Notice of Final Settlement

Notice is hereby given that the undersigned, administrator De Bonis Non, of the estate of C. M. Skeels, deceased, has filed his final account in said estate, in the County Court of Coos County, Oregon, and that said Court has appointed the 21st day of May, 1917, at the hour of 10 o'clock a. m., of said day, at the County Court room in the Court House of said Coos County, Oregon, in Coquille, for the hearing of objections to said account and the final settlement of said estate.
Dated this 17th day of April, 1917.
C. T. SKEELS,
Administrator De Bonis Non of the estate of C. M. Skeels, deceased.
C. R. BARROW,
Attorney for Administrator. 4-17-5

Notice of Final Settlement

Notice is hereby given that the County Court of the State of Oregon for Coos County has, by order made this 24th day of April, 1917, set the hearing of objections to the final report of K. Halverson, administrator of the estate of Henry Halverson, deceased, to be heard on the 31st day of May, 1917, all objections to said report to be filed before said date.
K. HALVERSON,
Administrator of the Estate of Henry Halverson, deceased.

the new shipyard, and Moore mill operating full time and several minor plants in operation there, will mean great things for the city by the sea the coming year.

A petition was filed in the probate court last Monday for the appointment of appraisers of the estate of Mary E. Walker. Harry Walker has been appointed administrator. The estate is estimated at \$5,000 real property and \$1,000 personal.

Robert H. Bowler, traveling auditor for the State Industrial Accident Commission, was a Coquille visitor last week. While here he investigated some of the claims made to the Commission because of accidents sustained in the mills and camps near here.

A. J. Sherwood is claiming a world's record for one of his barred Plymouth Rock hens which he gave 20 eggs for a setting along in April and which came off Tuesday with 20 chickens. Who else ever heard of a hen 100 per cent efficient in brooding as many eggs as that?

Keith Leslie, from U. of O., and Hugh Harlock, from O. A. C., came in Wednesday evening and expect to join the ranks of those who are producing foodstuffs. All young men at the two colleges who would agree to go to farming have been excused. They expect to raise potatoes and beans. They say that men are now a very scarce article around the college campus.

Charley Gardner has changed his vocation for an indefinite period. Indefinite is the word, as he is now working on the Myrtle Point-Powers road in an effort to get it in shape for his auto stage, and with a continuance of the rains the time it takes has not yet been finally estimated. Charley hopes to have the cars running on schedule, however, by the latter part of the present week.

Mr. and Mrs. W. C. Rose were Lakeside visitors Sunday and report a fine time but not many fish. But was the only method of enticing the finny beauties and they did not go properly prepared, hence a small catch. However, Mrs. Rose proved herself the champion of the day by landing the largest fish caught on the lake. Mr. Rose says there were hundreds of people there from nearly every part of the county.

Edwin Ellingsen yesterday announced that the final papers in the realty transfer had been signed and that construction would be begun soon on the \$7,000 Standard Oil building, just below the creamery. About a half dozen men will be employed at the start on the work. The piling is being gotten out now down the river and as soon as this arrives the work of setting the foundations will be pushed as rapidly as possible.

To accommodate the mill employees and others who depend upon the mill for their living indirectly and who must wait till after pay day to settle their accounts, the local office of the Oregon Power Company has made the 12th of the month the last day on which bills for light and power may be settled. The innovation was a voluntary one on the part of Manager McKenna and one which is being very favorably received by the patrons of the company.

Papers were filed yesterday in the matter of the bankruptcy of K. F. Clark, in the bakery and grocery business here, with liabilities amounting to about \$2,100 and assets of about \$2,300. This was a voluntary act on the part of Mr. Clark for the benefit of all of his creditors and had been given a little time by his creditors would have been able to pull the business through but as some of his creditors were threatening attachment proceedings, and as he was determined that all should be treated alike, with preference to none, he took this method to protect them.

Dr. Vern L. Hamilton returned to Coquille the latter part of last week with the avowed intention of remaining here permanently. Dr. Hamilton, since leaving Coquille, has visited all parts of Washington, has spent some time in Eastern and Central Oregon, and also in Portland, but says that in all the territory covered this city not only pleases him best in the way of people and climate but that business is better here than in any place he has visited. He hopes to be able to secure the proper building for the purpose and have a complete hospital in operation here in a short time.

Roy Avery, formerly business manager of the Herald, came over from the Bay Sunday for a last call on his many friends in this city. He expects to leave today for Portland where he will take the examination for admittance to the navy. His application went in several days ago and he was ordered to Portland for examination. If he passes successfully he expects to proceed at once to Mare Island for his preliminary training. He goes in as a printer and hopes to be stationed with the Atlantic fleet and that he will soon cross the pond and be in the active work of the navy.

Nonda Anderson, with his crew of men, came up Saturday with two scows of material for the North Bend Lumber Company's Davis Slough camp. The loads consisted of four log cars and about a mile of railroad iron. But two more loads remain to be brought up from the old Bear creek line now. There are four more cars and a small portion of the steel yet to be transported and Mr. Anderson hopes to complete the job this

week. The work of installing the equipment at the new camp is going rapidly ahead and it is hoped to be able to open the camp late this month.

County Treasurer Tom Dimmick yesterday received a letter from the principal of the Wilbur, Douglas county, schools, announcing a "home coming" celebration to be held there on June 1. It is to be a gathering of all the old pupils of the former Umpqua Academy which was conducted at that place under the auspices of the Methodist church many years ago.

Among those who will be present and take an active part in the celebration are R. A. Booth, H. L. Benson, Geo. Brown, Judge Hamilton, Austin Miers and Arthur Strange. Mr. Dimmick attended the academy for several years, ceasing, at the request of the faculty in 1866, owing to his love for tripping the light fantastic. Fletcher Royal, now a resident of Salem and over 90 years of age, was the principal at that time. Mr. Dimmick says it would perhaps be more proper to call it a pioneers reunion and that if it is possible he will be among those present.

J. C. Brown, city marshal of Myrtle Point, came down from that city yesterday morning carrying two heavy suitcases. When asked what they contained he rather seemed to wish to avoid stating but as the sheriff was present when the query was propounded he did not dodge the issue but admitted that they contained twenty-four quarts of booze. The sheriff took charge of one of them and Mr. Brown carried the other to the court house. The suitcases were seized from John Martin, of Marshfield, Saturday by Mr. Brown. Martin was brought down Saturday and incarcerated in the county jail to await the day of reckoning which was yesterday in Justice Stanley's court. He was on his way to Powers to distribute the booze when apprehended.

John Martin, to whom the suitcases are supposed to belong, was arraigned before Justice Stanley yesterday, pleaded not guilty, was tried and found guilty by the court. He will be sentenced today.

Cracks Knee Cap on Bicycle.

Miss Ada Newell, of the High School faculty, suffered a painful injury last Friday morning when her bicycle got out from under control and threw her off, breaking her knee cap. She and Miss Pauline Chase had been out on the Myrtle Point road for an early morning spin and returning about six o'clock, were coming down the hill toward the Collier bridge when she lost control and the wheel headed for the rail. Fortunately Miss Newell's skirts caught on a post or she would have gone to the bottom of the ravine. But when the wheel stopped in some way the handle struck her knee in such a way as to break it. She attended to her duties at school that day and it was not until Saturday that it was learned she had fractured it. Since then she has been wheeled to the high school in a chair.

East Fork.

This kind of weather makes grass grow and keep growing.
The people of School District No. 32 turned out to support Oregon Agricultural Defense Day. The blanks were sent to K. E. Marcy.

To me there is no sting of weariness in work done these days; it is a joy in service, as a "soldier of the commissary." The man who tries to exploit his fellow man or his country these days will find that he has double crossed himself.
Theodore S. Easton, a senior at Albany College, enlisted in the Aviation branch of the Signal service, May 1. He is at the assembly camp, Vancouver Barracks until sent to an aviation school.
I vote for the road bonds, not that I take stock in the hot air being pumped

that they don't cost anything, but that, for a number of years, I have felt that the National government ought to help build roads, as well as improve harbors. When I am offered what I want I know enough to take it. I did not vote for the county bonds, for I thought we might get the same old game; but when not more than 6 per cent of the county bond money goes for surveying and bossism it looks good to me.

Ed. Abernathy has moved stove and cooking utensils to his mill in Brewster valley and will batch.

We will miss Editor Levar from the Herald, and here is best wishes to the new editor, even if he is a Savage.

Whoever Roy O'More may be his poems of song are missed from the columns of the Herald. His poem, "Songs of Silence" is one among the truly beautiful things that I have read.
R. A. Easton.

Items From the Bay.

(From the Coos Bay News.)
During the latter half of the month of April Coos Bay shipped 5,025,000 feet of lumber to San Francisco.

The fishing boat Sea Foam was recently taken from the Coquille river to Yaquina, where she will be used in halibut fishing.

Mrs. Max Timmerman last week made an assignment of the Panama Millinery on Front street, in behalf of her creditors, to Albert Seelig, who is at present conducting the business.

Fred Larson, of Portland, stated at Eugene Saturday that work on the construction of four wooden ships would commence at once at Florence on the Siuslaw river. The enterprise will give employment to between 400 and 500 men and the plant will have a capacity of turning out one ship a month, after the first four months.

Constable Anderson arrested John Metzger at North Bend Friday night as he was leaving the City Dock with a sack full of booze. He said that he found the sack on the wharf, and that he was taking it home to see what the bottles contained. He appeared before City Recorder Maybee Saturday morning, and was fined \$50.

A large gathering of descendants of coast Indians from Coos, Douglas and Lane counties, met at Empire early last week, and a number of those interested in the government treaty made with the Indians in the '50's agreed to pay Geo. Wasson and his associates 20 per cent of any amounts he may secure for them out of the government appropriation.

A strike at the Smith mill Monday morning caused the closing of the big mill and crippled the Bay City mill. The men, who claim that the minimum wages now are \$2.50 per day, say that their demands are for a universal advance of 50 cents per day for all laborers. A meeting was held at the Socialist hall Monday night, which was largely attended, and a Mill Workers' Union was organized, the roll being signed by about 200 employees.

FOR SALE—Holstein bull Moreland, Sir Henderveld DeKol; Dam 3 lbs. butter, 75 lbs. milk one day. Price \$150.00. J. M. Long, Bandon, Ore. Also 14 months old bull, Dam Advanced Record, Price \$100.00.
