## MERELY MENTIONED

Ruth Lawhorn was in town yesterday.

Mr. and Mrs. Geo. W. Nollis, of Fairview, were Coquille business visitors Saturday.

W. C. Chase left Sunday for Portland where he will remain for several days.

Highest price paid for county scrip and orders. The Title Co.

Sheriff Alfred Johnson returned from Marshfield on the morning train yesterday.

An 11 1/2 pound boy was born to Mr. and Mrs. D. Haskins Tuesday. Dr. Hamilton was the attending physician.

Dr. G. W. Leslie, of Marshfield, was over here yesterday, helping out the county finances by the payment of his taxes.

Money to loan in small amounts on improved city property. The Title Company.

Matt Kerrigan, Jr., left Thursday for Portland where he will enter the Oregon Law school again. Matt expects to finish his course this year.

Several boys not going to high school went down to the football grounds Friday afternoon and practiced with the High school team, giving them the benefit of some actual scrimmage.

Money to loan in small amounts on improved city property. The Title Company. 6-6tp

A daughter was born to Mrs. Lee Davidson, of Powers, Wednesday. Mrs. Davidson is staying at the home of Mrs. Haskins in this city and is under the care of Dr. V. L. Hamilton.

Fred Slagle took a crowd of local people to the dance at Broadbent Saturday night. By the time he arrived his load had increased until he had 22 people in the car. Several other cars went from there.

Go to Quick's for your screen doors and saw thing, saws, gumming, second hand saws, carpenter tools, axes, brush hooks, tie back tools.

Mr. and Mrs. C. A. Metlin, of North Bend, passed through town Saturday evening on their way to make an over-Sunday visit to Mr. Metlin's relatives on Cunningham creek.

Miss Neva Miller, who has been working in this city for some time past, went to her home down the river Saturday. Tomorrow she expects to go to North Bend where she will go into training at the Mercy Hospital.

Bargains: 1 incubator 50 eggs capacity; 1 set heavy harness; 1 set painter falls and hooks; 1 plow, 10 inch; 5 sewing machines. Will sell cheap for cash or for chickens or anything useful. See handle. At Quick's.

Roy M. Avery was in Marshfield over the week end. He was accompanied upon his return by his mother, Mrs. L. Mae Avery, and his brother James, who will live with him at the Kerrigan place which he recently rented.

Matt Kerrigan, Sr., has rented his place to the north end of town to Roy M. Avery and left Saturday for Powers, where in the future he will live with his son. Mr. Kerrigan is 79 years old, which is the reason for his making the change.

Highest price paid for county scrip and orders. The Title Co. if

Money to loan in small amounts on improved city property. The Title Company.

Mr. and Mrs. Lans Leneve returned from their outing in Coffey county last Saturday. They report good sport, especially fishing in the Sixes. The editor has had ocular and gastrological demonstration that they also acquired some reason, and they brought back three pairs of nice horns, one pair a fine specimen from the head of one of Curry's old he ones.

Rev. Shimian of the Presbyterian church, conducted the funeral services at the home Sunday afternoon at 2 o'clock, and burial was in the Masonic cemetery. Little Barbara was a child of an affectionate and winning nature, and her parents have the sympathy of the entire community in their bereavement.

**Back on a Visit**  
Mrs. Andrew Jackson, of Hoquiam, Wash., arrived Friday to make a visit to her mother, Mrs. Johnson, and Mr. Jackson came over yesterday, after stopping at the Bay, to visit his old

stopping grounds. He had been away from the Bay for 20 years and found many changes, especially in the absence of so many of those who were the older citizens of his time, who have since passed away. Mr. Jackson says that times in the Washington lumber region are very lively at present and workmen very scarce. The bulletin boards of Hoquiam and Aberdeen employment agencies are plastered with offers of employment at wages from \$3 up.

## New Mail Schedule Encourages Expletives

With the inauguration of the new train schedule by the Southern Pacific, the Coquille people are finding themselves put to much inconvenience in the matter of the mail service. That is, it is inconvenience in comparison with the ideal conditions that have been existing of late. The through train from Portland, now due at 7:10 was over an hour late Sunday, and about the same late night. It was 30 minutes late at the Siglaw, 45 minutes at Reedsport, and lost half an hour or so more before it crawled in here, with the engine traveling backward, there being no turn table at Myrtle Point.

To clear away any misunderstanding that may exist from the ambiguous way in which the new schedule has been outlined by another paper which evidently was not clear as to what was what, it may be stated that no passenger train now runs beyond the Bay except the through train to Portland, the local which formerly ran from Powers to Eugene now stopping at the Bay.

It is certain that we will now spend many of our evening hours hanging around the post office and waiting for our mail, for the train is sure to be late during the winter months and coming over the new road. And, as our contemporary mournfully remarks: "We can see no way to help the matter unless a petition to send the mail in on the 4:00 p. m. train and leave it off the new fast train would avail, which we would not consider possible." As the 4:00 p. m. train leaves the Bay about three hours before the overland arrives there with the mail, the only way in which this beautiful suggestion would seem to be available, would be for the 4:00 p. m. train to wait at Marshfield until the overland arrives, and then grab off the mail and bring it over. The Herald will confess that it doesn't quite see the advantage of this, but maybe some of our readers can point it out. In the mean time, the 4:00 p. m. train is due at 4:00 p. m. and the post office is the evening trying place.

## Sentence Delayed

Judge Coke Saturday postponed the passing of sentence upon J. M. Young of Bandon, who was convicted of manslaughter last week, until Monday, October 9, at 10 o'clock, in compliance with a request from Mr. Young through his attorney, C. R. Barrow.

The postponement was made in order to give time for the filing of certain papers in connection with the trial, and it is probable that the friends of Mr. Young will file a petition asking that the convicted man be paroled. The jury in returning the verdict against Mr. Young recommended clemency for him.

There is some talk of funds being raised to appeal the case of Mr. Young.

## School Notes

Two new students yesterday brought the high school enrollment up to 82. Myrtle Pointer took up her work as a junior while Earl Redding, a former pupil of the Coquille schools, entered as a freshman.

Blanche and Edna Clouser have left Coquille and expect to enroll in high school in California at once.

The Athletic Association of the Coquille High school held its annual election of officers at the school house Wednesday and the following were elected: Fred Lorenz, president; Zelmia Strang, vice-president; Leslie Schroeder, secretary-treasurer; Chas. Owens, business manager; Ada Downs, yell leader.

The girls' glee club held its election of officers last week with the following result: Miss Ada Downs, president; Ruth Stanley, secretary; Chamie DeLong, treasurer; Genevieve Chase, accompanist. Miss Mabel Bay will act as director and the club will practice every afternoon. It is reported that the club this year will use all four parts instead of two as they did last.

The Juniors are planning on giving a bonfire party for the rest of the high school next Thursday evening in Patterson's grove.

Living up to the newly-made tradition that each member of the Senior class shall, on their birthday, furnish a cake to be consumed by the class and the faculty in honor of the event, Wm. Philpott came to school last Thursday with such an offer securely tucked under his arm. It is reported that it did not last long after school was dismissed at 12:40. It may be revealing a secret but reliable information goes to show that William did not make the cake.

The chemistry laboratory has been removed from the room which it formerly occupied on the second floor, to the southeast corner of the basement. This was made necessary by the overcrowded condition of the building owing to the rapidly increasing student body.

The teachers training class accompanied by Superintendent C. A. Howard, visited the rooms of Mrs. W. C. Chase, Miss Kennedy and Miss Allie Phillips at the Academy Thursday.

## City Council

The council met in regular session last night and allowed the regular monthly bills. The bill of the L. O. O. M. for a sufficient amount of the license money collected for the Arnold Amusement Co. to make up the deficit in their account of the Moose Carnival was laid on the table.

For work partly completed a warrant was ordered drawn in favor of the Longston Construction Co.

Contractors Moon & Gidley were ordered paid the balance due them for the improvement work on Henry, Elkhart and Third street, amounting in all to something over \$6000, at the adjourned council meeting Tuesday night.

Councilmen Sanford, Mansell and Lorenz were appointed a committee by the Mayor to look into the matter of the desirability of purchasing the Lamb grove for a city park. J. A. Lamb appeared before the council and called their attention to this matter, showing the advantage of this place, and also that when the bridge across the Coquille river at this place is built it will be probable that a street will be opened through the grove to serve as an outlet for it. The committee has the power to use the services of the City Engineer in figuring on the probable location of the street, etc., and will probably have a recommendation to make upon the matter in the near future.

The council gave assurance of consideration of the matter of financing a municipal fund in connection with their 1917 budget.

## Child Meets Tragic Death

Barbara, the little daughter of Mr. and Mrs. J. A. Brennan, who live on the B. H. Burns farm just north of town, met a tragic death Saturday. The little girl, who was two years and ten months of age, was playing in the cow stable, and climbing upon a box reached up for something when the box tipped and she was thrown into the gutter, her head striking a brick which was not seriously injured, but death from concussion of the brain resulted only about fifteen minutes after she had carried her into the house.

Rev. Shimian of the Presbyterian church, conducted the funeral services at the home Sunday afternoon at 2 o'clock, and burial was in the Masonic cemetery. Little Barbara was a child of an affectionate and winning nature, and her parents have the sympathy of the entire community in their bereavement.

## Woman Fined Under The Truancy Laws

Mrs. Leona Sharp, who lives below Bandon, was brought before Justice Wade yesterday by Truant Officer Dunham and brought to a realizing sense of the fact that the Truancy Laws of this state are very far from a dead letter. It seems that the children of the Sharp family have attended school but three years in the past three years, and the parents have been inclined to take the position that they didn't have to send the kids to school unless they wanted to. They had been warned but paid no

## PENDLETON IS IDEAL LOCATION FOR NORMAL

CITY'S RAILROAD, HEALTH, EDUCATIONAL AND OTHER FACILITIES ADAPT IT FOR SCHOOL SITE.

Pendleton, Ore.—Pendleton's claims for the establishment of a State Normal School are based upon the unusual advantages offered for such an institution. It is ideally located with respect to railroad facilities and in the center of the country which it will serve. Its health conditions are excellent. It has a bountiful supply of clear, cold, pure mountain water.

It offers a library of 12,000 volumes, to which are added 3000 annually, housed in a beautiful new building, erected at a cost of \$40,000. The largest athletic stadium in the Northwest, capable of accommodating 20,000 people; a satisfactory modern and equipped for the use of men and women, built at a cost of \$11,000; ample auditorium room for lecture courses and lectures and a school system that is without equal in a city of its size. Its facilities and the students necessary for practice teaching have been guaranteed by the city board.

## OREGON RANKS LOW IN NORMAL SCHOOLS

U. S. BUREAU OF EDUCATION REPORT UNCOMPLIMENTARY TO STATE'S SCHOOL POLICY.

Pendleton, Ore.—Oregon is one of the most poorly equipped states in the Union for the training of teachers according to the United States Bureau of Education.

Only five states in the Union have less Normal equipment than Oregon. Oregon has one Normal School and forty states have more than one. New York has 18, Pennsylvania 18, Massachusetts 12, California 8, Washington 3 and Idaho 2.

The report of the Bureau of Education shows that even the little state of Idaho, with a population only half as large as that of Oregon, is spending more than twice as much for Normal Schools as is this state.

The same report urges that Normal Schools be located in the railroad centers with public schools sufficient to give teaching practice to the Normal students.

State Superintendent Churchill's annual report shows that of the 6055 teachers in Oregon last year but 791, or 13 per cent, were Normal School graduates. The same official estimated that 1000 new teachers are needed each year and the present Normal school is turning out but 150. The majority of Normal trained teachers are shown to be teaching within a small radius of Monmouth, although Eastern Oregon pays on the average of \$10.41 a month more for teachers than does the Willamette Valley.

## Brushing and Massage Aid Hair and Scalp

By DR. WOODS HUTCHINSON.

For the perfect ventilation of the scalp the best and most perfect instrument ever invented is the hairbrush in the proportion of one part of bristles to three of "yellow grease." This scalp saving combination works partly by lifting and fluffing up the hair from the scalp so as to allow free circulation of air, partly by stimulating the circulation of the scalp by gently pulling at the roots of the hair.

Use no brush stiffer or harder than you can comfortably use on the back of your hand for this sort of "currying," which should form nine-tenths of your brushing, although of course for simply parting or smoothing and disentangling hair or for a brief "glow" a stiffer brush may also be used. As a general thing wire brushes do more harm than good to the scalp.

The rough and violent massage of the scalp for ten or fifteen minutes both night and morning with those best of rollers or vibrators ever yet invented, the tips of the fingers is of great value in keeping the scalp, and through it the hair, in healthy condition.

The one condition which threatens progressive and advancing loss of hair is thinning of the scalp and tightening of it down to the skull, with absorption of the fatty cushion layer underneath it. And the best known method of either preventing or checking this wasting away and shrinking down change is vigorous massage of the scalp, pushing it backward and forward and from side to side over the smooth skull surface beneath.
