About Constipation

Certain articles of diet tend to check movements of the bowels. The most common of these are cheese, tea and boiled milk. On the other hand raw fruits, especially apples and bananas, also graham bread and whole wheat bread promote a movement of the bowels. When the bowels are badly constipated, however, the sure way is to take one or two of Chamberlain's tablets immediately after supper.

"Tess of the Storm Country" is a story which, in book form, has been one of the best sellers. The feature picture under the same title is conceded to be one of the best in which Mary Pickford has ever appeared. Don't forget that it is to be shown at the Seaside on Tuesday February 20th.

Arrangements have been made for the receipt of the "war bulletins" from Marshfield, and they will be posted at Macdon's billiard parlors every afternoon. They are furnished at low cost by the Coos and Curry Telephone Co. and the people should appreciate the public spirit shown by that enterprising bunch.

An item appears in a Portland paper, written by a correspondent here which states that a man at Bandon caught with hook and line thirty trout measuring over ten inches in length, in an hour. When the fact is considered that landing a ten-inch trout with a hook and line is no child's play and takes at least two minutes to do so, together with the time allowed for baiting a hook, it looks as though a man would have to go some to accomplish the above alleged feat.

Package seeds are expensive and are no better than the ones we sell in bulk at the lowest price—Knowlton's drug store.

What He Expected.

The moment the razor touched his face the man in the chair realized that he was in the hands of an amateur.

"Will you have a close shave, sir?" asked the barber.

"It looks like it," returned the victim moodily. "At present the odds against my getting out of this chair alive seem very heavy indeed."—Boston Transcript.

Hultin-Sinclair

Roy Hultin and Miss Dora Mabelle Sinclair were married here Wednesday, by Justice Stanley, and today moved to Beaver Hill where they will reside. After the ceremony Wednesday a wedding dinner was served at the Coos Cafe and Thursday night a dance was given by the Moose lodge in honor of the newly married couple. The bride was a resident of Coquille while the groom has been living at Beaver Hill.

Not a Hero

Last week when the papers were full of accounts stating that a government hunter had been devoured by wolves, there was much comment passed on the case by local hunters. One man said that with a modern gun and two six shooters he would face any bunch of wolves. Another said that it must be a poor hunter that would let a wolf get close enough to him to eat him. Every one present told what he would do, with the exception of a quiet stranger, who was an attentive listener to all the "hunt talk." "What would you do?"

asked one of our bravest hunters, turning to the stranger. "Well, sir," said the quiet individual, "if I saw a pack of wolves coming for me, I'd lead the pack so darn far that I'd make them look like a bunch of gnats pursuing the national emblem." A deep silence ensued.

Park Problem Is Not Yet Settled

No decision was reached regarding what should be done in the matter of the Patterson grove, by the city council who met in regular session last night. A number of the parties who put up the money for the purchase of this property some time ago, were present and discussed the matter with the council. It was continued until the next regular meeting of the council February 19.

A lot of routine business was taken care of last night and the council heard the financial report of R. H. Mast which showed that the city had cash on hand to the amount of \$3281.61. Mr. Mast also tendered a report of the property owners who had allowed their taxes to become delinquent.

M. O. Warner Here

M. O. Warner, the piano tuner of Eugene, who has been visiting Coos county at intervals for the past 29 years, has been in town for several days and has been busy putting the instruments of his patrons in order. Those having pianos which need the tuner's attention will find Mr. Warner's work of the satisfactory kind that has enabled him to "come back" for so many years. When he finishes his work here he will go to Myrtle Point.

A Hint to the Aged

If people past sixty years of age could be persuaded to go to bed as soon as they take cold and remain in bed for one or two days, they would recover much more quickly, especially if they take Chamberlain's Cough Remedy. There would also be less danger of the cold being followed by any of the more serious diseases.

CURRY COUNTY CULLINGS

(Port Orford Tribune.)

Stormy weather greeted the band dance last Saturday night, that the boys gave for their former director, R. W. Buffum, who lost his belongings in a fire at Arago recently. The dance was an enjoyable affair, but not so well attended as it would have been had better weather prevailed.

The Central Curry Good Roads Association will hold a meeting in the Court House, Feb. 1, at Gold Beach, at which time reports will be heard regarding the possibility of immediate improvement in the roads of the county. At the recent annual meeting, E. A. Bailey was elected President, P. M. Littler, vice-president; J. W. Hoyt, Secretary; and H. W. Gauntlett, treasurer.

Mining on the beach south of town has become an active industry during the past week or two. Will Clarno, N. F. Woodcock and sons and Henry Axtell are all working on sand that prospects quite well.

The four-year old daughter of Mr. and Mrs. Walter Moore, of Euchre Creek, was badly burned last Thursday at the home of her grandmother, Mrs. Hawkins, some 12 or 15 miles up Rogue river. The little girl was playing with a fire in the yard when her clothing caught fire.

When You Have a Cold

It is when you have a severe cold that you appreciate the good qualities of Chamberlain's Cough Remedy. Mrs. Frank Crocker, Panna, Illinois, writes: "Our five-year-old son Paul caught a severe cold last winter that settled on his lungs and he had terrible coughing spells. We were greatly worried about him as the medicine we gave him did not help him in the least. A neighbor spoke so highly of Chamberlain's Cough Remedy that I got a bottle of it. The first dose benefited him so much that I continued giving it to him until he was cured."

Bethlehem's Bid on Shells for the United States Navy

To the American People: The Secretary of the Navy has awarded contracts amounting to over \$3,000,000 to a British bidder for 14 and 16-inch projectiles for the Navy because of very much lower prices offered by the English bidders.

We know nothing of the basis upon which the contract bids were made, but the public is entitled to know the facts upon which we ourselves bid for this work.

Two years ago we took contracts to make 4,200 14-inch shells at a price of \$1,515,000. Up to now not a single shell has been accepted by the Government, although we have expended, in wages, materials, etc., on these orders \$522,881, and we have not received a SINGLE DOLLAR on these contracts.

In addition, a literal interpretation of the contract might make us liable for penalties amounting to \$678,016.

In the light of our experience, and having no other basis, we bid for 16-inch shells approximately the same rate per pound as that which the Navy Department actually awarded a 14-inch shell contract one year ago.

"I wish they'd had Electricity when I was a boy"

"I was forever turning the grindstone, churning, or sawing kindling when I wanted to go swimming or fishing—never had a chance to rest—always milling, cutting feed or grinding corn."

Electricity has taken the drudgery out of farm labor. Almost every routine task on the farm, in the dairy or about the house can now be done by a C-E motor in a fraction of the time formerly required and without physical exertion. Costs less than hiring farm hands, too!
