

There is a Real Difference

Cream of tartar, derived from grapes, is used in Royal Baking Powder because it is the best and most healthful ingredient known for the purpose.

Phosphate and alum, which are derived from mineral sources, are used in some baking powders, instead of cream of tartar, because they are cheaper.

If you have been induced to use baking powders made from alum or phosphate, use Royal Baking Powder instead. You will be pleased with the results and the difference in the quality of the food.

To The Voter

In soliciting your support at the General Election on the 7th day of November, for my election to the office of County Assessor and in recommending myself for your consideration, I submit to you the fact that I was the choice of the Republican Voters at the Republican Primaries in May and am the regular Republican candidate, having received a majority of 673 votes over my opponent.

I have resided in Coos County for the past 32 years. I have fair clerical ability, having been employed as timekeeper, bookkeeper and clerk in a store. I have also been employed in logging and farming and I believe I have a fair knowledge of the value of lands, timber and personal property and will be able to make an equitable assessment.

I am a taxpayer of Coos County and have the interest of the taxpayer at heart. I believe that I can conduct the office efficiently, economically and make a fair and impartial assessment. I have no axe to grind nor enemies to punish and if elected to the office of County Assessor, will do my utmost to conduct the office with justice and impartiality.

I earnestly and sincerely solicit your support.
Paid Adv. J. P. BEYERS.
