A Patented Mower.

J. H. Redfield is in Tacoma where a foundry is manufacturing four mowing machines which the Redfield boys invented and patented Jan. 1, 1886, but were unable to have manufactured before on account of a lack of finances. Three of the mowers will be shipped to Jackson county to be tested and the other will be tested in Washington by Mayor Grainger of this city, who has that territory. J. W. Cunningham of Ashland, is interested in the enterprise and is sanguine of its being a great success.

Jay Beach and Altamont.

The principal attraction at Vancouver is its horse industry, for it has many rich men who have manifested a delight in horsemanship. Of course the chief interest centers in Altamont, who is the sire of nearly all the fast horses and performers in vicinity. Altamont's performers are as follows:

Alta 2:25 1/2, Stenwinder 2:25 1/4, Lady Beach 2:26 1/4, Alta 2:26 1/2, Waltha (3 year) 2:26 3/4, Alta (3 yr) 2:27, Sephon 2:28 1/4, Zylphona 2:30, Truell 2:34 1/2, Fremont 2:35, Seneca (2 yr) 2:37, Lago (3 yr) 2:42, Benlat (2 yr) 2:47 1/2, Lady Dakine (2 yr) 2:50, Georgia Woodhorse 2:52 1/2, Wanda 2:57, Alta A (2 yr) 2:59, Ellie 2:59 1/2.

Altamont is now 16 years old. His pedigree is famous, it being by sired by sired 33, dam Sue Ford. From 1877 to 1880 he had no opportunity to show his merit, being out on an alkali desert, where Mr. Beach was post-master at the Klamath reservation. His first season, 1880, he was at Jacksonville, where he had only fifteen mares; in 1881 he came down here and got only seventeen colts. Three of them died young, and only a few were tried; but among the few that were sired by him were the best of the breed. From that time on he has had good success. In 1880 he served 128 mares, but this year he had to limit him to the year that Cognata won the 2-year stakes, seven out of the ten mares of the year offered for Oregon-bred colts to Altamont's get. His foals have also won the 2-year stakes three years in succession.

"The Jersey Lily."

ANGELERA COTTAGE, L. B. July 2. Gentlemen—Alho I is very unusual for me to use any means or pills, still in answer to your request, I have tried "Widener's Violet Cream and Robertine." The former I consider especially efficacious in cases of roughness of the skin, and I have been using it every day for about four weeks. I have found the Robertine an excellent preparation in cases of tan, sunburn, freckles, and up to March winds and a July sun. Yours faithfully, LILLIE LANGTRY

Changed Hands—The Oregon.

Mr. Reed has already commenced making improvements about this fine hotel and will have it fixed up in even better style than it is now. The change of proprietorship also comes a change in rates, the new management contemplating to make special inducements in the way of very reasonable rates for local custom—that is people from Southern Oregon and Northern California.

Max Pracht Removed.

Washington, April 12.—Max Pracht has lost his position as collector of customs for the Alaska district, and Edward T. Hatch, of McCoy, Polk county, Oregon, a state senator, has been appointed in his place. This removal, though contemplated for some time, has been kept quiet because the Oregon congress was expected to secure the vacancy for their own state. Pracht's appointment was only secured after hard work and even then the Oregon senators had to fight for his nomination in the senate. Pracht proceeded to his duties and soon afterward the governor of Alaska decided that he ought to change the liquor traffic regulations for Alaska, in deference to the popular demand in all the towns of the territory, where meetings were held. They were held on the asking that they be allowed to engage in the retail liquor business. As a result of the law, the collector of Alaska, Pracht, is obliged to pay \$250 per year, this money to go into a fund to be known as the street improvement fund.
