Editor Union:—Owing to my own and other people's business requiring my constant attention, and my inability to make a five dollar response to the campaign covering made me by my friend Paul.

Secretary of the central committee, the one-eyed Goddess of Justice will have to go along in Montana with some other business. I hope she will be on the streets at night and behave herself the same as though she was leaning on my arm and not on my right arm. My friend Paul is not the case. Although differing in politics, I have only the kindest feeling for my old friend Ben Harrison, and it is not for the reason of his above stated fact that I have a felon on my thumb and don't want any more on hand, even in an official capacity.
