VARNISH the Shabby Woodwork

Varnished surfaces will get shabby. Window sills become rough, floors show worn spots, furniture and woodwork become scuffed, scratched and worn. These shabby surfaces can be easily made like new by using

**ACME QUALITY
VARNISHES**

There's a special Acme Quality Varnish for every surface. Floors, window sills, furniture, woodwork, doors, etc., each require varnishes made to meet their peculiar needs.

Ask for a free copy of the Acme Quality Painting Guide Book which tells what to use, how much and how it should be applied.

FUHRMAN'S PHARMACY

MERELY MENTIONED

C. R. Wade came up from Bandon this morning on legal business.

Attorney Haas, of Portland, is in this city on business this week.

Stephen Gallier, of Bandon, was in town today on business of a legal nature.

C. F. McGeorge and Henry Huggins, of Marshfield, were Coquille visitors yesterday.

Several Coquille people attended Flag Day ceremonies at Marshfield last Thursday.

The Coquille orchestra will give a dance at Heazlet Hall Saturday evening.

There was no quorum at the council meeting last night hence an adjournment was taken till this evening.

E. H. Baird, of the Western States Life Insurance Company, was a caller at this office the first of the week.

Mrs. R. H. Mast left for Portland Saturday. She will visit with her sister and son for a couple of weeks.

T. J. McBea was in Coquille on business from his Bridge home Thursday and paid this office a pleasant call.

At the school meeting last evening W. L. Kistner and J. S. Lawrence were elected as directors to fill the vacancies.

R. R. Watson was over here the first of last week shipping his household goods over to North Bend where he is now located.

Miss Agnes Devereaux, of Parkersburg, was one of a class of four which was graduated from the Sacred Heart Academy at Salem on Saturday.

"The Ne'er Do Well" at the scenic last night was one of the best films which has been presented here for

many moons. The attendance was also up to the maximum.

C. A. Howard returned Saturday evening from Portland where he attended the grand lodge of Eastern Star. Mr. Howard was accorded the honor of election to the office of worthy grand patron for the coming year.

J. M. Robertson had the misfortune to lose the thumb from his left hand while working at Powers last Monday. He was splitting cleats when the stick turned in some unaccountable manner throwing the ax into his hand.

Mr. and Mrs. F. G. Leslie returned Sunday evening from Portland where they took in the rose festival and visited with their son who is now at Vancouver barracks.

The Bandon World says that Logan Kay and family, of Coquille, are spending their vacation in Bandon. Mr. Kay being employed with the painting crew working on the school buildings. In the meantime Howard Smith is operating the Coquille ferry for Mr. Kay.

MacClellan Lanning, vice president of the Henry D. Davis Lumber Company, of Portland, arrived in Coquille Thursday and spent several days visiting with R. A. Wernich, of the Sitka Spruce Company. On Sunday he was entertained on a fishing and camping trip to Middle creek.

Ray C. Hyde, of McKinley, arrived at Battle Creek, Michigan, June 8, af-

ter a visit of ten days in Canada, while on the way; and finding himself subject to draft registered at once, fixed up his statement of the reason for the delay and mailed it to the county clerk's office here.

Ned C. Kelley is in receipt of a letter from his son, Guy, written June 7 at Newport News, Va., in which he said he had just arrived there from the Bremerton navy yard in Washington, and that the next morning he would sail, although, of course, he did not know their destination.

There will be a farmers' and dairymen's picnic at the Norway grove on Saturday, June 23, to which everyone is invited. We have been unable to learn just what the list of sports includes but from what we know of the Norway section we are safe in assuming a profitable and enjoyable day for those who attend.

Novia Landreth, the genial janitor, and jailer at the courthouse, has accepted the post of superintendent at the county infirmary and will take up his new duties the first of the month. His resignation of his present post has been submitted and accepted by the court to take effect on that date. No successor for the post of jailer and janitor has as yet been named but this will probably be attended to at the meeting tomorrow.

The suit in equity of Razor versus the West Coast Development company occupied the attention of the circuit court yesterday and will probably be completed today. This is a suit on an old judgment which was rendered but not collected several years ago. The company is defunct and the present case is an effort on the part of Razor to collect from the individuals composing the old company.

J. W. Spinger returned from Ontario last week after an absence of several months and reports things on the boom in that section. He has been putting grain on a ranch he has leased on an island in the Snake river near Ontario and states that all farmers in that section say they will be more than satisfied with \$1.50 for their wheat this year and hope the government will step in and set a standard price for all farm produce. He will return soon to Ontario.

Another change was made at the Gardner & Larsen garage last week whereby the plant was leased by F. B. Schow, George Beatty and Burt Doyle who will conduct the business for the balance of the year and perhaps for an indefinite period of time beyond that date. The young men have all worked in the garage for some time and are familiar with the business and the patronage to such an extent that all the old customers will be remembered by them and given the same prompt, reliable service.

Roadmaster Murdock returned Sunday evening from Portland where he went to interest some of the larger construction companies in the two grading contracts which were not let by contract this month. As a result of his efforts E. V. Houser, of Grant Smith & Company, accompanied him on his return and is now looking over the contracts with the idea of his

company taking them on a percentage basis. No details have as yet been arranged but the county court will convene tomorrow to take up this matter and arrange the details.

Jas. E. Montgomery, superintendent of the Coos-Curry Telephone company, was married to Miss Marie T. Maloney at Marshfield Wednesday evening. The happy couple left Thursday morning for a honeymoon trip expecting to be back in Marshfield by July 15.

Several new improvements have been installed at the Sitka mill below town this month. Among others is a set of live rolls for the resaw and the remodeling of the log haul machinery. The buckets were again attached to the cable which will do away with the necessity of using a choker with each log which has caused much delay. The buckets were removed at the time the mill started owing to the sand drifting in so badly while the mill was idle that they could not be operated. This trouble has now been eradicated and the buckets will again be used.

L. A. Liljeqvist claims a hen whose achievements in hatching put to shame those of the hen in Coquille, owned by A. J. Sherwood, which with a setting of 20 eggs came off the nest with 20 chicks. With a setting of 19 eggs, the Marshfield hen hatched out 22 chicks and there was one egg still unhatched this morning, which was the object of her attentions. Neither the traditional lack of veracity in a member of the legal profession, nor stimulation due to imbibing of prohibited delicacies is the cause of Mr. Liljeqvist's report he says. The explanation is the hen laid four eggs after the setting began. He went to Coquille today to tell Mr. Sherwood of the champion hen of the county.—Coos Bay Times.

is a safety milk bottle holder and its merits are certainly complete in that line. It is a small zinc attachment for the outside of a door casing, being fastened by screws at the top of the door and is of such an arrangement that, with the door closed, a bottle put into it cannot be removed or in any way molested until the door is opened. Then the bottle is readily removed from the inside. A heavy steel spring is the locking device and the only known method of removing a bottle other than by opening the door is to break the bottle. Being attached to the top of the door casing

the bottle is away from all molestation, such as small boys, thieves or cats, is held rigidly upright and, fitting closely to the holder, is free from the attention of flies or other insects. Mr. Beckett is now negotiating with a company for the manufacture of the article after which he will be in shape to dispose of state and county rights. He has had several flattering offers for the rights to both this county and the entire state of Oregon.
