It is curious to note the variances of the laws governing the transfers of realty in lifferent states. In 1858 parties living in St. Louis purchased of a firm doing business in Quincy, Ills., certain lots in Page's second addition to the city of St. Louis. Each of the Quincy grantors was married, and the wife of each duly joined in the conveyance, the acknowledgment setting forth that the wife freely and voluntarily, and "without compulsion," relinquished her dower and did compulsion," relinquished her dower and did not wish to retract such relinquishment. The purchaser, after paying taxes for thirty years, now finds that he cannot make a deed, the examiner of titles refusing to pass the deed for record and holding that the acknowlalgment of the wife of each grantor should form, or, in other words, that the acknowledgment should have set forth that it was made "without undue influence," instead of without compulsion." CURIOSITIES OF NATURE.

An Interesting Lecture on the Lower Forms of Animal Life. Dr. W. L Johnson lectured in the hall Cooper Medical college, San Francisco, taking for his theme, "The Lower Forms of Animal Life." He treated his subject in a popular manner. With allusions selected classical authors, not wholly devoid of humor, he commenced the lecture by asserting that oysters, although having no bead.

He was at least 6 feet 6 inches tall. He was entirely naked, except that he wore a strip of buckskin around his loins and a quiver of arrows at his back. His eyes flashed wickedly as he drew himself up to his full height, placed his foot on the buffalo, and smiting himself on

his bare breast, exclaimed in a haughty and Ma boofalo-o-o! Before the Indian had finished making his positive claim to the buffalo I became pain-fully aware that he was not alone, but that not less than six other Indians, as big and as ugly as he was, had oppeared on the scene as quietly and mysteriously as he had. I had no intention whatever of disputing the red thief's claim, and I know that neither of my companious had. I took my foot off the dead bull, which was all the Indian I knew for resigning my right to the trophy. The Indian folded his arms and looked, I thought, contemptuously at us, and then exclaimed:

"Tabac?"

We interpreted this rightly to mean that the Indian wanted a chew of tobacco. Si-multaneously all three of us produced a big plug and reached it toward him. He took n all, bit off a chew from one and stowed the three away somewhere in his breech cloth. Then, with a wicked leer, he waved his hand toward the railroad. We interpreted this to mean that we had better go, and we went. The mystery of the strange actions of the buffalces we had seen fall was explained. The Indians had been in hiding on the edge of the herd, and were picking off the choicest of them with their noiseless and

Something like fifty years ago two young men, one a lawyer and the other a doctor, loved the same girl in the town of Grand Gulf, Miss. Both could not have her, and neither could live without her. It was to be a duel to the death. There was no insult to be avenged by a discharge of firearms, no stain on a reputation to be wiped out by a few drops of blood. The lawyer said it was to be a duel a l'outrance. The arrangements

for a massacre were complete.

The principals were armed with rifles, revolvers and bowieknives. They had more confidence in the continuation of their hate than in the accuracy of their aim. The rifles were to be discharged first at twenty paces. If neither combatant was killed they were to advance, firing their revolvers at will, and if they still lived the battle was to be continued

It was early morning when the party of four men, principals and seconds, left the lit-tle town of Grand Gulf and sought a grove a few miles distant. No effort at reconciliation was made, no time was lost in the preliminaries. The men were placed, the word given to fire, and the rifles echoed the signal. The lawyer stumbled forward and fell, blood streaming from his mouth. He was unconscious when his second raised him, and it was found that the bullet had entered one cheek, tore away a section of the jaw, and had made its exit through the other side of his face. There was no more fighting, although the

doctor gave his opponent more than the time allowed by the Marquis of Queensberry rules.

The marksmanship of the physician did not win the young lady. Some talk was made about the fight, and she was removed to another part of the state.
