## Which Do You Prefer?

It is important for reasons of health and practical economy for every housekeeper to ask herself this question:

"Do I prefer a pure baking powder like Royal, made of cream of tartar derived from grapes, or am I willing to use a baking powder made of alum or phosphate, both derived from mineral sources?"

The names of the ingredients printed on the label show whether the kind you are now using or any brand, new or old, that may be offered is a genuine cream of tartar powder, or merely a phosphate or alum compound.

Royal Baking Powder contains no alum nor phosphate.

Old Resident Passes  
Grandma Grow, one of the oldest settlers of this county, died at her home at Coaledo Sunday night. She came to this country from Scotland in company with her husband many years ago. They took up their residence at Coaledo where she has resided ever since. Her husband died several years ago. She was of a sunny disposition and loved by all who knew her. She is survived by several children. Her age was 86 years.

An Old Man's Stomach  
As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain opium, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.

Correct writing paper for every social purpose  
Common usage and appropriateness may be said to "set the fashion" in writing papers, in that while certain sizes are always basically correct for various purposes, the tendency of the moment may be toward some particular style of finish or shape of envelope.

While it is not necessary nor always desirable that one confine himself to the moment's particular fad, there are times when one wishes to be strictly "up to the moment," and on such occasions it is well to remember
