Grammar and High School Students Arrangements have been made with the Superintendent of the Coquille City Schools whereby certain credits will be allowed to students of our institution. This means that co-operation of the two schools will permit the young people of this vicinity to attend The Business College during summer months or afterwards and receive units for faithful performance of their work when they return to public school. Those who have additional work to perform to make passing grades at the public schools can now make these grades at the business school this summer. It means further that one continuing his education in the public school can at the same time arrange to secure a modern business training in addition to a course laid down by the State Board of Education. By taking advantage of such an arrangement you may now secure work in all of these branches that are so essential to success.

ARRANGE NOW TO GET THESE CREDITS. Anderson's Practical Business College Coquille, Oregon

north the latter part of the present week. The survey work contemplated will take two or three months.

The remains of Mrs. C. C. Carpenter who was drowned in the Coquille river above Norway a couple of weeks ago were found about 1:30 last Tuesday afternoon by Ed Myers, who lives in the Fishtrap section and was returning from Myrtle Point in his power boat. They had evidently come to the surface very recently at a point a quarter of a mile below the place where the accident occurred. The funeral services took place at Bandon Thursday afternoon.

Many complaints have come in lately about automobiles speeding over the plank roads of the upper country. Perhaps if the drivers of these cars cost considerable money and that speeding is the greatest strain that can be inflicted upon them, they would be a little more careful in future. A word to the wise should be sufficient, but if it is not we are told there will be more strenuous measures adopted.

Superintendent Raymond E. Baker informs us that the eighth grade pupils who were conditioned in the recent May examinations in not more than one or two subjects will be permitted to take another examination in the subjects in which they failed on June 14 and 15. The object for this is to render it unnecessary to burden the pupils with this work during the rest of their vacation so that they will be free until school begins in the fall, to do any productive work of which they are capable. The districts should at once make any necessary provision for this examination.

## You Can Make Excellent Cake with Fewer Eggs

Just use an additional quantity of Royal Baking Powder, about a teaspoon, in place of each egg omitted. This applies equally well to nearly all baked foods. Try the following recipe according to the new way:

### CREAM LAYER CAKE

Old Way New Way

1 cup sugar	1 cup milk
1/2 cup milk	1 cup milk
2 cups flour	2 cups flour
2 teaspoons Royal Baking Powder	4 teaspoons Royal Baking Powder
3 EGGS	1 egg
1/2 cup shortening	2 tablespoons shortening
1 teaspoon flavoring	1 teaspoon flavoring

Makes 1 Large 2-Layer Cake

DIRECTIONS—Cream the sugar and shortening together, then mix in the egg. After sifting the flour and Royal Baking Powder together two or three times, add it all to the mixture. Gradually add the milk and beat with spoon until you have a smooth pour batter. Add the flavoring. Pour into greased layer cake tins and bake in a moderately hot oven for twenty minutes. This cake is best baked in two layers. Put together with cream filling and spread with white icing.
