MERELY MENTIONED

H. N. Lorenz is in Powers on business, going up yesterday.

C. T. Skeels left this morning to attend Odd Fellows grand lodge at Eugene.

Lee C. Greenup, of the U. S. Army, is registered at the Baxter and is looking up possible recruits in this section.

Miss Mina Magness has been re-elected principal of the Broadbent school. Miss Helen Robbins will be her assistant.

L. H. Hazard left yesterday morning for Eugene where he will attend the Grand Lodge of Odd Fellows, returning Thursday.

The repair work on the First street plankings was begun yesterday and will be pushed as rapidly as the weather will permit.

Miss Mary Levar will go to Myrtle Point next week to help out the Enterprise whose printer will attend a convention for a week.

No meeting of the city council was held last night owing to a lack of attendance and an adjournment was taken till next Monday evening.

Mr. and Mrs. F. E. McKenna and Miss Edna Harlocker spent the week end at the Dr. Bartle home in North Bend, returning Sunday evening.

E. P. Schow, the revenue man, leaves today on his return to headquarters at Portland after a week spent looking things over in this county.

The gravel went down the river this morning for the concrete base for a 12 by 30 foot silo which will be erected on the Phillips place at Beaver slough.

Mr. and Mrs. S. E. Hines and Ralph L. Briggs, of Eckley, passed through town this morning enroute to Bandon for a few days' visit with relatives and friends.

J. Percy Wells, formerly principal of the Coquille schools, was in the city last week working in the interests of the agricultural preparedness campaign.

H. W. Dunham has been quite ill for a week but is not dead yet—in fact is so near well that he will be out in a day or two—whistling the same old tune.

Perry Lawrence came in from Eugene Saturday for a few days' visit with home folks. On his return he says he will remain there a week or so and then go to Portland to enlist.

J. C. Noel, of this city, returned Saturday from Gardiner where he went to bury his son, Ralph, who died from measles and a complication of diseases at the hospital in that city last week.

Remember the Lusitania and

Buy a Liberty Loan Bond.

Pete Fox last week resigned as purser on the Dispatch and has joined the force on the government dredge and snag boat. His place on the former boat will be filled in future by Fred C. Stone, of this city.

"Cameron's boys," Raicey and Weidner, are now in the county jail awaiting the action of the grand jury relative to their absconding with funds secured from the Agitator popular girl contest.

Several of the local boys who have been out on the Coquille-Roseburg road survey came in Saturday night, having quit the crew. The balance of the crew will work on the Pacific Highway out of Roseburg.

E. E. Johnson reports ten cars of lumber shipped from the local mill the past week. This is the maximum shipping production of the mill at present and with no further trouble from lack of cars a steady run for the summer months is assured.

C. W. Gardner returned from the

Powers road Friday evening, went to Marshfield Saturday and this morning started out to Myrtle Point again on his stage line work. He hopes to have the line running to Powers this week—if the good weather continues.

Mrs. G. R. Wickham and Nels Osmundson, who have been visiting in Southern California for several weeks are expected to return this week. Mrs. Ed. Moehler, of Marshfield, has been looking after the welfare of the family during the absence of her mother.

County Surveyor McCulloch with a crew of a dozen men is at work at present locating the line for the Coquille-Myrtle Point road improvements which are now being advertised. He is also making up the necessary topography maps for the use of the road builders.

Chief Engineer Bosk last week severed his connection with the steamer Dispatch and has taken the position of engineer on the tug Klibyam at Bandon. The Dispatch does not look quite natural since the change as the chief's smiling face seemed a part of the equipment for so many years.

Get Rid of Your Rheumatism.
Now is the time to get rid of your rheumatism. You will find Chamberlain's Liniment a great help. The relief which it affords is alone worth many times its cost.

Remember the Lusitania and

Another local business concern which made a voluntary raise in wages the first of May is the Oregon Power Co. All plant employees were given a 15 per cent increase, which is a welcome help in combating the H. C. L.

J. E. Norton, in addition to his many duties in connection with the Coquille Valley Mercantile Company, is tending a five-lot garden at his Spurgeon Hill home. Gene is certainly "doing his bit" in the H. C. L. fight this year.

R. W. Catton, formerly employed at the court house, is back in town and will again be employed on the county force. He just finished proving up on his Catching creek homestead and wants a little city life to even matters up a little.

Superintendent Baker informs us that he has just received word from State Superintendent Churchill, that under a new law enacted this year, no alien who has not been admitted to citizenship will be permitted to vote at a school meeting in any district in this state.

Use Commercial Fertilizer for your gardens. I have Nitrate of Soda, Superphosphate, Land Plaster and other Special Brands. See Quick.

C. McC. Johnson was a business visitor to Marshfield Saturday. He returned Sunday and immediately went to Bandon, returning yesterday, and started this morning for San Francisco where he will make the final arrangements for commencing work at the Bandon Ship yard of which he will be manager.

Mrs. Hamilton and son Earle returned to Coquille last week and are helping the doctor get settled. Dr. Hamilton has leased the Wetmore house on Second street and when necessary alterations are made will open up a modern hospital. In the meantime he has opened temporary offices in the Farmers & Merchants bank building.

Melvin Kern, at present working on a tie contract on South Slough, in a letter to his father, E. H. Kern of this city, last week stated that he was mustered out of the coast artillery company the first of the week and but a day or two later received notice of his appointment as second lieutenant in the regular army. This appointment carries with it a salary of

\$135 a month. The ban of being a married man does not seem to exist in the regular army as it does in the artillery.

Mrs. T. H. Mehl and children left by Thursday morning's train for California where they will visit in Oakland for several weeks. About the first of July they expect to go north to join Mr. Mehl, who is in the employ of the Dollar company near Vancouver, B. C.

O. A. Mintonye received word last week from his son, Clare, that after his withdrawal from the Canadian regiment in which he enlisted, he came back into the United States to Minot, South Dakota, and within thirty minutes from arriving there he had enlisted in the National Guard and secured a job pending the calling out of the militia company.

Last Tuesday the Dispatch brought up a valuable cargo from down river points which was transferred to the S. P. here. The shipment consisted of 40 hogs, alive, which had been purchased by J. E. Ford, the Marshfield butcher. Thirteen cents a pound live weight was the price paid for these porkers, and J. P. Clausen, who delivered 21 of the bunch, received \$619.48 for them. No reduction in the H. C. L. in this case.

Guy R. Harper, formerly of Jacksonville, Oregon, where he served as deputy tax collector of Jackson county, has just taken the position of secretary of the Darifood Products company here and expects to bring his family here in the future. Mr. Jackson does not, however, expect to devote all his time to the company here but will also be engaged in the stock loan department and other business of the F. E. Conway Mortgage Company.

Last week Hugh Harlocker and Keith Leslie were made the butt of a practical joke which afforded considerable amusement to many of their friends here. One evening a sign bearing the legend "Dump Garbage Here" was placed at the front of their garden lot opposite the postoffice and the next morning the entire front of the lot was littered with old barrels, tin cans and various other easily collected junk. It cost the boys considerable effort to get rid of the accumulation and they immediately set to work to put up a fence to prevent a recurrence of the trouble.

Guy Wardry and his partner, an Italian named Mighetto, arrived at the Baxter Sunday, the latter man having two suit cases. Later Mighetto went down the river and did not return till late that evening. In the meantime Wardry took two guns from the suit cases belonging to Mighetto and departed. Upon his return Mighetto missed the guns, asked Mr. Baxter who had taken them and upon learning, swore out a warrant for Wardry. Sheriff Gage immediately got on the trail and located his man at Eugene, where he went for him yesterday morning.

Al Garten came up from Craine's camp yesterday afternoon with a badly lacerated hand, the result of a fall while cutting timber. He had just fallen a large cedar and took his saw on his shoulder to proceed to another tree, walking up the tree just fallen. His corks slipped on the bark, throwing him onto the saw and severely gashing his hand just at the base of the right thumb. The artery was partially severed and he lost considerable blood before he arrived but Dr. Hamilton soon stopped the flow of blood and stitched up the gash. Al says he will be back to work next week—maybe.

To Trade

Ten acre Base and Conice pear orchard in full bearing, on electric car line, one mile from city limits of Medford, Oregon. Beautiful modern bungalow. Will trade for unimproved land. Value \$10,000. Address C. A. Bird, Medford, Oregon, R 26. 36-tp

Modern Woodmen Attention!

All such are hereby notified that the meeting night of Beaver Camp, No. 10550 M. W. A. has been changed from the first and third Tuesday to the first and third Saturday night of each month, change effective June, 1.

Will Pay on the Fourth.

Under the new management at the creamery it is announced all checks for milk will be paid promptly on the fourth of every month. Contrary to the impression that prevails in some quarters this company is being run as a Coquille institution and carries its funds in a Coquille bank, so that all checks are paid here.

Sixth Declamatory Contest.

The Sixth Annual Declamatory Contest of the Coquille schools will be held at the Masonic Hall next Thursday evening, May 24, at eight-fifteen. The contestants have been well trained and the program will be a good one. The entries are as follows: First section, Kathleen Siler, Raymond Irvine, Clarabel Peart and Merle Landreth; Second section, Beryl Woodruff, Kenneth Staninger and Chester Howard; Third section, Leanna Curry, Nellie Johnson, Marvel Skeels, Ruby McDonald and Katie Price.

Probably no more important activity is carried on by the school in the course of the year than the declamatory contest. Through the con-

tests of the past five years, interest in public speaking has been greatly stimulated and many pupils have discovered that they possessed a talent before unsuspected. The full value of such an activity can be secured only through the hearty support of the community in the way of attendance. Unless the audience is large, the interest and enthusiasm of the speakers will die out. The Masonic Hall should be filled when the orchestra plays the opening number of the program.

Chapel Car Here.
The Catholic chapel car "St. Peter" arrived here Monday from Eugene and is parked at the depot, where it will be kept for a week during a special mission here. The car is in charge of George Hennessey and Rev. Father Donegan, a Paulist Father, will have charge of the mission.

The "St. Peter" was donated to the Catholic church Extension Society by Peter Koontz, of Dayton, Ohio. He had it built to order at a cost of about \$25,000. The car will seat about 100, and is a church in miniature. Many visited the chapel car yesterday and today.

STUDY CLUB.

The last meeting of the Woman's Study Club for 1916-17 was held last Friday afternoon at the home of Mrs. H. O. Anderson. There were no lessons, the last meeting, according to time-honored precedent, being a social one.

Except for a short preliminary talk on business, the time was devoted to conversation and needlework. It was a delightful afternoon, ending fittingly with dainty refreshments, served by the hostess.

The club will meet next on Friday, October 5, in the city library.

Improve Our Railroad

Assistant Superintendent Wilson, of the Portland division of the Southern Pacific, who has been making an inspection of the lines down here, says that traffic on the Coos Bay line from Eugene to Powers has increased 50 per cent in the last sixty days. No one who has had occasion to visit the Coquille depot recently can have failed to note that the business at this station contributes more than its full proportion of this increase. The production of our two lumber mills is in fact a big factor and cars are now going out from here daily to all sections of the country. Indeed one day lately it was Agent Sterling's duty to find a car with an end door to load for Montreal, Canada. The air

is almost electric with increased activity at our depot and the need of additional facilities for handling the business is very apparent. It is a decided contrast with the old times and ought to open the eyes of those who were predicting a year ago that railroad connections with the outside world wouldn't make any perceptible difference here.

To put this end of the railroad in better condition a gravel train is to be added between Myrtle Point and the lay in the near future. The Powers Logging company are also going to make improvements south of Myrtle Point. A new gravel pit will, it is said, be opened somewhere this side of Myrtle Point.

To the Farmers & Dairymen:

Do you know what your cows earn you? What it has cost you in labor, interest on investment and material to market your crop. Was some part of your business conducted at a loss? Could you have made more money by knowing readily the exact relation of your different crops from a financial standpoint?

We conduct a Home Study Course in Bookkeeping for Farmers. It is endorsed by County Agricultural Agent J. L. Smith and by the most prominent and successful business men of Coos County.

It will cost you nothing to ask for particulars. Let us mail you something that will interest you and prove valuable.

LYONS & JONES

Belt a G-E Motor to it

Let the G-E Motor take the grind out of your chores.

Motor-driven machines will milk, separate cream, churn, grind tools, pump water, cut feed and ensilage, grind and shell corn, split and saw kindling, thresh grain and perform practically all ordinary tasks requiring steady application of power. A G-E motor will soon pay for itself in labor and time saved.

Ask our power man to show you just where a motor will help on your farm.
