Friday night from their Crater Lake trip in the latter gentleman's car. While away the party also visited Klamath Falls and returned by way of Ashland. They report a fine trip and that fishing on the lake was the best ever, but, unfortunately none took tackle and could acquire none at the lake so were compelled to be mere spectators while others caught three and four pound rainbows by the hundreds.

W. H. Lyons this week installed a new counter at his store which combines three important features. These features are, a display case, storage bins and a wrapping counter. The first is contained in the front of the fixture and comprises many small glass covered receptacles where the contents of the bins may be displayed. The bins are at the back and under the counter and are dust and vermin proof, assuring a perfectly clean product. Mr. Lyons stated this morning that this is the first of several innovations he has planned for the near future.

Charles Myers, son of Mr. and Mrs. J. D. Myers, of this city, was a visitor at the home place yesterday, coming in for his last visit before departing for active service across the pond. Mr. Myers was a member of the volunteer forces at the time of the Mexican trouble but owing to the fact that he is over 31 years of age was discharged from that branch of the service. He immediately enlisted in the regular army and has been stationed at Clackamas while awaiting orders to the front. These orders have now been received and his company leaves port where they expect to embark soon Oregon tomorrow for some eastern port for France.

Workmen began yesterday to pull down the old engine room at the E. E. Johnson mill in this city and a new engine room will be erected as soon as the debris from the old is cleared away. The new building will replace the last of the old mill and will be constructed of the best of material and built to stay. At the same time live rolls are being installed at the mill and also new live transfer skids which will greatly relieve the congestion behind the big saw when the mill is running full blast. Other improvements are also being made in other parts of the mill with the result that a material increase in the output of the mill is expected when all are completed.

The line crew of the Oregon Power Company have completed the setting

of poles as far as Cedar Point, three miles from the initial pole at the corner of Second and B streets and are now at the point where the power line leaves the county highway and follows the private right of way of the company. On the highway the poles have been set about 250 feet apart but on the balance of the line they will be set 350 feet apart. There are fifteen men in the crew and Manager McKenna said this morning he could use ten more men to advantage. They have over one hundred poles yet to set as well as the wires to stretch before the line will be in commission. As soon as the present line is completed the crew will proceed to the work of putting in the new line between this city and Myrtle Point, provided the men can be secured for the work.

J. S. Middleton returned from his California trip Saturday and will remain in Coos county indefinitely. Mr. Middleton stated Saturday that he found conditions far from good while on his trip south but that he gained enough in the way of health to make up for the other disappointments. While in the south he visited the section of the state north of San Francisco and in every section he found many idle men and general poor conditions. He says that there is little money in circulation there and that the small farmers' crops are nearly a failure owing to the extended drought. Those who planted fruit in recent years call the year a failure while those who went into poultry are compelled to sell their flocks owing to the high cost of feed and many of them are compelled to hire out at days wages. This makes the supply of laborers far in excess of the demand and lowers wages so none who have to pay board can more than make a bare living. Taken as a whole Mr. Middleton says Coos county conditions are far ahead of any he found in our sister state.

Mr. and Mrs. C. A. Machon were business visitors to Marshfield Friday.

Cut Out the Lost Motion

Southwestern Oregon has come through patriotically in response to every appeal to assist in the Great War. Our young men have gone in great numbers, our people have invested in Liberty Bonds and given freely to the Red Cross.

The slack in our business must all be taken up. We must cut out the lost, false and waste motions. Make every minute and every move count.

The telephone will assist greatly in making for efficiency. But remember not to use the phone unnecessarily. It is lost motion for you and for the public servants who have more important calls waiting on you.

Efficiency Will Win the War.

SYSTEMATIZE your household expenses by opening a bank account for your wife. Give her a check book and teach her the use of it. Pay the butcher, the grocer, the baker, with a check. Then at the end of the month you'll find out just how much it costs you to run the home. When payment by check is made there never is any doubt as to whether or not a bill is paid. The check is a receipt.

Besides, a checking account will give your wife a business education. The number of ordinarily bright women who know absolutely nothing of banking is surprising. If you are a husband, father, brother, you cannot tell when death may overtake you, and it is well that your wife, daughter and sister know something of banking.

MAKE UP YOUR MIND TODAY TO GIVE YOUR WIFE A CHECK BOOK.
