Court Lets Contract

The county court Saturday let a contract to Geo. Paschick, Martin Weber and G. A. Perkins, of North Bnd., for grading and installing culverts on two miles of road near Gravel Ford. The contract was let in suit prices and the accepted bid totaled \$3791. D. P. Pivaler, of Bandon was lowest bidder, his total sum being \$3736 50. Owing to the fact, however, that his was an informal bid and contained certain conditions he was not given the work. The other bidders were Ellingsen & Henderson, of Coquille, \$3877 50; A. M. Snyder, of Myrtle Point, \$5187 50; Moon & Gidley, \$3911 and R. L. Weekly, of Myrtle Point, \$4138.

Hard to Please

Today the county court issued to Ezra Kinney and Mabel Kinney a license to wed. Something over two years ago a like document was issued to the same couple. But life "all is not gold that glitters" married bliss was not what it seemed and about two years ago the county court was prevailed upon to dissolve the bonds of Mr. and Mrs. Kinney. After two years of single life, however, they have evidently arrived at a new agreement and are giving cupid a new lease.

Native Citizens

There is a good deal of discussion in Washington over the order by Secretary Baker dismissing without delay all members of the crews of certain government vessels, who are not native-born American citizens. Representative Bennett of New York, in the course of a speech in the House, asked what would happen "if that order was issued to the Cabinet of the United States today." This brought out the fact that the proportion of foreign born members of the Cabinet is about the same as the proportion of population throughout the United States.—J. E. JONES.

It was shipped here by the East Asiatic company on their steamer Brierl.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
