Wm. Luckey, of Lane county, has been visiting his son, W. N. Luckey, the real estate dealer. Mr. Luckey is quite an aged gentleman, well along in the 80's, though quite hale and hearty and has been making a visit to his children in Missouri and Washington.

H. M. Drake is expected in from his stock ranch in Harney Valley in a few weeks. He made the best cattle sale of the season in that section, procuring $27 a head for his three year olds and over, and others at good figures. Fred M. Drake will be in about the holidays, probably to remain.

Jas. W. Whittaker, son of ex-Gov. Whittaker, Oregon's collector of internal revenue, and a popular clerk in the service, was in the valley last week on a personal and official visit to the Hon. W. A. The Marshal has in the City Pound one red bull calf, marked with crop off right ear and swallow fork in left ear, and wearing a large muzzle, no brand visible.

### Getting Ready for Winter.

The work train that has started up the first of this month on the Siskiyou mountains is busily engaged on its mission of putting the road in good repair for winter service. It is in charge of Engineer R. T. Mellis, Conductor Edwards, and the foreman, Thos. Green. The banks are being blasted away and the earth carried into the fills, thus sloping off the slideable places and making things solider along the track at the same time. The work is well done and will probably result in fewer train delays than usual.

### Land Sale.

J. A. Ruble has sold his property and ten acres of land in the western part of town to Eben M. McIntvre, of Marion county, the consideration of which is $2800. Mr. Ruble also buys Mr. McIntyre's farm near Woodburn, Marion county, for $7000. Mr. McIntyre is a man of family and will move to Ashland to remain, and Mr. Ruble is now arranging to take possession of his new purchase.

### Sheep Shipment.

L. A. Morris and Maury Bros. this week shipped 1400 head of mutton and stock sheep belonging to Levi Morris to the Sacramento market, having been purchased by Mr. Shipler. They were examined by P. Lyttleton, deputy county stock inspector, and were all found to be sound, fine sheep. The price was $1.50 and $2.00 per head. They averaged last season 8½ lbs of wool per head. The frieght is $80 per carload of 100 sheep.

### District Temperance Alliance.

The Alliance for the 2d district, comprising the counties of Douglas, Jackson, Josephine, Coos, Curry, Lake and Klamath, will convene in Roseburg Wednesday, Dec. 11, 1889, at 10 A. M., in the Baptist church.

Churches, Sunday schools and all Temperance organizations are entitled to representation as follows: One delegate for each such organization and one additional for every fifty members or major fraction thereof. Arrangements have been made with the S. P. R. R. Co. by which all delegates paying full fare to the Alliance will be returned at one-fifth regular fare.

As this is the first meeting of the Alliance in this district, let us have a rousing meeting. Quite a number of the most prominent State workers are expected to be present. B. F. RAMP, President.

Roseburg, Or., Nov. 18, 1889.

### County Officials' Salaries.

The county court has concluded to appeal the case of A. W. Carlton vs. Lake county, for back fees, or the additional 33⅓ per cent. which the circuit court allowed him. The Lakeview Examiner has talked with some of the tax payers who are against the appeal, for fear of the big expense. Judge Wilshire says the expense will not be over $75, and he, with the balance of the county court want to get the supreme court's decision in the case. There is about $2,785 involved, besides the future, and while we cannot question the right of the county to appeal the case, if the expense of the suit is long drawn out, as it is in many such cases, it would be better for the county to pay the additional fees and be done with it. In a word, it would be better for the county officers to have the fees, than the same amonnt be spent in fighting the case. However, there seems to be no feeling in the matter. The officers simply want their additional fees if they are by law entitled to them, and the county court will pay when it is satisfied that the fees are due the officers.—[Examiner.

## EAGLE POINT NEWS.

Frank Lewis has moved from Jacksonville into our midst, where he expects to permanently reside.

A prominent business lot near the new mill site is engaged but the consideration is not yet to be made public.

John Ashpole, one of our popular merchants, has built a new wood shed. T. B. Higenbothen is building a shed for A. J. Daily to protect his stock.

Uncle Johnnie Lewis has moved into the old Grossman house and is building a barn and has the material on the ground to put a fence around the lot.

Geo. Brown has sold another house and lot to Mrs. Digman; consideration, $350. Also Eber Emery to J. J. Fryer a number of lots along the banks of Butte creek; consideration, $200.

Mr. A. Pool, proprietor of the Eagle Point hotel, has put a very nice portico on the front of his hotel, Mr. Phipps doing the carpentering and our young mechanic, John Inlow, doing the painting, which reflects credit on his ability as a painter.

Speaking of painting, Mr. Jack De Flannie, of Central Point, has done one of the neatest jobs of painting on Mr. Fryer's house that we have seen in the valley and Mr. Bursell, the carpenter, has made a bay window that is said to be one of the most beautiful in the valley, having done all the work himself.

The Eagle Point Literary Society elected new officers last Friday night. A. J. Daily, president; Miss Cora Brown, secretary; Miss Lelah Fryer, treasurer. About twenty names were placed on the roll and the prospects are favorable for a number of pleasant entertainments during the winter. J. J. Fryer made an eloquent speech that reflects credit on his early teachers in elocution.

Times are lively around here, everybody is up trying to do something. The railroad surveyors are around; millwrights have been making an estimate of the probable cost of the new mill to be erected; carpenters are all engaged, painters are all busy and the prospects are very favorable for a grand boom the coming summer. Real estate is changing hands, people are coming to our town and neighborhood, and you can see a broad grin on our popular merchants' face across the street by moonlight.

Among the real estate transactions, J. K. Green has paid in full $7500 to J. J. Fryer, got his deed, has full possession and has gone to work in earnest to improve and beautify his place. He has a stump puller from Central Point and is clearing some of his brush land, aiming to get it in cultivation this season. He has concluded to let the old log house, in which his wife was born, stand, it being one of the oldest houses in the county, re-roof and re-rustic it, so that his grand children can see the house in which their grandmother first saw the light.

### Children Enjoy

The pleasant flavor, gentle action and soothing effect of Syrup of Figs, when in need of a laxative, and if the father or mother be costive or billious the most gratifying results follow its use, so that it is the best family remedy known and every family should have a bottle.

The Southern Pacific's work the past season on bridges and buildings has chiefly been confined to the expenditure of some $100,000 on bridge work.

Last week the steamer Mayflower, Capt. Deskins, made her fastest trip, coming from Keno to Linkville in five hours with 17,000 feet of lumber.—[Star.

900,000 salmon eggs were obtained in the McCloud river during the September run. It is expected to secure 2,500,000 eggs during the present month. The eggs will be used to stock the Sacramento river. The McCloud river will be restocked from lakes in Nevada.

A Celestial has been grubbing on the Williamson farm in Benton county for six years and now has the work about done. The oak grub wood has paid for the work, and a fruit farm is the result. This is a long time for a Chinaman to stick to a thing.—[Albany Democrat.

A treadmill wood sawing machine at The Dalles was stopped by Deputy Sheriff Cates and the owner informed without he used strong, well-fed horses, he would be arrested for cruelty to animals. The humane sentiments of the deputy are worthy of the highest commendation.

The best advertisement Grant's Pass has ever had, says the Courier, is the $10,000 bonus her citizens gave to rebuild the factory. The papers far and near are quoting it with most complimentary remarks on the thrift and enterprise of the citizens. Live men like to cast their fortunes among generous and live people.

The Southern Pacific's work of replacing its iron rails with steel is progressing favorably. The road is already all steel as far south from Portland as Tangent and from Roseburg south. Between Roseburg and Tangent some sixty miles have been replaced this season, leaving a balance of some twenty-five miles to be completed. To this end there are now afloat in ships hither bound 2400 tons of steel rails. The rails are of American manufacture and weigh about 61½ pounds to the foot. The work will probably be completed in about six months.

Like all corporations the Klamath City Improvement Co. is said to be having a hard time in managing its finances, or rather lack of finances. They have not been able to pay off their men since August. They had calculated on selling some of their town lots at an auction sale last month, but buyers were too scarce.

Fireman Spurgeon, of one of the southern freight engines, met with a painful accident at Hornbrook last Saturday. Some wood fell from the tender onto his foot, smashing it badly. He was placed on the passenger train and brought to Ashland, where his wounds were dressed by Dr. J. B. Newman, railroad physician.

The private car of S. P railroad officials that went up the road Saturday returned to Ashland Tuesday afternoon and yesterday continued south on the regular passenger. Asst. Manager R. H. Pratt, and Supt. of eating houses H. A. Clauson were in the car taking a trip over the Southern Pacific company's route, for the benefit of C. F. Smurr, the new general freight agent.

Some years ago the Indians in the vicinity of Adin tried one of their number for murder. He was relieved of all his earthly possessions, consisting of a wagon, two ponies and a set of harness, as punishment for the offense. The court took the wagon, and his counsel the ponies and harness as their fees. When questioned about it, they said "we do all same white man," This is conclusive proof of their rapid advance in civilization.—[Journal.

After an illness of several years with consumption, Mrs. Million, wife of John B. Million, was relieved from suffering by death, which came to her relief early last Saturday morning. The deceased leaves a husband and two children to mourn her untimely taking off. She was a dauzhter of R. T. Baldwin of this place. The funeral on Sunday afternoon was well attended by numerous friends of the family, the services being conducted by Rev. C. A. Lewis, of the M. E. Church.

James Vance, a Siskiyou county merchant, was in the valley several days last week, returning Monday. J. Churchill, Mr. Autenreith, and himself are to put in a system of water works for fire protection and domestic use at Yreka. They will pump the water into a large tank from which it is to be distributed. They are also calculating on putting in electric lights, and Mr. Vance took an inspection of the works here. He also purchased 5000 bushels of grain at Central Point and Tolo.

Plans are being consummated for the production of the celebrated opera, H. M. S. Pinafore, by home talent, the coming winter. We see no reason why Ashland cannot carry out and make successful an entertainment of this character, as well as do the much smaller places on the coast. "Queen Esther" was given here four years ago to crowded houses and with such success that it was rendered four times. "Pinafore" will take much better and insure larger houses.—[Normal Student.

The fires on the Warner valley sod have shortened up the stock range in that section materially. It is estimated that 3000 head of stock could have been wintered on the burnt district. About 1500 acres of this land is covered with ashes several inches deep, and will not be able to produce again for several years. During the time the fire was smouldering in the sod many cattle would rush in and soon the cords in their legs would be burned so that it would be impossible for them to get out, and among the number were some blooded bulls of the stockmen.

### Deputy Stock Inspector.

Capt. W. F. Songer has appointed Wm. Courtney, of Lake Creek, a deputy county stock inspector for the Butte creek section, and gives official notice to that effect in this week's RECORD. With Inspector Lyttleton, of Ashland, this makes two deputies for Jackson county and it is a convenience to all the stockmen having anything to do with the law on the subject.

### Rogue River Coal.

Extensive coal measures have been discovered in Curry county some thirty miles up the Rogue river. It is now well known that large fields of both coal and iron of the finest quality exists along and in the vicinity of Rogue river, in almost unlimited quantities, as well as copper, chrome, gold and silver ledges, and it only needs capital and energy intelligently applied to develop the latent wealth of that section. Valuable forests cover the mineral area.

### The New Superintendent.

Assistant General Manager R. H. Pratt and others came up from the Fourth and Townsend street, San Francisco, office Thursday, and relieved A. F. George, as superintendent of the Mount Shasta division (from Ashland to Red Bluff) of the S. P. R. R. The new superintendent is from El Paso, Tex., where he has been engaged in a similar occupation. His name is J. J. E. Linbury, and he has strong characteristics of belonging to the German race. Both he and ex-Supt. George were in town oh Thursday, returning south on Friday's train. The railroad boys have not yet made up their opinions of him, but they are awful glad that Friday George is out and over the fence.

### Insane at Fifty-Three.

M. Gainey, of this county, a native of Ireland, 53 years old, was left at the insane asylum yesterday for treatment, by Sheriff James G. Birdsey. This is a second attack and it is deemed unsafe to leave him at large. Six years ago similar symptoms were present. He had been suffering three months before his confinement. Religion and self-abuse in his case would not uphold reason and produced such mental condition that he was lassoed and handcuffed for his trip to Salem. He carried out his belief in sacrificing human property by setting fire to a small quantity. The only indication of sanity recorded in the examination is that the patient smokes and takes liquor moderately.—Salem Statesman.

### The $15,000 Road Contracts.

R. A. Emmitt, of Plevna, secured the contract for building and completing the road from Keno to the state line, for $10,000. His other bid was $8,400 for completing certain portions of the proposed road between the points above named. Albert Walker of Sprague river valley secured the contract for grading and bridging the road across Fish Hole creek. His bid was $1,275. Alfred Jacques, of Lakeview, secured the bid on the section between Round Grove and Quartz valley, $1,200 being the amount of his contract. This road must be completed and ready for acceptance by the board of commissioners on or before May 1st, 1890, says the Examiner.

### The City Election.

The date of the next city election is the third Tuesday in December. This event usually occurred on the second Tuesday in November, but the new city charter changed it to the above date, and also provides for the city officials to take the reins of goverment in their hands first of the year. The election next month will be for a mayor, six councilmen, recorder and marshal; the other officials, city surveyor, attorney and policemen, to be appointed at the first regular meeting of the council. After the first election three of the councilmen will be drawn by lot to serve for the long term, two years, and the balance will be succeeded at the next election. Thereafter three councilmen, mayor and other officers will be elected every year. Present indications point to a milder campaign than last year, and there will probably be but one regular ticket nominated. But notwithstanding this, there are reputed to be a lot of candidates for the offices, and the convention of citizens will have a big enough list to select from.

### Fire on a Train.

A short time after the Oregon & California passenger train left Grant's Pass Friday evening one of the coaches near the rear end of the train caught fire from the stovepipe, and for a few minutes it looked as though the destroyer would get beyond control. The rate of speed at which the train was moving fanned the flames into still greater fury. The conductor at once ran for one of the Holloway extinguishers, with which the sleepers are supplied, and started to wage war on the flames. Before he could use it, however, J. W. Girvin, general Pacific coast agent for the extinguisher, who happened to be on the train, seized the machine and operated it himself As he knew exactly how to use it, he soon had the fire under control. Only the inside woodwork of the one coach was burned, but had it not been for the prompt action of the officials the entire coach, as well as the one behind it, might have been destroyed.

### Council Proceedings.

Finance Com. reported: "Your Finance com. would hereby report that they have examined and checked off the items contained in the city treasurer's report from May 4th to Oct. 2d, 1889, inclusive, and find the same to be correct. W. B. Colton, chairman." Report accepted and filed.

A deed dedicating land for a new public street in northeastern part of town, to be 60 feet wide, from C. F. Blake, F. H. Carter, Bennett Million and F. Roper, was accepted and a public highway declared. The new road runs on the same line with Douglas street and Mountain avenue, and in order to avoid confusion the whole street was changed to Mountain avenue.

A deed from C. H. Hosley, J. E. Pelton, R. P. Neil and L. A. Neil dedicating a strip of land to the public use for a street connecting with Mountain avenue through their property in northeastern part of town, was read, and referred to street committee to resolve on.

O. H. Blount gives the motto of his clothing emporium in this issue of the RECORD. As Blount's "ads." are always big enough to look out for themselves, we need not call editorial attention to it.

The number of brick buildings that will go up in Ashland from now till next year this time is constantly increasing, and will probably exceed the number ever put up in Ashland any year before. S. F. Morine, who owns a large frontage next to the bank, contemplates tearing away his blacksmith shop and erecting a two-story brick block in its place.

The history class of the Ashland state normal school have just finished reading about Tarquin, the last king of the Roman empire, and last Friday the faculty and assembled students listened to the reading of an original lyric poem by General E. L. Applegate, entitled "Tarquin and the Sibyle." It received much praise as an able piece of literature

The Oregon state railway commission, an institution of law without being able to enforce its own mandates, came from the north with the S. P. officials Tuesday afternoon and returned on the evening train. The good time they had can be imagined by everybody but what good the commission is to the state has not been discovered during its trial of several years.

A black horse with his legs hobbled was on the railroad track near the old depot building as the freight train came in from the north Friday evening. The electric light on one side and the headlight on the other made the animal appear to the engineer as if it were two men, near the track, hence he let the engine go right ahead, pitching the animal into everlasting innocuous desuitude in short order.

Constable Taylor and W. R. Mayfield brought Lewis A. Allen in from Jenny creek Saturday to appear before Justice of the Peace Berry, on the charge of threatening to kill his wife and children, complaint by his wife. The action was demurred out of court by Allen's attorney, J. T. Bowditch, on account of the abscence of any specified charges. There are two sides to all cases, and the justice let the matter drop, as Mrs. Allen's life was not in so much danger from him as she thought.

One of the most pleased corporations at the termination of its four year mail contract with the government is the Western Stage Co., carrying the U. S. mail from the railroad at Ager to Linkville. They took the contract without knowing the cost of its maintenance, and the RECORD is authoritatively informed that after working hard and straining every nerve they have lost $10,000 in the four years soon to end. This is not much of an inducement for a renewal of the contract at the old figures.

J. Lee starts from Webster, Dakota, for Jackson county this week. He is a wealthy citizen and has a contract with several citizens of Tolo for the sale of 120 acres of land, the mill site, town site, etc., which is in the hands of another party who doesn't seem disposed to give it up, which will probably result in a legal fight. If Mr. Lee decides to take the place and operate it, he will make his headquarters in Ashland, and has engaged a residence adjoining that of J N Phillips, in the western part of town, to move his family into.

M. L. McCALL is enjoying some fine, mealy potatoes at his household—the fruits of a second crop of Early Rose potatoes. When they were dug last June a number of small ones were left in the ground are now of a good size and quality. Fresh potatoes in June and November from the same ground is not a bad advertisement for Ashland soil.
