermon by Rev. Jos. Knotts, of Marshfield.
Following are the officers elected: President, Hattie Sweet, of Coquille; 1st Vice, Mrs. Ross of Marshfield; 2nd Vice Chas. Raymond of Marshfield; 3rd Vice Miss La Tourette of North Bend; 4th Mrs. Peel of Myrtle Point; Secretary, Winfield Woodbury of North Bend; Corresponding secretary, Vera Nelson of Bandon; Junior League Superintendent, Mrs. Amy Assen of Coquille.
The delegates attending from Coquille were Harriet Sweet, Horace Rabkopf, Ray Peart, and Mary Levay, Rev. and Mrs. Bryan and Miss Louise Bryan being also in attendance.
The convention will be held next year in Coquille.
Groceries Cheap Here.
It speaks well for the reasonable prices of the Coquille grocers, when citizens of neighboring towns find it profitable to trade here. A resident of Bandon was here a few days ago and said that after paying his fare both ways he was saving \$2.80 on his purchases of the day. The Herald gives our grocers this free ad in consideration of the dazzling proportions of their advertising patronage. Get your microscope and look over the paper.

Pioneering at Wagner
W. A. Darling returned yesterday from Wagner, where he has opened a store dealing in meat, groceries and produce. He opened for business Saturday and was much pleased with the prospects. He says that business transactions in Wagner are more on the line of the liberal frontier than the effete centers of civilization. The boys buy 25 cents worth of candy at a time, instead of a nickel's worth, and he sold out a case of oranges on Saturday. Mrs. Darling will look after the Wagner branch, while Mr. Darling will look out for his meat business, and will circulate back and forth.
Schroeder's picture show opened up with a matinee Sunday afternoon, giving an evening performance also, with an attendance of nearly 300. Mr. Darling says that the gasoline-driven lighting plant furnished by F. E. McKenna works splendidly and gives a fine light for the pictures.
The Wagner railroad depot compares very favorably with the one at Myrtle Point. Heavy steel rails are now being laid on the stretch of three miles this side of Wagner, where light steel was first put down. No hotel is yet in operation, but a bed can be obtained for \$1.00 a throw, which adds to the pioneering flavor.

Runaway Team
Yesterday Al Gartin hired a frisky bay team which had never been driven here, from Child's and Burkholder's barn. He started out for the Lee country, and as he was going down the other side Shuck Hill a pheasant flew up in front of the team, and they at once started to run away. At about the third jump they took, one of the reins parted and from then on Gartin had no chance to stop the frightened animals. He was thrown from the rig but held to the remaining rein and was dragged for perhaps fifty yards, before letting go his hold after seeing that there was no way to stop them. They ran about a quarter of a mile before they finally stopped. The team wasn't injured beyond a few scratches. Al got a terrible shaking up and he says that while no bones are broken he knows that every one in his body got the full benefit of all the bumps he hit while he was hanging onto the rein and being dragged down the mountain.

"From Salem"
Roy Morgan, a well known young man of this place, who has been absent for a year or so, showed up here again one day last week. All that could be gotten out of him was that he was straight from Salem. That was all that he would say, and it would take a student of human nature to get any more out of him. With all due apologies to Mr. Morgan, we are still wondering which institution he belongs in at Salem.

Towed In.
Last Friday morning Dr Culin's Ford car, with the doctor at the wheel, was towed into town and the procession headed toward the water front. It was rather hard to determine for awhile whether he intended to cast the unruly car into the river and buy a Studebaker, or try to stick to the Ford; but in the long run he must have conquered his angry passions for he is still in possession of his little car.

Another View
Pat Heneryhan, who was up from Bandon one day last week, has just returned from the San Francisco Fair. He says that the attendance at the fair is nothing like the newspapers give it. He states that while he was there two restaurants moved off the fair grounds on account of business being slack.

He Fixed It
Two Irishmen arranged to fight a duel with pistols. One of them was decidedly stout, and when he saw his lean adversary facing him he raised an objection. "Bedad," he said, "I'm twice as big a target as he is, so I ought to stand twice as far away from him as he is from me." "Be aisy now," replied his second. "I'll soon put that right." Taking a piece of chalk from his pocket, he drew two lines down the stout man's coat, leaving a space between them. "Now," he said, turning to the other man, "fire away, ye spalpeen, and remember that any hit outside of that chalk line don't count."—Exchange.

Club Banquet
Last Thursday night the Submarine Club gave a banquet in their club rooms, under Leneve's confectionery store. There were several present besides the club members. The evening was given over to music and cards. At 12 o'clock an elegant lunch was indulged in by all present. Several of the members were sick the next day on account of too much "eats." After lunch the rest of the night, for its fact that most of the members made a night of it, was devoted to games singing and card playing. All present voted the affair a big success.

Coquille Band Plays
The Coquille Band, which is represented mostly by members of the Submarine Club, rendered several pieces on the street Saturday night, which were highly appreciated by the citizens. They intend giving a street concert every Saturday night in the future. The band is composed of twelve members, and with a little practice and encouragement, it ought to make one of the best bands in the county. It is represented by Coquille's young men and should be boosted, for there is nothing like a good band in a town.

Requirements.
1. Well drained soil.
2. Well rotted barnyard manure.
3. Lime (in some form) applied at the rate of 1 to 3 tons per acre.
4. Thorough preparation of a good seed bed.
5. Inoculation.
If you are interested in giving alfalfa a thorough trial on your farm, and able to meet the above requirements, and would care for any help on the subject, the County Agriculturist will be glad to assist you in such a demonstration.
Good alfalfa seed, which is recommended by the Agricultural College as being well adapted to this locality, can be obtained for 30c per pound from Professor H. D. Scudder, of the Agronomy Dept., O. A. C. The bacteria culture for seed inoculation may be secured free by addressing J. D. Smith, County Agriculturist, Coquille, Ore.
