Practical Economy

Baking powders made from alum or phosphate may be bought for a trifle less than Royal Baking Powder, which is made from cream of tartar, derived from grapes.

Alum powders are not only cheap, but they differ greatly in leavening power.

If a cheap baking powder is used for a fine cake and the cake turns out a failure there is a waste of costly materials worth more than a whole can of the cheap baking powder.

Royal Baking Powder produces the finest food, and its use therefore, results in an actual saving.

The horse's feet slipped while hauling a load of wood up the hill near the cemetery, where the planking is always slippery, and it is supposed that he ruptured a blood vessel, as he fell and died immediately. The loss is a severe one as the horse had a market value of about \$300, besides the value added by his special training for his work.

Stomach Trouble and Constipation
Those who are afflicted with stomach trouble and constipation should read the following: "I have never found anything so good for stomach trouble and constipation as Chamberlain's Tablets. I have used them off and on for the past two years. They not only regulate the action of the bowels but stimulate the liver and keep one's body in a healthy condition," writes Mrs. Benjamin Hooper, Auburn, N. Y.
