This is Meant for You.

It has been truly said that half the world does not know how the other half lives. We, who are so fortunate as to have perfect blood, owing to the impure condition of blood, but we rub along from day to day, and we are not the only ones who are suffering from scrofula, salt rheum and other serious blood disorders. The thousands of all about us who are suffering from scrofula, salt rheum and other serious blood disorders. The thousands of all about us who are suffering from scrofula, salt rheum and other serious blood disorders.

The marked success of Hood's Sarsaparilla in curing the troubles of those who are suffering from scrofula, salt rheum and other serious blood disorders. The thousands of all about us who are suffering from scrofula, salt rheum and other serious blood disorders.

Wonder if the people of Oregon, who are suffering from scrofula, salt rheum and other serious blood disorders. The thousands of all about us who are suffering from scrofula, salt rheum and other serious blood disorders.

The trial is being well attended, not only by those who are suffering from scrofula, salt rheum and other serious blood disorders. The thousands of all about us who are suffering from scrofula, salt rheum and other serious blood disorders.

State is Fate.

Klamath County State.

The \$4000 appropriation for a wagon road from Keno to Soda Springs helped the wagon road committee to get their figures down to \$37,000, but it didn't help Klamath county. In the 40 per cent reduction recommended by that committee, the road from Eagle Point to Soda Springs, which is the Eagle Point four mill, seems to be one of the pet roads, since it would cost \$20,000, although that road would accommodate the wagon road. The road to be put in traveling condition for less than \$75,000. But the \$5000 will do but little good for the Klamath road. It will pay for some of the expenses of the road, and finally be exhausted, leaving a very large Oregon community to continue picking its way to a California market and "using" the wagon road.

Private information has been received by the S. F. News Letter of the discovery of an old quartz mine in Lake county, Oregon. It is one which had been overlooked for different prospectors, and was found accidentally last fall by some sheep herders, who came across the old camp, and found the skeletons of the last party of prospectors, who had evidently been murdered by Indians. It has every appearance of having been a permanent camp, as the date 1867 was stamped on the trees, and there is a considerable quantity of quartz piled up close by, some of which are good in the lot. There is great excitement in the neighborhood over the matter, and many claims have already been taken up. The location lies west of a small town called Paisley. It is predicted that things will boom there in the spring.

The following list of news is in the Lakeview Examiner: There is a petition from Klamath county, signed by about 300 names, asking the legislature to legalize a convention to pass a bill making Klamath and a portion of Jackson a new land district, with the land office at Linkville. Wonder if the people of Oregon and Lake county will sit around and snicker at them as they did the H. J. district?
