## The Water Works.

In justice to the workmen engaged in laying the water mains in this city it is but right to explain the cause of the numerous leaks on Main street. The eight inch pipe is the spiral weld steel, and the method of joining is by a "hub" and a spigot, which are put on the pipe at the factory, and it is owing to the imperfect manner in which these have been put on that the numerous leaks occur, To make matters were the siskingular to Colestein Tuesday—their first trip. To make matters worse the workmen

Misses M. and A. Byrnes of San Mateo, made perfect, when the cost of so doing Miss Grace Diggles of Ft. Jones, and will be deducted from the amount, thus Henry E. Diggles, the Montague mer-protecting the city against loss. The protecting the city against loss. The trouble on this pipe has delayed the final completion of the work, as the old six inch pipe now in use cannot be taken up to be re-laid elsewhere until the new pipe is made perfect, which we trust will now be very soon.

All other pipe to which pressure has been applied has proven satisfactory.

All other pipe to which pressure has been applied has proven satisfactory.
