HE EYE OF GOD

Got His Reply. A funny man indulged in a practical joke recently. He put an advertise-ment in a paper for a wife and re-quested each candidate to inclose her carte de visite. It was a foolish thing to do, but one of the candidates served him out very well by sending the fol-lowing letter: "Sir, I do not inclose my carte, for, though there is some authority for putting a cart before a horse, I know of none for putting one before an ass."

Fast Fliers.

The great German naturalist Gaetke relates that with the aid of a telescope in his observation of migrating birds he had seen the plover and curlew, not fast flying birds as we know them, travel four miles per minute, 240 miles per hour, in the attenuated air of high nltitudes.

"I see a man was arrested last night for taking notes at a lecture.' "You don't mean It!"

"Yes; they were banknotes, and he took them out of another man's pock-et."-St. Louis Post-Dispatch.

Mrs. Wilson Woodrow, Author o "Who's Guilty" Stories, Widely Recognized for Her Talents.

Mrs. Wilson Woodrow, the famous novelist and short-story writer, is au- field. Summer is always a live fitthor of the series of remarkable stories under the general title of "Who's Guilty," produced in motion pictures

Mrs. Wilson Woodrow.

and which will be printed in this pa-The widely recognized talents per. of Mrs. Woodrow assure the literary excellence of these stories.

Mrs. Woodrow has the distinction of being the cousin of the president by marriage, her husband being Mr. Wilson's first cousin. After the death of her father several years ago her mother bought a newspaper, and it was through that paper that Mrs. Woodrow became a writer. She has contributed to the best magazines of the country and for five or six years had the distinction of being the only woman featured among the contribu- goodly crowd. It was held in the tors to Life.

The "Who's Guilty" stories are full of superlative power and originality and they are guaranteed to interest every member of the family. **Random Rambles**

(By a Rambler.)

Duting the week just past the Rambler strayed off to the Sumner section, returning by way of Marsh tle berg, and if there were more places like it this county would be a better place to live in-but that is not saying that it is not a good

place to live in. The logging camp of McDonald & Vaughn has been moved, or rather, the cook house and camp buildings Until recently the men lived in town and boarded at the Mills hotel, but as the work was getting farther away the managemeat decided to move the camp out. Accordingly a set of buildings has been erected something over a mile up the track and near the scene of the present activity.

With about 40 men at work there is a bustle of activity and a constant demand for men and the products of the farm. There is a considerable amount of available timber here and it is expected to take a couple of years yet to ge! out what they have.

The stork has been busy in Sumner and there is no bint of race suicide. Recent arrivals are a daughter to Mr. and Mrs A A Matson and a son to Mr. and Mrs. H. W. Sanford Within a few months eight babies have arrived, including two pair of twins

The Farmers Picnic on Thursday of last week was enjoyed by a grove on the old Selander place near town. Among the speakers of the day were Mr. Powers, of the O. A. C., who spoke on drainage; Mr. Dickson, of Shedds, Oregon, a prosperous dairyman, who made an eloquent argument in tavor of the Jerseys, his favorite breed; Agriculturist Smith and others. Altogether, the occasion was an enjoyable one and a great deal of useful information was dessemioated. The interludes were made lively by vocal and instrumental music, and the "inner man" was refreshed by the bounties of a typical "Farmers Picnic Dinner."

C. H. Woodard recently killed a fine large brown bear and is keeping the pelt as a trophy. He will have it made into a robe and it will sure make a good one.

We met Archie Philips at his farm home here and had a short talk with him. The fact that he is a successful nominee of the dominant party seems in no way to have changed him. He is the same genial, commonplace man, dressed in the garb of a worker but wearing the unmistakable evidence of a cultured mind, and enof his neighbors. We predict he Is a series of 14 sincere stories that try with a clean hand to get beneath the surface and place the blame for life's tragedies where the blame lies.

They'll interest you and explain a lot of things you've never had the courage to analyze.

Mrs. Wilson Woodr

has written them for publication in this paper.

Read them here, then see Anna Nilsson and Tom Moore enact the leading roles in the great moving pictures.

More Good Features from more different Producers than you ever saw here in any one week before in your life D'YE MIND THAT!

will make a splendid county commissiouer.

Some hay was down and was caught in the recent rains, but the farmers seem to accept things with a calm assurance that it will work out all right in the end. If the hay is damaged the pasture will be helped in a corresponding degree. Passing on toward Marshfield we called at the home of the Haydens. There are two families of them and having met with dire failure, they conthey are engaged in fruit growing and truck raising. As they are comparatively new here it is trying work. The greatest difficulty confronting them is the drainage problem, as the laud is too low and wet to produce well without drainage and the small amount of their hold-Gjoa, through it in August, 1905. ings will not justify expensive drainage work. But they are grappling with it and we think they will succeed.

Returning by way of Marshfield we noted the work being done on the road. The Davis slough bridge has been closed to travel for a number of days. This was done because the survey there was along the old road and it was necessary to tear down the old bridge to make 1879, thirteen months from the time he the fill and erect the new The last sailed .- Cyrus C. THE NORTHEAST PASSAGE. Only Two Expeditions Succeeded In Getting Through It.

Most attempts of European countries to find a comparatively short passage from the Atlantic to oriental countries were by way of the northwest passage. north of America, because, having first tried the northeast passage, north of Europe and Asia, and in every instance centrated attention upon the northwest passage as probably more feasible. Practically all the arctic expeditions from Sir John Ross to Sir John Frank-In were fitted out most of all to find the northwest passage. The passage was found during the search for the lost party of Sir John Franklin, but It was never traversed by a ship till The attempts to make the northeast passage began with the hardy Dutch sailor Barents in 1595, whose party was the first to spend the dark winter night in the arctic "in most greate cold and extreme miserie." The only

achievement of the northeast passage prior to Vilkitski's success in 1914-15 was by Baron A. E. Nordensjold, who sailed from Tromsoe with his Swedish expedition in June, 1878, triumphed over the great obstacle of Cape Chelyuskin and was within 120 miles of Bering strait when winter closed upon him. He entered Bering strait in July,

And when the victory shall be comproud the title of that land which may So far as we can see, the work is cradle of both those revolutions that
