Several disgruntled taxpayers called on the county court Saturday with grievances pertaining to delinquent taxes but it is understood that all

were sent away as happy as it would be possible to make them. Most of them were inquirers as to ways and means of obtaining title to property which had been taken over by the county on tax sales and in each instance the following terms were offered by the court: That they pay the amount for which the property was sold together with the costs of the sale and six per cent interest on the entire sum from the date of the sale. This offer was in the main satisfactory and there will be several tracts redeemed soon as a result of their interventions with the court.

In addition to the work of entertaining the various delegations relative to the closing down of the county road work the county court was interviewed by a delegation of Myrtle Point citizens Saturday which was more successful than the others. The offer of the delegation was that the city would pay \$250. Binger Hermann would pay \$200 if the county would pay \$250 toward the improvement of the street, the entire cost of the project being \$700. This the court agreed to and the order was entered on the journal. It is understood that the railroad company will pave their ground and connect with the contemplated work by the other parties.

O. C. Sanford stated yesterday that in checking up the figures relative to the Red Cross payments he had been deceived by the aggregate sum when he stated that the payments were coming in satisfactorily. He went over the subscription cards Saturday and found that there were quite a number of subscribers who have made no payments at all on their subscriptions and that but a very few have made their August payments. The first payment was due on July 1, the second on August 4, and the third and fourth payments on the first day of September and October, respectively. All who signed the cards on the installment plan should attend promptly to their payments or this

community will fall far below the proper sum when the books are finally closed so our readers are urged to see that their slate is made clean of the July and August payments at once.

Then at the end of the month you'll find out just how much it costs you to run the home. When payment by check is made there never is any doubt as to whether or not a bill is paid. The check is a receipt.

Besides, a checking account will give your wife a business education. The number of ordinarily bright women who know absolutely nothing of banking is surprising. If you are a husband, father, brother, you cannot tell when death may overtake you, and it is well that your wife, daughter and sister know something of banking.
