We hope to have the pleasure of greeting you on that occasion, together with your family and friends. It is desirable that the annual reunions of the society be perpetuated. All male members will please come prepared to pay their annual dues to the society. Respectfully yours, S. L. J. DAVY, Sec'y. Jacksonville, Or., Aug. 11, 1891.

PROMINENT BUSINESS CHANGES.

F. Roper sells the Ashland Mills to Outside Parties.—Morris's Blacksmith Shop Sold.—The sale of the Ashland City Roller Flouring Mills from Fordyce Roper to W. E. Jacobs of Puyallup, Wash., and W. J. Virgin of Boardman, Wis., was consummated last Saturday. The entire mill property and two acres of land about it, not including the grove, and the mill span of horses and wagons were in the bargain. The consideration was \$125,000. The new firm are to take possession on November first. Mr. Roper is to run the mill up to that time and the purchasers are to take the stock on hand at the time. The new purchasers combine large capital and exceptionally good business ability and enterprise and will be an aid to the town, as with them will come other people of means and enterprise. Mr. Jacobs, accompanied by his wife, returned Saturday to Puyallup, Wash., to look after his extensive hop fields. Mr. Virgin, of Boardman, Wis., an experienced mill man, will run the mill, and will move here. S. F. Morine has sold his blacksmith shop, composed of his brick building, the ground it stands on, the tools, etc., to E. Matson, the blacksmith who has been running a shop on Water street. Mr. Matson took possession today. The consideration was \$4000. The experiment of growing sugar beets being made by J. W. Wiley is very favorable, they are growing nicely. Claus Spreckels & Co. are in contact on the matter of sugar beet raising in this county and if the farmers of this county will plant 5000 acres in sugar beets he will establish a sugar factory here as extensive as that at Watsonville, Cal. The raising of the sugar beet acts as a great stimulant to land, which raises richer crops after planting to be done. The survey on the Chicago board of trade has not affected the local market correspondingly. Mr. Roper of the Ashland mill says that the wheat crop is better than it has been for some time. There has undoubtedly been a steady advance in the price of wheat and it will show itself on the first of September. Wheat will then undoubtedly sell for at least 65 cents in the local market. E. M. Houx of Colusa, Cal. is here and wants to buy 100 tons of seed wheat, clear of wild oats, for which he offers 65 cents. S. Patterson's Hower harvester has finished his corn and the crops of Jack Casebeer and J. B. Carlisle. Joshua Patterson's threshing has completed the threshing on his farm. The threshing of John H. Reed, S. U. Allard, E. B. Myer, W. C. Butler and is now on the way to J. P. Walker place. The Bybee machine operated in the center of the valley by H. T. Turpin one day reaped through 2200 bushels of wheat. The harvesting is about one-third completed. Settle Up and Pay Up. Crops of all kinds are good and ready to sell. All indebted to the bank will therefore promptly and without delay, settle up and pay up. Aug. 13, '91. 31 J. M. McCALL.

BREVITY BASKET.

Mr. Thomas Hatte, editor of the Graphic, Teutarkana, Arkansas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says: "Last summer I had a very severe attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. Take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicine in existence." 25 and 50 cent bottles for sale by druggists.
