The St. Louis Medical and Surgical Dispensary has been in business longer than any other Private Dispensar in this State, and say without fear of contradiction, that they treat more cases than any other Dispensary in the Northwest. The reason they have been here a long time and do such a large practice, is because every doctor connected with the St. Louis Dispensary, is a graduate of Medicine and Surgery, and had years of experience and they make it a point to cure all cases they e ce to, hence their patients when
