The St. Louis Medical and Surgical Dispensary has been in business longer than any other Private Dispensary in this State, and say without fear of contradiction, that they treat more cases than any other Dispensary in the Northwest. The reason they have been icre a long time and do such a large practice, is because every doctor connected with the St. Louis Dispensary, is a graduate of Medicine and Surgery, and had years of experience and they make it a point to cure all cases they reice to, hence their patients when treated there, always speak a good word for the old St. Louis Dispensary. Interesting specimens of Tumors, Wens and Cancers can be seen at their place of business. Just take a look at their mont window and before you get humbugged by some of these advertising quacks in the city, just call around; a riendly talk will cost you nothing, and if you can be cured, they will tell you so frankly. They successfully treat all cases of
