Remington Agent Here

R. C. Reed, representing the Remington Arms Company, was in town last week. He gave a demonstration of his shooting on the Coquille Gun Club grounds which was witnessed by quite a number of local gunmen. He demonstrated the U. M. C. shells in several different guns, and proved to be a good shot.

He informs us that early in the spring a man by the name of Shullling will tour this country for the Remington people, and that he is a crack shot and will give demonstrations of his shooting at this place. He will be accompanied by his wife who is a good trap shot, having won high average at one of the large state tournaments.

Taken to Hospital

Mrs. Geo. Goodrich, of the north end of the city, has been severely ill and the doctors pronounced her case appendicitis and said that an immediate operation was necessary to save her life. As the family finances were not in a condition to meet the demand, a subscription paper was hurriedly circulated yesterday and assistance was secured so that she was taken to the Mercy hospital at North Bend yesterday afternoon. She was operated on this morning and if no complications arise will get along all right.

Equine Crusoe

Frank Strain, of Curry county, came up here a couple of weeks ago to visit his son for a few days. He rode up horseback and left his horse on the Pendleton ranch across the river. The water raised last week until he was unable to get his horse around the road and as he had to leave Friday for home he was forced to leave his horse and start out by way of Myrtle Point with a hired horse. He left very much disgusted, claiming that never before in all his wanderings had he encountered a Robinson Crusoe Island, but that his horse was certainly stranded on one at the present time.

How Wages of Railway Employees Are Figured

"Every once in a while we hear discussions about railroads and railroad wages," said a Southern Pacific official the other day. "Few laymen, however, know how the men who operate trains are paid and few realize that 45 cents out of every dollar a railroad takes in goes out to its men in the pay envelopes. A still smaller number have any idea as to how wages in train service are figured.

"In other lines of industry an 8 or 9 hour or a 10 hour day means that employees do not work less than 8.9 or 10 hours for a day's pay. In railway train service, however, wages are on a dual basis—either hours worked or, and principally this, miles run. In freight service most wage schedules name 10 hours or less or 100 miles or less as a day's work. So that every man is guaranteed a full day's pay no matter how few hours or miles. Should he work ten hours without running his 100 miles, he is paid for his hours. Should he run 100 miles or more in less than ten hours he is paid for his mileage. Beyond ten hours or 100 miles, he is paid overtime or excess mileage, whichever yields the larger wage. Ten miles is thus equivalent to one hour or one tenth of a day. If the train runs slower than ten miles an hour, the engineman is paid by hours, if faster, by miles. The result is that practically no employes work more than ten hours for a day's pay and thousands work less than that and even less than eight hours for a day's pay.

"This condition has some very interesting results. First, without regard to hours or distance, every man in train service is guaranteed a fully 's pay no matter how little service he performs. He can't work for less than a day. He may work only a few hours or less than 100 miles, but if this constitutes his day's work, he still gets his pay for ten hours. If it takes more than ten hours to cover 100 miles or less he is paid overtime for everything in excess of ten hours. If he makes 150 miles in ten hours he is paid for 150 miles, or equivalent to 1 1/2 hours on the hourly basis.

"If, for example, his train made only forty miles in ten hours, his full day's pay would be allowed the same as if he had made 100 miles. If 100 miles were run in four hours, the full day's pay would be allowed though he worked only four hours.

"Taken all in all, the man in railway train service cannot be said to work an 8 hour day, or a 10 hour day, except in those instances where it takes that number of hours actually to complete the run. That is why laymen fall into error in trying to compare railway labor conditions with general labor conditions."

Notice of Final Settlement

Marshfield Defeats Coquille

The Coquille High school basket ball team lost to the Marshfield High school team Friday night at Marshfield by the score of 39 to 15. It was a good game up to the second half when Charley Oerding sustained a broken collar bone. A substitute was put in his place, but the accident seemed to take all the life out of the boys, and they lost one of their mainstays in Charley. Their team work was not so good from then on and Marshfield gradually worked away from them.

When the accident occurred Coquille was only ten points behind and was fast catching up with the score, as was shown by their making four points inside of two minutes in the first of the last half just before Charley was injured.

If the Coquille boys had won this game they would have stood a good show for the championship but now it is next to impossible for them to win it.

Bandon defeated Myrtle Point at Bandon by the score of 24 to 21.

Interesting Discourse

Rev. T. H. Downs addressed an appreciative audience Sunday evening at the M. E. church on "Lincoln, the Moses of the Colored Race." The speaker compared the great American liberator with the Hebrew Moses and showed him the equal physically, mentally morally and spiritually of the liberator of the Israelites, attributing his fitness for his great service to his country largely to his early habit of simple living and reading not many, but the best books.

Port Commission Meets

Last Thursday the port commission met at Bandon and talked over the matter of purchasing the tug Klyham. They also inspected the boat and they decided to purchase it for the price asked—\$26,000. They will take it over on April 1, and will either pay for it in cash or 6 per cent bonds. The tug was formerly owned by J. L. Kronenburg and the C. P. Doe estate. It is a very staunch boat and is in good condition, and the port should be able to easily realize their money on the purchase in a short time, as it is necessary for all boats coming in and going out of the harbor at the mouth of the river to have the assistance of the tug.

Trap Shooting

Sunday Mrs. O. F. Smith tried out her skill as a marksman over the local traps. She let the first two birds get away and then made an amazing run of 23 straight. The score books show this to be the biggest straight run ever made by a trap shooter on the Coquille Gun Club grounds. Taking into consideration the fact that some crack shots have demonstrated their skill over the same traps, it is a remarkable record made by Mrs. Smith and one of which she can feel justly proud. If some of the ladies who handle firearms would join in with Mrs. Smith it would make the local trapmen go some to retain their reputation as trap shots.

There will be an expert trap shot here by the name of Mrs. Shullling early in the spring. Why don't the local ladies, who shoot, prepare to show her that there are others in a class with her? It is safe to say that Mrs. Smith will be on hand with plenty of shotgun shells and lots of determination when the other woman arrives this spring.

Died of Infantile Paralysis

Elaine Jones, the 10 year old daughter of Mr. and Mrs. Nelson Jones died at the home of her parents on Rost Avenue, Roseburg, Or. on Feb. 3, 1916 after an illness of four days. She told her mamma and little brother several times before her death that she was Jesus' little girl. The deceased was born near Marshfield on Nov. 21, 1905. Prior to coming to Roseburg the family lived near Coquille for 27 years. They came to Roseburg last November. Deceased was buried in the Jones cemetery in Edenbowser. She is survived by her father and mother and four brothers and three sisters. They are, John Jones of Sams Valley, Ore.; Clifford Jones and Wilson Jones of Coquille; Oren Jones of Roseburg; Mrs. Emma Crowley of Bandon; Mrs. Leona Buckle of Prosper; Miss Maude Jones of San Jose, Calif.

Great Loss in Curry County

Reports reach us almost daily of the hardships suffered by the stock in Curry county during the severe weather. It is said that two-thirds of all the cattle and sheep in that county are dead as a result of the freezing weather. One man from that county informs us that it was almost impossible to travel some of the roads with a team on account of the dead sheep lying in the road. One ranch lost fourteen hundred sheep and the owner is selling the remaining ones he owns for \$1 per head. From all the reports received from the surrounding country we have got off lucky here in Coos.

Beyers a Candidate

In this issue will be found the announcement of J. P. Beyers of his candidacy for the Republican nomination for assessor. Mr. Beyers has been a resident of Coos county for about thirty years. He is a son of the late E. H. Beyers, of Sumner, and lived at that place on the home farm until his majority, since which time he has been engaged mainly in logging operations. He has been a resident of Coquille for about seven years. Mr. Beyers has a large circle of acquaintances in the county and is known as a reliable and solid citizen. By experience and observation he has had a chance to gather a good idea of the value of property in the county, and if elected to that office should make a good assessor.

Fair Association Meeting

At the recent stockholders meeting of the Coos and Curry Fair Association the following directors were elected for the ensuing year: J. H. Pearce, J. S. Whitaker, J. D. Clinton, H. A. Schroeder, Ellis S. Dement, J. O. Stemmler and J. Milton Schultz.

The new board organized by electing the following officers: H. A. Schroeder, president; J. S. Whitaker, vice president; J. O. Stemmler, secretary, L. H. Pearce, treasurer.

It was decided to hold a midsummer race meeting July 3rd and 4th, and the dates for holding the fair this fall were fixed as Sept. 6, 7, 8 and 9.
