JULY 3 and 5, 1915

Bishop Sumner, one of the best known men of the Episcopal church was here Sunday evening for the first time since his recent appointment to this diocese. A class of six was confirmed at the evening service and the Bishop delivered a sermon which showed that his episcopacy would stand for the practical work which has already made him so well known.

Seeing Things

The occupants of one of the Marshfield-Coquille stage cars witnessed a miniature reproduction of Macbeth's "moving forest," as they were on their way to Coquille Sunday night. Rounding a bend in the road they came into view of a large bunch of fern which was moving down the middle of the road without visible motive power. As the plant persisted in keeping the road, the car passed over it. Upon looking back, the head of a large woodrat was seen protruding from under the fern, the stems of which he held firmly in his teeth. The little animal did not seem frightened at the car, and retained possession of the plant. The driver, who had worked late the night before, was at first inclined to think he was "seeing things."
